court of colonial Mexico By carefully reconstructing social networks in the court of Viceroy Duke of Albuquerque 1702 1710 Christoph Rosenm ller reveals that the Duke presided over one of the most corrupt viceregal terms in Mexican history Albuquerque was appointed by Spain s King Philip V at a time when expanding state power was beginning to meet with opposition in colonial Mexico The Duke and his retainers though seemingly working for the crown actually built close alliances with locals to thwart the reform efforts emanating from Spain Albuquerque collaborated with contraband traders and opposed the secularization of Indian parishes He persecuted several local craftsmen and merchants some of whom died after languishing in jail accusing them of treason to bolster his own credentials as a loyal official In the end however the dominant clique at the royal court in Madrid sought revenge Albuquerque was forced to pay an unheard of indemnity of 700 000 silver pesos to regain the king s favour Dealing with a topic and period largely ignored by historiography Rosenm ller exposes the vast patronage power of the viceroy at the historical watershed between the expiring Habsburg dynasty and the incoming Bourbon rulers His analysis reveals that precursors of the Bourbon reforms and the struggle for Mexican independence were already at play in the early eighteenth century **International Review of Social History** ,2004

start of NAFTA in 1994 Coahuila has become one of Mexico's most successful export oriented manufacturing states most importantly as a result of the large number of foreign direct investments it received However the effects of these developments have been unevenly distributed among its sub regions while questions must also be raised about its ability to contribute to sustained long term growth with equity The key issue appears to be not whether but how regions and localities become linked to the world economy page 4 of cover
