Ana V. Arango and Christopher C. Cole, 2021-12-29 Dear Anita has always held Aiki Dragon's spirit within her heart giving her protection and guidance for her journey as a warrior. She was born into a family blessed with love, humor, trust, and various philosophies, and she learned how to become one with all that surrounded her. She discovered the universe's power of love for it dwelled within her along with her enthusiasm and high energy. As a child, Dear Anita learned to communicate with a playmate who spoke another language, fly a tricycle, and stand up bravely to the neighborhood bully. She became one of the first and youngest female pilots and aviation attorneys. Then the universe revealed her healing powers, allowing her to become a Chinese medicine doctor. In a time of self-reflection, Dear Anita learned of the beautiful goddess Kannon and was introduced to Aiki Dragon and the world of dragons where she discovered her Dragon Queen Ryu healing powers. Simultaneously, a book from her law school years on the harmony and techniques of Aikido fell back into her hands and created a forever path upon her warrior's journey where compassion, healing, love, and gratitude unite with the universe's plan of perfect unison and we are all one. **Enlightenment through Aikido** Kanshu Sunadomari, 2012-01-10

Quotes from the founder and the author's interpretations show how Aikido can develop inner strength and tranquility. This book is an excellent companion for those practitioners who aspire to go beyond the physical in their journey along the path of Aikido. **Aikido and Words of Power** William Gleason, 2009-01-12 For the first time in English, the secrets of the sacred sounds that unlock the principles and spiritual strength of aikido are explained. Explains the nature of the five vowels that govern the physical manifestations of universal consciousness. Uses more than 300 photographs to demonstrate a unique approach to aikido techniques that supports advanced spiritual practice. Author is a 6th dan aikido instructor. Aikido founder Ueshiba Morihei described the discipline as one spirit, four souls, three origins, and eight powers. One spirit and four souls are the five vowel dimensions of infinite space, the source of the sacred sounds of Kototama. Now for the first time in English, William Gleason explains how to use the sounds of Kototama in the practice of aikido. Aikido is often approached as a purely physical discipline, but it is a truly profound spiritual vehicle for those who approach it with sincerity of purpose. The five vowels represent various dimensions and stages of awareness whose different powers are revealed through aikido practice. Using more than 300 photographs, Gleason sensei presents physical routines that provide an introduction into the Kanagi, Sugaso, and Futonori levels of spiritual development. Understanding the sacred sounds related to each of these dimensions, the adept gains not only the ability to realize the stages inherent in spiritual mastery but also the ability to maintain health and balance in his or her own life. When fish move through water, there is no end to the water when

birds fly there is no end to the sky Similarly humans swim and fly in an ocean of sounds Understanding Kototama allows human beings to view the world without distortion and allows the creative powers of the mind to flourish

The Invention of Martial Arts Paul Bowman, 2020-12-31 Through popular movies starring Bruce Lee and songs like the disco hit Kung Fu Fighting martial arts have found a central place in the Western cultural imagination But what would martial arts be without the explosion of media texts and images that brought it to a wide audience in the late 1960s and early 1970s In this examination of the media history of what we now call martial arts author Paul Bowman makes the bold case that the phenomenon of martial arts is chiefly an invention of media representations Rather than passively taking up a preexisting history of martial arts practices some of which of course predated the martial arts boom in popular culture media images and narratives actively constructed martial arts Grounded in a historical survey of the British media history of martial arts such as Bartitsu jujutsu judo karate tai chi and MMA across a range of media this book thoroughly

recasts our understanding of the history of martial arts By interweaving theories of key thinkers on historiography such as Foucault and Hobsbawm and Said's ideas on Orientalism with analyses of both mainstream and marginal media texts Bowman arrives at the surprising insight that media representations created martial arts rather than the other way around In this way he not only deepens our understanding of martial arts but also demonstrates the productive power of media discourses
