Spirituality Matters in Social Work James Dudley, 2016-03-02. Offering a focus that is lacking or not clearly evident in most spirituality books, Dudley addresses specific ways of incorporating spirituality into practice and integrates many of the contributions of other writers into an overall eclectic practice approach. His approach revolves around many of the core competencies of the EPAS accreditation (CSWE 2008). Most of the core competencies are addressed with an emphasis on professional identity, ethical practice, critical thinking, diversity, practice contexts, and a major practice framework of the book: the practice stages of engagement, assessment, intervention, and evaluation.

Spirituality and its Evolution Harendra N Bora, 2023-02-27. The early Homo Sapiens, the ancestors of modern man, had resorted to ceremonial burials around 30,400 years ago for the welfare of the souls in the afterlife, hinting that they believed in some form of elementary spirituality. Such belief of the Homo sapiens had later led to growing beliefs of animism and shamanism. The turning point in the lifestyle of the Homo sapiens came since around 11,700 years ago with the coming of the warmer climate of the Holocene period, facilitating the growth of cereals, crops, and the rearing of animals while living a life of sedentary agricultural farmers. Security of food and shelter has caused a cognitive revolution in humans to innovate faiths and religions. Yoga and asceticism had been innovated in the Indus Valley Civilization, igniting the light of spirituality for the entire world. Neuroscientists have of late undertaken a number of researches on the meditational impact on the brain. Based on the findings, neuroscientists suggest that feeling of religiosity, godliness, or spirituality is generated due to the impact of meditational practices and that such feelings can be regenerated artificially by manipulating specific regions of the brain. The book thus goes to discuss briefly all the related issues on spirituality.
