Religion in Australia Roger C. Thompson, 1994 An engaging study of the religious beliefs and institutions of Australia and their effect on the country's history Covers Christianity Judaism Islam and Aboriginal spirituality **Messages From Beyond** Al Gabay, 2016-06-03 The Spiritualist movement had its beginnings in the United States in the late 1840s and within a few years had spread to Australia With its sances mediums trances magnetisers table tilting and other mysterious psychic phenomena it attracted media frenzy and public furore but also many deeply serious converts often highly intelligent and talented people who rejected orthodox religion in favour of scientific rationalism but were still vitally concerned with moral debates One of them was the young Alfred Deakin later to become Prime Minister Spiritualists sought rational discoverable answers to life's mysteries They sought to prove empirically the continued existence of the human personality after death

while maintaining somewhat paradoxically that the movement was a genuine religion In Messages from Beyond however Al Gabay shows that for most believers the s ance was not a scientific enterprise but a religious and highly ritualised event In this fascinating history Gabay explores the origins of the Spiritualist movement and relates its rise and fall to the wider intellectual and religious currents in colonial Australian society He argues that the atmosphere of Freethought and Secularism in colonial Melbourne as well as the passionate debates of the time on the authority of the Bible and Evolution were fundamental to the success of the movement and that it was a cultural product of its time **Australia's Secular**
