Curtis, 2007-11-30 Recipient of the Frank S and Elizabeth D Brewer Prize of the American Society of Church History for 2007 Faith in the Great Physician tells the story of how participants in the evangelical divine healing movement of the late nineteenth century transformed the ways Americans coped with physical affliction and pursued bodily health Examining the politics of sickness health and healing during this period Heather D Curtis encourages critical reflection on the theological cultural and social forces that come into play when one questions the purpose of suffering and the possibility of healing Curtis finds that advocates of divine healing worked to revise a deep seated Christian ethic that linked physical suffering with spiritual holiness By engaging in devotional disciplines and participating in social reform efforts proponents of faith cure embraced a model of spiritual experience that endorsed active service rather than passive endurance as the proper Christian response to illness and pain Emphasizing the centrality of religious practices to the enterprise of divine healing Curtis sheds light on the relationship among Christian faith medical science and the changing meanings of suffering and healing in American culture **Nineteenth century miracles; or, Spirits and their work in every country of the earth** Emma Hardinge Britten, 1883 **Interdisciplinary Perspectives on Aging in Nineteenth-Century Culture** Anne-Julia Zwierlein, Katharina Boehm, Anna Farkas, 2013-08-15 This essay collection develops new perspectives on constructions of old age in literary legal scientific and periodical cultures of the nineteenth century Rigorously interdisciplinary the book places leading researchers of old age in nineteenth century literature in dialogue with experts from the fields of cultural legal and social history It revisits the origins of many modern debates about aging in the nineteenth century a period that saw the emergence of cultural and scientific frameworks for the understanding of old age that continue to be influential today The contributors provide fresh readings of canonical texts by Charles Dickens Elizabeth Gaskell Anthony Trollope Thomas Hardy Henry James and others The volume builds momentum in
