Spice Of Life Pleasures Of The Victorian:

The Spice of Life Patrick Beaver,1979-01-01 **The Victorian Music Hall** Dagmar Kift,1996-10-24 With the exception of the occasional local case study music hall history has until now been presented as the history of the London halls This book attempts to redress the balance by setting music hall history within a national perspective Kift also sheds a new light on the roles of managements performers and audiences For example the author confutes the commonly held assumption that most women in the halls were prostitutes and shows them to have been working women accompanied by workmates of both sexes or by their families She argues that before the 1890s the halls catered predominantly to working class and lower middle class audiences of men and women of all ages and were instrumental in giving them a strong and self confident identity The hall s ability to sustain a distinct class awareness was one of their greatest strengths but this factor was also at the root of many of the controversies which surrounded them These controversies are at the centre of the book and Kift treats them as test cases for social relations which provide fresh insights into nineteenth century British society and politics

The Architecture of Pleasure Josephine Kane,2016-03-16 The amusement parks which first appeared in England at the turn of the twentieth century represent a startlingly novel and complex phenomenon combining fantasy architecture new technology ersatz danger spectacle and consumption in a new mass experience Though drawing on a diverse range of existing leisure practices the particular entertainment formula they offered marked a radical departure in terms of visual experiential and cultural meanings The huge socially mixed crowds that flocked to the new parks did so purely in the pursuit of pleasure which the amusement parks commodified in exhilarating new guises Between 1906 and 1939 nearly 40 major amusement parks operated across Britain By the outbreak of the Second World War millions of people visited these sites each year The amusement park had become a defining element in the architectural psychological pleasurescape of Britain This book considers the relationship between popular modernity pleasure and the amusement park landscape in Britain from 1900 1939 It argues that the amusement parks were understood as a new and distinct expression of modern times which redefined the concept of public pleasure for mass audiences Focusing on three sites Blackpool Pleasure Beach Dreamland in Margate and Southend s Kursaal the book contextualises their development with references to the wider amusement park world The meanings of these sites are explored through a detailed examination of the spatial and architectural form taken by rides and other buildings The rollercoaster a defining symbol of the amusement park is given particular focus as is the extent to which discourses of class gender and national identity were expressed through the design of these parks *Music Hall Mimesis in British Film, 1895-1960* Paul Matthew St. Pierre,2009 In *Music Hall Mimesis in British Film 1895 1960* Dr St Pierre examines strategies of representing British music hall performance 1854 1919 and the performance of the body in British cinema in the silent era 1895 1927 and the sound era 1927 60 The focus is on films of Fred and Joe Evans Frank Randle Will Hay George Formby Arthur Lucan and Kitty McShane Cicely Courtneidge Jessie Matthews Norman Evans Max
