Spiritual Logic Of Ramon Llull:

The Spiritual Logic of Ramon Llull Mark David Johnston, 1987 This book presents a comprehensive critical survey of all the logical doctrines of the well known but little understood Catalan philosopher and theologian Ramon Llull 1232 1316 The first book length treatment in English of Llull s philosophy to appear in over fifty years the book defines his contribution to later scholastic culture and to explain exactly how his methods and procedures worked *The Evangelical Rhetoric of Ramon Llull* Mark David Johnston, 1996 Ramon Llull 1232 1316 born on Majorca was one of the most remarkable lay intellectuals of the thirteenth century He devoted much of his life to promoting missions among unbelievers the reform of Western Christian society and personal spiritual perfection He wrote over 200 philosophical and theological works in Catalan Latin and Arabic Many of these expound on his Great Universal Art of Finding Truth an idiosyncratic dialectical system that he thought capable of proving Catholic beliefs to non believers This study offers the first full length analysis of his theories about rhetoric and preaching which were central to his evangelizing activities It explains how Llull attempted to synthesize commonplace advice about courtly speech and techniques of popular sermons into a single program for secular and sacred eloquence that would necessarily promote love of God and neighbor Llull s work is a remarkable testimony to the diffusion of clerical culture among educated lay people of his era and to their enthusiasm for applying that knowledge in pursuit of learning and piety This book should find a place on the shelf of every scholar of medieval history religion and rhetoric

Ramon Llull's New Rhetoric Mark D. Johnston, 2020-08-13 Modern histories of medieval culture often assert without qualification that the oral exercise of public eloquence during the European Middle Ages was limited to preaching by the clergy The classical art of rhetoric supposedly survived only as a written subject for study in the schools During the past thirty years however knowledge of medieval rhetorical theory and practice has grown tremendously Historians and philologists have devoted particular attention to the relationship between oral and written communication in medieval Europe Their investigations are beginning to suggest not surprisingly that interest in eloquence was not confined to the schools or clergy Secular officials arguing in princely courts or town halls and laypeople seeking to develop their learning or piety also cultivated an interest in rhetoric Given the paucity of testimony available the *New Rhetoric of the Mallorcan* lay theologian and philosopher Ramon Llull 1232 1316 offers an exceptional witness to the non academic and non clerical concern for eloquence His proposals for new Christian arts of communication are among the best evidence available for assessing the diffusion of rhetorical doctrines from the cloisters and schools into the courts town halls and private chapels of Western Europe around 1300 Growing interest in Llull s work and in medieval rhetoric have combined to produce this first published edition The first part on order shows how Llull s entire program attempts to correlate ethical metaphysical and linguistic categories into a single system of Anselmian rightness The next section on beauty could almost form a complete art of preaching in itself thanks to the brief compilations of sermon material that it includes The broad range of discursive

elements and techniques in which Lull seeks verbal beauty makes this section very eclectic in scope Part three on knowledge attempts to explain the diffusion of right linguistic and rhetorical doctrine almost exclusively through the Divine Dignities and other categories of the Great Art The final section on love consists of ten proverbs regarding loving speech each explicated with an appropriate exemplum

Medieval Philosophy Peter Adamson, 2019 Adamson offers a lively and accessible tour through 600 years of intellectual history offering a feast of new ideas in every area of philosophy He introduces us to some of the greatest thinkers of the Western tradition including Abelard Anselm Aquinas Hildegard of Bingen and Julian of Norwich

Ramism and the Reformation of Method Simon J. G. Burton, 2024 Ramism and the Reformation of Method explores the popular early modern movement of Ramism and its ambitious attempt to transform Church and society It considers the relation of Ramism to Reformed Christianity and its development as a divine logic attuned to understanding both Scripture and the world In doing so it reveals how Ramists rejected the notion of a philosophy or worldview independent of God and sought to encompass everything under an overarching Christian philosophy indebted to Franciscan ideals The supreme goal of the Ramists was the remaking of the world in the image of the Triune God

The Virgin Mary as Alchemical and Lullian Reference in Donne Roberta Albrecht, 2005 This study will also appeal to New Historicists and those interested in alchemy emblems or theology Jacket

The History and Anatomy of Auctorial Self-Criticism in the European Middle Ages Anita Obermeier, 2023-12-28 This study outlines the history and anatomy of the European apology tradition from the sixth century BCE to 1500 for the first time The study examines the vernacular and Latin tales lyrics epics and prose compositions of Arabic English French German Greek Icelandic Italian Spanish and Welsh authors Three different strands of the apology tradition can be proposed The first and most pervasive strand features apologies to pagan deities and later to God The second most important strand contains literary apologies made to an earthly audience usually of women A third strand occurs more rarely and contains apologies for varying literary offenses that are directed to a more general audience The medieval theory of language privileges an imitation of the Christian master narrative and a hierarchical medieval view of authorship These notions express a medieval philosophical concern about language and its role and therefore the role of the author in cosmic history Despite the fact that women apologize for different purposes and reasons their examples illustrate on yet another level the antifeminist subtext inherent in the entire apology tradition Overall the apology tradition characterized by interauctoriality intertextuality and intratextuality enables self critical authors to refer not only backward but also primarily forward making the medieval apology a progressive strategy that engenders new literature This study would be relevant to all medievalists especially those interested in literature and the history of ideas

