**The Father's Spirit of Sonship** Thomas Weinandy, 2011-01-01 This book attempts to reconceive the Trinity Its thesis is that the Father begets the Son in or by the Holy Spirit The Spirit proceeds from the Father as the one in whom the Son is begotten While some contemporary authors have proposed a similar view no one has done so in such a complete and systematic fashion Reconceiving the Trinity in this way has a number of advantages Firstly it is more in keeping with the New

Testament proclamation and thus it more closely aligns the economic and immanent Trinity Secondly it overcomes the inadequacies of traditional trinitarian formulations in both Eastern and Western Churches which incorporates erroneous philosophical presuppositions Thirdly it offers a resolution to the filioque controversy which may be acceptable to both the Latin and the Orthodox Churches This book is therefore highly ecumenical in importance Fourthly it gives a more active and essential role to the Holy Spirit within the immanent Trinity something that has been lacking throughout the trinitarian tradition The true subjectivity or personality of the Holy Spirit is more clearly defined This book brings out the spiritual and practical importance of the Trinity for the everyday lives of Christians It defines more clearly how Christians are grafted into the very life of the Trinity how they come to relate to the persons of the Trinity in a manner analogous to the way they relate to one another
