Spirit Of The Soil Agriculture And Environmental Ethics:

The Spirit of the Soil Paul B. Thompson, 2017-05-25 In this second edition of *The Spirit of the Soil Agriculture and Environmental Ethics* Paul B Thompson reviews four worldviews that shape competing visions for agriculture Productionists have sought increasing yields to make two seeds grow where only one grew before while traditional visions of good farming have stressed stewardship These traditional visions have been challenged by two more worldviews a call for a total cost accounting for farming and an advocacy for a holistic perspective Thompson argues that an environmentally defensible systems approach must draw upon all four worldviews recognizing their flaws and synthesizing their strengths in a new vision of sustainable agriculture This classic 1995 study has been thoroughly revised and significantly expanded in its second edition with up to date examples of agriculture s impact on the environment These include extensive discussions of new pesticides and the effects of animal agriculture on climate and other areas of the environment In addition a new final chapter discusses sustainability which has become a dominant idea within environmental studies and agrarian political philosophy

The Agrarian Vision Paul B. Thompson, 2010-07-07 As industry and technology proliferate in modern society sustainability has jumped to the forefront of contemporary political and environmental discussions The balance between progress and the earth s ability to provide for its inhabitants grows increasingly precarious as we attempt to achieve sustainable development In *The Agrarian Vision Sustainability and Environmental Ethics* Paul B Thompson articulates a new agrarian philosophy emphasizing the vital role of agrarianism in modern agricultural practices Thompson a highly regarded voice in environmental philosophy unites concepts of agrarian philosophy political theory and environmental ethics to illustrate the importance of creating and maintaining environmentally conscious communities Thompson describes the evolution of agrarian values in America following the path blazed by Thomas Jefferson John Steinbeck and Wendell Berry Providing a pragmatic approach to ecological responsibility and commitment *The Agrarian Vision* is a significant compelling argument for the practice of a reconfigured and expanded agrarianism in our efforts to support modern industrialized culture while also preserving the natural world

Reconstructing biotechnologies Guido Ruivenkamp, Shuji Hisano, Joost Jongerden, 2023-08-28 The main subject of this publication is the co creation of society and biotechnology The authors do not treat society and biotechnology as separate domains instead they consider technologies as socially constructed The main focus of this publication is on agro biotechnologies and the contributors present perspectives for reconstruction both from and in the North and the South *Reconstructing biotechnologies* offers a range of critical social analyses confronting the actuality of biotechnology with the potentialities of its social reconstruction In doing that the book develops and merges literature from four different disciplines namely i critical theory and its analyses of technology and power ii political economy critically assessing the interrelationship between economy politics and technology iii social constructivism which holds that technology is the product of agency and knowledge systems and iv the analysis of rural society and agrarian technologies in

rural sociology Reconstructing biotechnologies introduces exciting approaches and examples into the social reshaping of biotechnologies It brings together critical examinations of contemporary biotechnology development and puts forward possible alternatives written by critical scholars The contributions in this publication are for students and scholars in a wide range of disciplines such as social and political sciences science and technology studies and development studies The editors of the book are associated with the Social Sciences Department of Wageningen University in the Netherlands and the Graduate School of Economics of Kyoto University in Japan They have published extensively on social and political theory and biotechnology