Greek-Latin Philosophical Interaction Sten Ebbesen, 2017-05-15 Sten Ebbesen has contributed many works in the field of ancient and medieval philosophy over many decades of dedicated research His style is crisp and lucid and his philosophical penetration and exposition of often difficult concepts and issues is both clear and

intellectually impressive Ashgate is proud to present this three volume set of his collected essays all of them thoroughly revised and updated Each volume is thematically arranged Volume One Greek Latin Philosophical Interaction explores issues of relevance to the history of logic and semantics and in particular connections and or differences between Greek and Latin theory and scholarly procedures with special emphasis on late antiquity and the Middle Ages

Between Christian and Jew Paola Tartakoff,2012-07-24 In 1341 in Aragon a Jewish convert to Christianity was sentenced to death only to be pulled from the burning stake and into a formal religious interrogation His confession was as astonishing to his inquisitors as his brush with mortality is to us the condemned man described a Jewish conspiracy to persuade recent converts to denounce their newfound Christian faith His claims were corroborated by witnesses and became the catalyst for a series of trials that unfolded over the course of the next twenty months Between Christian and Jew closely analyzes these events which Paola Tartakoff considers paradigmatic of inquisitorial proceedings against Jews in the period The trials also serve as the backbone of her nuanced consideration of Jewish conversion to Christianity and the unwelcoming Christian response to Jewish conversions during a period that is usually celebrated as a time of relative interfaith harmony The book lays bare the intensity of the mutual hostility between Christians and Jews in medieval Spain Tartakoff s research reveals that the majority of Jewish converts of the period turned to baptism in order to escape personal difficulties such as poverty conflict with other Jews or unhappy marriages They often met with a chilly reception from their new Christian brethren making it difficult to integrate into Christian society Tartakoff explores Jewish antagonism toward Christians and Christianity by examining the aims and techniques of Jews who sought to re Judaize apostates as well as the Jewish responses to inquisitorial prosecution during an actual investigation Prosecutions such as the 1341 trial were understood by papal inquisitors to be in defense of Christianity against perceived Jewish attacks although Tartakoff shows that Christian fears about Jewish hostility were often exaggerated Drawing together the accounts of Jews Jewish converts and inquisitors this cultural history offers a broad study of interfaith relations in medieval Iberia

The Literature of Al-Andalus María Rosa Menocal,2006-11-02 The Literature of Al Andalus is an exploration of the culture of Iberia present day Spain and Portugal during the period when it was an Islamic mostly Arabic speaking territory from the eighth to the thirteenth century and in the centuries following the Christian conquest when Arabic continued to be widely used The volume embraces many other related spheres of Arabic culture including philosophy art architecture and music It also extends the subject to other literatures especially Hebrew and Romance literatures that burgeoned alongside Arabic and created the distinctive hybrid culture of medieval Iberia Edited by an Arabist an Hebraist and a Romance scholar with individual chapters compiled by a team of the world s leading experts of Islamic Iberia Sicily and related cultures this is a truly interdisciplinary and comparative work which offers a interesting approach to the field

Traditions of Maimonideanism Carlos Fraenkel,2009 The goal of the present volume is to shed light on a number of traditions of Maimonideanism that have hitherto little been explored Maimonides 1138 1204 was the

most important medieval Jewish philosopher and also made lasting contributions to many other fields The essays in the first part examine aspects of his work in medicine Jewish law and liturgy The essays in the second part look at how Maimonides was read misread and creatively reinvented in a wide range of contexts in the East and in the West from medieval Cairo to Crown Heights in Brooklyn Written by a group of leading scholars the essays illustrate the breadth of Maimonides work and the fascinating history of its reception from the 13th century to the present

The Genocide Paradox Anne

O'Byrne,2023-04-25 We regard genocidal violence as worse than other sorts of violence perhaps the worst there is But what does this say about what we value about the *genos* on which nations are said to be founded This is an urgent question for democracies We value the mode of being in time that anchors us in the past and in the future that is among those who have been and those who might yet be If the *genos* is a group constituted by this generational time the *demos* was invented as the anti *genos* with no criterion of inheritance and instead only occurring according to the interruption of revolutionary time Insofar as the *demos* persists we experience it as a sort of *genos* for example the democratic nation state As a result democracies are caught in a bind disavowing *genos* thinking while cherishing the temporal forms of *genos* life they abhor genocidal violence but perpetuate and disguise it This is the genocide paradox O Byrne traces the problem through our commitment to existential categories from Aristotle to the life taxonomies of Linneaus and Darwin through anthropologies of kinship that tether us to the social world the shortfalls of ethical theory into the history of democratic theory and the defensive tactics used by real existing democracies when it came to defining genocide for the U N Genocide Convention She argues that although models of democracy all make room for contestation they fail to grasp its generational structure or acknowledge the generational content of our lives They cultivate ignorance of the contingency and precarity of the relations that create and sustain us The danger of doing so is immense It leaves us unprepared for confronting democracy's deficits and its struggle to entertain multiple temporalities In addition it leaves us unprepared for understanding the relation between *demos* and violence and the ability of good enough citizens to tolerate the slow burning destruction of marginalized peoples What will it take to envision an anti genocidal democracy

Moral Dilemmas in Medieval Thought M. V.

