Spinoza Richard Mason, 2007 Approaching the central themes of Spinoza's thought from both a historical and analytical perspective this book examines the logical metaphysical core of Spinoza's philosophy its epistemology and its ramifications for his much disputed attitude towards religion Opening with a discussion of Spinoza's historical and philosophical location as the appropriate context for the interpretation of his work the book goes on to present a non logical reading of Spinoza's metaphysics a consideration of Spinoza's radical repudiation of Cartesian subjectivism and an examination of how Spinoza wanted religion to be understood in the context of his wider thinking and the influence of his non Christian background Mason also assesses Spinoza's significance and importance for philosophy now *The Making of the Humanities* Rens Bod, Jaap Maat, Thijs Weststeijn, 2010 This first volume in The making of the humanities series focuses on the early modern period Specialists from various disciplines offer their view on the history of linguistics literary studies musicology historiography and philosophy *Yves de Vallone: The Making of an Esprit-Fort* James O'Higgins, 2012-12-06 The writing of the second part of this book presented a peculiar difficulty On the one hand I had the great advantage of having found the first rough draft of the manuscript *La Religion du Chretien* corrected and often recorrected Authorship could eventually be established beyond shadow of doubt and in the corrections one could see de Vallone changing his opinions as he wrote On the other the sheer length of the manuscript about 140 000 words plus the number of corrections well over 3 000 many of them lengthy the enormous number of references in the text to the Classics to the Scriptures and Apochrypha to the Fathers to Philosophers ancient and contemporary or near contemporary to de Vallone and to a considerable number of other contemporary authors all of which would require a footnote not to speak of other footnotes necessary as comments on the text itself made the production of a critical edition a financial impossibility Instead I decided for the sake of scholars interested in this type of manuscript to give a full indeed meticulous perhaps too meticulous digest of the manuscript with a running commentary showing the influences working on de Vallone the intellectual atmosphere in which he lived indicating the significance of all the major revisions and corrections in his text and commenting on what one can only describe as his own world theory and on his use of his authorities and of their influence upon him [Handbook of the History of the Philosophy of Law and Social Philosophy](#) Gianfrancesco Zanetti, Mortimer Sellers, Stephan Kirste, 2023-04-03 This Handbook discusses representative philosophers in the history of the philosophy of law and social philosophy giving clear concise expert definitions and explanations of key personalities and their ideas It provides an essential reference for experts and newcomers alike **A Critical History of Western Philosophy** Y. Masih, 1999 This is the enlarged edition of a Critical History of Modern Philosophy In this new edition Greek and Medieval Philosophies have been added The book also includes a critical and comparative account of the major contributions of eight modern thinkers To this exposition the idealism of Hegel and Bradley has been introduced Recent discussions concerning Hume Kant Hegel and Bradley have also been incorporated

Whilst giving fully an analytic account of topics the author maintains that philosophy is a holistic enterprise of man as we find it in Spinoza Kant Hegel and Bradley The book has turned out to be a reliable and useful to the students of the subject throughout India This thoroughly revised and enlarged edition will prove to be all the more serviceable in general

Spinoza Stuart Hampshire,1951 **Spinoza's Metaphysics** James Benjamin Wilbur,1976 *The Oxford Dictionary of the Christian Church* Frank Leslie Cross,Elizabeth A. Livingstone,2005 Uniquely authoritative and wide ranging in its scope The Oxford Dictionary of the Christian Church is the indispensable one volume reference work on all aspects of the Christian Church It contains over 6 000 cross referenced A Z entries and offers unrivalled coverage of all aspects of this vast and often complex subject including theology churches and denominations patristic scholarship the bible the church calendar and its organization popes archbishops saints and mystics In this revision innumerable small changes have been made to take into account shifts in scholarly opinion recent developments such as the Church of England's new prayer book Common Worship RC canonizations ecumenical advances and mergers and where possible statistics A number of existing articles have been rewritten to reflect new evidence or understanding for example the Holy Sepulchre entry and there are a few new articles Perhaps most significantly a great number of the bibliographies have been updated Established since its first appearance in 1957 as an essential resource for ordinands clergy and members of religious orders ODCC is an invaluable tool for academics teachers and students of church history and theology as well as for the general reader **Social Thought and Rival**

Claims to the Moral Ideal of Dignity Philip Hodgkiss,2018-04-16 The relation between changes in society over historical time and the concomitant transformation of a concept that depicts something of intrinsic value in that society is complex and contingent Social Thought and Rival Claims to the Moral Ideal of Dignity attempts to see if we can get any closer to a rounded three dimensional view of dignity by drawing on the historical record on philosophy and social thought more widely and finally on contributions that present dignity in a rather more public and political light In thus tracing the fortunes of human dignity we find that it has not always been viewed as a straightforwardly laudable principle Social Thought and Rival Claims to the Moral Ideal of Dignity examines the reasons behind what turns out to be really quite pronounced the ambiguous status of the idea and ideal of dignity **Matthew Arnold and Goethe** James Simpson,1979 **Dance to the**

Tune of Life Denis Noble,2017 This book formulates a relativistic theory of biology challenging the common gene centred view of organisms *The Ways of Philosophy* Milton Karl Munitz,1979 **Logical and Ethical Issues** Bimal Krishna Matilal,2004 **Making of the Modern Mind** Philip Hodgkiss,2001-08-01 The Making of the Modern Mind traces the emergence of consciousness in social thought from the 17th Century to the 21st Against the classical notions of consciousness and self alternative agendas began to be developed in the 19th Century by figures as diverse as Marx and Nietzsche The struggles between classical conceptions of consciousness and these alternatives which promised more radical and emancipatory interpretations continued into the 20th Century From the start the concept of consciousness connected

with a range of other notions Questions of the self and of identity were widely disputed in the Enlightenment whilst the 20th Century contributed new concerns chiefly the philosophical issues of being and acting and the problematic status of reality for a theory of mind Today consciousness is viewed much more as a public and linguistic world rather than a private and mentalistic one The Making of the Modern Mind explores the contemporary debates around consciousness and identity crucially setting the analysis within its social and historical context Written in a clear and engaging style the book will be of interest to students in Philosophy Psychology Sociology and Anthropology *The Divine Ecology* Ian Mills,2004 **Beyond Depression** Christopher Dowrick,2004 Beyond Depression written by a practicing GP is a radical insiders critique of prevailing views about the diagnosis and management of depression It recommends alternative approaches based on enabling people in distress to generate a sense of purpose and meaning with doctors concentrating on listening rather than prescribing The book combines scientific analysis with extensive literary and philosophical sources and a series of sensitive case analyses **Philosophical Dimensions of Personal Construct Psychology** Bill Warren,2002-09-11 This book traces the philosophical history of Personal Construct Psychology through the broad and complex tradition of phenomenology and thinkers such as Spinoza Hegel and Heidegger The author also gives credit to the influence of general creative and dramatic literature across a variety of cultures Specific issues addressed in depth include the position of Personal Construct Psychology with regard to philosophy of science determinism and free will concepts of mental illness and the implications for social and political philosophy **The Light of Reason** Martin Hollis,1973 **Reflections in Personal Construct Theory** Richard Butler,2009-03-18 Internationally renowned practitioners discuss the impact of reflexivity on their work giving those new to personal construct psychology valuable insights and guidance on managing the therapeutic relationship Reflexivity is a key methodological issue in psychological theory and practice and is an area of growing interest International contributors include prominent constructivist psychologists such as Richard Bell and David Winter Will help constructivist therapists to gain a better understanding of the nature of personal constructs from the perspective of both client and therapist *Europe in the Seventeenth Century* David Ogg,1971
