vibrant and most influential performance traditions This accessible and complete history provides a comprehensive overview of Japanese theatre and its continuing global influence Written by eminent international scholars it spans the full range of dance theatre genres over the past fifteen hundred years including noh theatre bunraku puppet theatre kabuki theatre shingeki modern theatre rakugo storytelling vanguard butoh dance and media experimentation The first part addresses traditional genres their historical trajectories and performance conventions Part II covers the spectrum of new genres since Meiji 1868 and Parts III to VI provide discussions of playwriting architecture Shakespeare and interculturalism situating Japanese elements within their global theatrical context Beautifully illustrated with photographs and prints this history features interviews with key modern directors an overview of historical scholarship in English and Japanese and a timeline A further reading list covers a range of multimedia resources to encourage further explorations *Ancestral Recall* Aoife Assumpta Hart, 2016-06-01 Despite distance and differences in culture the early twentieth century was a time of literary cross pollination between Ireland and Japan Notably the Irish poet and playwright William Butler Yeats had a powerful influence on Japanese letters at the same time that contemporary and classical Japanese literature and theatre impacted Yeats's own literary experiments Citing an extraordinary range of Japanese and Irish texts Aoife Hart argues that Japanese translations of Irish Gaelic folklore and their subsequent reception back in Ireland created collisions erasures and confusions in the interpretations of literary works Assessing the crucial roles of translation and transnationalism in cross cultural exchanges between the Celtic Revival and Japanese writers of the modern period Hart proves that interlingual dialogue and folklore have the power to reconstruct a culture's sense of heritage Rejecting the notion that the Celtic Revival was inward and parochial Hart suggests that seeking to protect their heritage from the forces of globalization the Irish adapted their understanding of heritage to one that exists within the transnational contexts of modernity a heritage that is locally produced but internationally circulated In doing so Hart maintains that the cultural contact and translation between the East and West traveled in more than one direction it was a dialogue presenting modernity's struggles with cosmopolitanism gender ethnic identity and transnationalism An inspired exploration of transpacific literary criticism Yeats scholarship and twentieth century Japanese literature *Ancestral Recall* tracks the interplay of complex ideas across languages and discourses

Romantic Prose Fiction Gerald Gillespie, Manfred Engel, Bernard Dieterle, 2008-02-14 In this volume a team of three dozen international experts presents a fresh picture of literary prose fiction in the Romantic age seen from cross cultural and interdisciplinary perspectives The work treats the appearance of major themes in characteristically Romantic versions the power of Romantic discourse to reshape imaginative writing and a series of crucial reactions to the impact of Romanticism on cultural life down to the present both in Europe and in the New World Through its combination of chapters on thematic generic and discursive features *Romantic Prose Fiction* achieves a unique theoretical stance by considering the opinions of primary Romantics and their successors not as guiding truths by which to define the permanent meaning of Romanticism but

as data of cultural history that shed important light on an evolving civilization SPECIAL OFFER 30% discount for a complete set order 5 vols The Romanticism series in the Comparative History of Literatures in European Languages is the result of a remarkable international collaboration The editorial team coordinated the efforts of over 100 experts from more than two dozen countries to produce five independently conceived yet interrelated volumes that show not only how Romanticism developed and spread in its principal European homelands and throughout the New World but also the ways in which the affected literatures in reaction to Romanticism have redefined themselves on into Modernism A glance at the index of each volume quickly reveals the extraordinary richness of the series total contents Romantic Irony sets the broader experimental parameters of comparison by concentrating on the myriad expressions of irony as one of the major impulses in the Romantic philosophical and artistic revolution and by combining cross cultural and interdisciplinary studies with special attention also to literatures in less widely diffused language streams Romantic Drama traces creative innovations that deeply altered the understanding of genre at large fed popular imagination through vehicles like the opera and laid the foundations for a modernist theater of the absurd Romantic Poetry demonstrates deep patterns and a sharing of crucial themes of the revolutionary age which underlie the lyrical expression that flourished in so many languages and environments Nonfictional Romantic Prose assists us in coping with the vast array of writings from the personal and intimate sphere to modes of public discourse including Romanticism s own self commentary in theoretical statements on the arts society life the sciences and more Nor are the discursive dimensions of imaginative literature neglected in the closing volume Romantic Prose Fiction where the basic Romantic themes and story types the romance novel novella short story and other narrative forms are considered throughout Europe and the New World This enormous realm is seen not just in terms of Romantic theorizing but in the light of the impact of Romantic ideas and narration on later generations As an aid to readers the introduction to Romantic Prose Fiction explains the relationships among the volumes in the series and carries a listing of their tables of contents in an appendix No other series exists comparable to these volumes which treat the entirety of Romanticism as a cultural happening across the whole breadth of the Old and New Worlds and thus render a complex picture of European spiritual strivings in the late eighteenth and the nineteenth centuries a heritage still very close to our age [Asian Theatre Journal](#) ,2006
