Theology of the Holy Spirit Anthony Briggman, 2012-01-12 Irenaeus theology of the Holy Spirit is often highly regarded amongst theologians today but that regard is not universal nor has an adequate volume of literature supported it This study provides a detailed examination of certain principal often distinctive aspects of Irenaeus pneumatology In contrast to those who have suggested Irenaeus held a weak conception of the person and work of the Holy Spirit Anthony Briggman demonstrates that Irenaeus combined Second Temple Jewish traditions of the spirit with New Testament theology to produce the most complex Jewish Christian pneumatology of the early church In so doing Irenaeus moved beyond his contemporaries by being the first author following the New Testament writings to construct a theological account in which binitarian logic did not diminish either the identity or activity of the Holy Spirit That is to say he was the first to support his Trinitarian convictions by means of Trinitarian logic Briggman advances the narrative that locates early Christian pneumatologies in the context of Jewish traditions regarding the spirit In particular he argues that the appropriation and repudiation of Second Temple Jewish forms of thought explain three moments in the development of Christian theology First the existence of a rudimentary pneumatology correlating to the earliest stage of Trinitarian theology in which a Trinitarian confession is accompanied by binitarian orientation logic such as in the thought of Justin Martyr Second the development of a sophisticated pneumatology correlating to a mature second century Trinitarian theology in which a Trinitarian confession is accompanied by Trinitarian logic This second moment is visible in Irenaeus thought which eschewed Jewish traditions that often hindered theological accounts of his near contemporaries such as Justin while adopting and adapting Jewish traditions that enabled him to strengthen and clarify his own understanding of the Holy Spirit Third the return to a rudimentary account of the Spirit at the turn of the third century when theologians such as Tertullian Origen and Novatian repudiated

Jewish traditions integral to Irenaeus account of the Holy Spirit **Life in the Spirit** Douglas Finn, 2015-12-31 Since the nineteenth century many philosophical and theological commentators have sought to trace lines of continuity between the Trinitarian thought of Augustine of Hippo 354 430 and G W F Hegel 1770 1831 Many contemporary Christian theologians have also criticized Augustine's Trinitarian theology generally and his doctrine of the Holy Spirit more specifically through this historical lens At the same time Hegelian Trinitarian conceptual dynamics have come to exert a strong influence over contemporary Trinitarian theology In *Life in the Spirit* Douglas Finn seeks to redress several imbalances with respect to Augustine imbalances that have one of their hermeneutic causes in a Hegelian influenced theological tradition Finn argues that common readings of Augustine focus too much on his *De Trinitate* books 8 15 betraying a modern and to some extent Hegelian prejudice against considering sermons and biblical commentaries serious theological work This broadening of Augustinian texts allows Finn to critique readings of Augustine that on the one hand narrow his Trinitarian theology to the so called psychological analogy and thus chart him on a path to Descartes and Hegel or on the other hand suggest he sacrifices a theology of the Trinitarian persons on the altar of divine substance Augustine's Trinitarian theology on Finn's reading is one fully engaged with God's work in history With this renewed understanding of Augustine's Trinitarianism Finn allows Augustine to interrogate Hegel with his concerns rather than only the other way around In this ambitious study Finn shows that Hegel's rendition of Christianity systematically obviates whole swaths of Christian prayer and practice He does this nonpolemically carefully and with meticulous attention to the texts of both great thinkers The Gospel magazine, and theological review. Selections from the Works of Rudolf Steiner Without the spiritualist movement and the amazing personality of Helena Petrovna Blavatsky the creator of the Theosophical Society the spiritual revolution of the twentieth century the so called New Age with all its movers and shakers would be unimaginable And the work of Rudolf Steiner G I Gurdjieff Ren Gu non Hazrat Inayat Khan Sri Aurobindo R A Schwaller de Lubicz and C G Jung could not have become what it was In this fascinating volume on the Theosophical movement Rudolf Steiner one of its primary participants tells his story in his own words We are told of the origins of the theosophical movement in spiritualism and somnambulism We are given Steiner's own version of the relationship between Anthroposophy and Theosophy through his White Lotus Day Lectures given over several years on the anniversary of Madame Blavatsky's death Steiner then moves into the realm of occult history where he relates Theosophy to its historical ground in Western esotericism especially Rosicrucianism He reveals events from the seventeenth century that led to the emergence of Freemasonry and other secret societies as well as the hidden history of the creation of Theosophy in the nineteenth century and the conflicts that still reverberate today between the Anglo Saxon and Germanic occult streams
