Wells has been branded as a novelist who betrayed his vocation But Wells saw himself as what we would today call a public
intellectual How credible is this claim And what happens when we look at him in this way So typecast has Wells s reputation
become that neither of these questions has been previously asked but when we look at Wells as a thinker we find a whole
new quality to his later works which have invariably been dismissed by literary scholars as of low quality or even not worth
reading In particular Wells s prescience as a prophet of our current environmental problems stands out for example he
foresaw anthropogenic climate change as early as 1931 Popular conceptions of Wells as racist imperialist and eugenicist are
also challenged What emerges is a new perspective on a significant public intellectual and pioneering prophet of the twenty