Dougherty,2011-04-14 The history of moral dilemma theory often ignores the medieval period overlooking the sophisticated theorizing by several thinkers who debated the existence of moral dilemmas from 1150 to 1450 In this book Michael V Dougherty offers a rich and fascinating overview of the debates which were pursued by medieval philosophers theologians and canon lawyers illustrating his discussion with a diverse range of examples of the moral dilemmas which they considered He shows that much of what seems particular to twentieth century moral theory was well known long ago especially the view of some medieval thinkers that some forms of wrongdoing are inescapable and their emphasis on the principle choose the lesser of two evils His book will be valuable not only to advanced students and specialists of medieval thought but also to those interested in the history of ethics

The Late Medieval Age of Crisis and Renewal, 1300-1500 Clayton J.

Drees,2000-11-30 As part of a unique series covering the grand sweep of Western civilization from ancient to present times this biographical dictionary provides introductory information on 315 leading cultural figures of late medieval and early modern Europe Taking a cultural approach not typically found in general biographical dictionaries the work includes literary philosophical artistic military religious humanistic musical economic and exploratory figures Political figures are included only if they patronized the arts and coverage focuses on their cultural impact Figures from western European countries such as Italy France England Iberia the Low Countries and the Holy Roman Empire predominate but outlying areas such as Scotland Scandinavia and Eastern Europe are also represented Late medieval Europe was an age of crisis With the Papacy removed to Avignon the schism in the Catholic Church shook the very core of medieval belief The Hundred Years War devastated France The Black Death decimated the population Yet out of this crisis grew an age of renewal leading to the Renaissance The great Italian city states developed Humanism reawakened interest in the cultures of ancient Greece and Rome Dante and Boccaccio began writing in their Tuscan vernacular Italian artists became humanists and flourished As the genius of Italy began spreading to northern and western Europe at the end of the 15th century the age of renewal was completed This book provides thorough basic information on the major cultural figures of this tumultuous era of crisis and renewal *Philosophia perennis* Wilhelm Schmidt-Biggemann,2007-11-08 The study features the five most important and most efficacious themes of Western spirituality in their ancient historical origins and in their unfolding up to early modernity Divine names Microkosmos Makrokosmos theories of creation the idea of spiritual spaces and the concepts of eschatological history

Religious Polemic and the Intellectual History of the Mozarabs Thomas E. Burman,1994 This study of the intellectual history of the Andalus Christians alias Mozarabs based on their largely unstudied religious polemical writings provides abundant new information regarding their participation in the Latin Christian Arab Christian and Arab Muslim intellectual milieu

The Art of Conversion Harvey Hames,2021-10-01 This book discusses Ramon Llull ca 1232 1316 the Christian missionary philosopher and mystic his relations with Jewish contemporaries and how he integrated Jewish mystical teachings Kabbalah into his thought system so as to persuade the Jews to convert Issues dealt with include Llull s attitude towards the Jews his knowledge of Kabbalah his theories regarding the Trinity and Incarnation the Art and the impact of his ideas on the Jewish community The book challenges conventional scholarly opinion regarding Christian knowledge of contemporary Jewish thought and questions the assumption that Christians did not know or use Kabbalah before the Renaissance Further it suggests that Lull was well aware of ongoing intellectual and religious controversies within the Jewish community as well as being the first Christian to acknowledge and appreciate Kabbalah as a tool for conversion

Sixteenth-Century Mission Robert L. Gallagher,Edward L. Smither,2021-04-07 Did the Reformers lack a vision for missions In *Sixteenth Century Mission* a diverse cast of contributors explores the wide reaching practice and theology of mission during this era Rather than a century bereft of cross cultural outreach we find both Reformers and Roman Catholics

preaching the gospel and establishing the church in all the world This overlooked yet rich history reveals themes and insights relevant to the practice of mission today

Equations from God Daniel J. Cohen, 2007-04-08 This illuminating history explores the complex relationship between mathematics religious belief and Victorian culture Throughout history application rather than abstraction has been the prominent driving force in mathematics From the compass and sextant to partial differential equations mathematical advances were spurred by the desire for better navigation tools weaponry and construction methods But the religious upheaval in Victorian England and the fledgling United States opened the way for the rediscovery of pure mathematics a tradition rooted in Ancient Greece In *Equations from God* Daniel J Cohen captures the origins of the rebirth of abstract mathematics in the intellectual quest to rise above common existence and touch the mind of the deity Using an array of published and private sources Cohen shows how philosophers and mathematicians seized upon the beautiful simplicity inherent in mathematical laws to reconnect with the divine and traces the route by which the divinely inspired mathematics of the Victorian era begot later secular philosophies
