Spirituality In Church World Volume 9:

No Jim Crow Church Louis Venters, 2016-09-20 A richly detailed study of the rise of the Bah Faith in South Carolina There isn't another study out there even remotely like this one Paul Harvey coauthor of *The Color of Christ The Son of God and the Saga of Race in America* A pioneering study of how and why the Bah Faith became the second largest religious community in South Carolina Carefully researched the story told here fills a significant gap in our knowledge of South Carolina's rich and diverse religious history Charles H Lippy coauthor of *Religion in Contemporary America* The emergence of a cohesive interracial fellowship in Jim Crow era South Carolina was unlikely and dangerous However members of the Bah Faith in the Palmetto State rejected segregation broke away from religious orthodoxy and defied the odds eventually becoming the state's largest religious minority The religion which emphasizes the spiritual unity of all humankind arrived in the United States from the Middle East at the end of the nineteenth century via urban areas in the Northeast and Midwest Expatriate South Carolinians converted and when they returned home they brought their newfound religion with them Despite frequently being the targets of intimidation and even violence by neighbors the Ku Klux Klan law enforcement agencies government officials and conservative clergymen the Bah's remained resolute in their faith and their commitment to an interracial spiritual democracy In the latter half of the twentieth century their numbers continued to grow from several hundred to over twenty thousand In *No Jim Crow Church* Louis Venters traces the history of South Carolina's Bah community from its early origins through the civil rights era and presents an organizational social and intellectual history of the movement He relates developments within the community to changes in society at large with particular attention to race relations and the civil rights struggle Venters argues that the Bah's in South Carolina represented a significant sustained spiritually based challenge to the ideology and structures of white male Protestant supremacy while exploring how the emergence of the Bah Faith in the Deep South played a role in the cultural and structural evolution of the religion

Minding the Spirit Elizabeth A. Dreyer, Mark S. Burrows, 2005 Arranged under five broad headings these essays create an insightful dialogue on the questions methods and critical approaches implemented by the discipline's top scholars Von Balthasar & the Option for the Poor Todd Walatka, 2017 Hans Urs von Balthasar's vast corpus of theological philosophical literary and pastoral writings remains one of the most impressive achievements in 20th century thought In light of liberation theology and now the papacy of Francis however a theological affirmation of the option for the poor remains dangerously weak in Balthasar's corpus Von Balthasar and the Option for the Poor offers a sympathetic reforming of Balthasar's account of the drama of salvation what he calls theodramatics in response to this weakness Medicine, Religion, and the Body Elizabeth Burns Coleman, Kevin White, 2010 This book explores the ways in which the body is sacred in Western medicine as well as how this idea is played out in questions of life and death of the autopsy and of the meanings attributed to illnesses and disease Ritual and religious modifications to and limitations on what may be done to the body raise cross cultural issues

of great complexity philosophically and theologically as well as sociologically within medicine and for health care practitioners but also as a matter of primary concern for the patient The book explores the ways in which medicine organises the moral and the immoral the sacred and the profane how it mediates cultural concepts of the sacred of the body of blood and of life and death

Religion in Global Health and Development Benjamin Bronnert Walker, 2022-04-20 The COVID 19 pandemic has made evident that the field of global health its practices norms and failures has the power to shape the lives of

billions Global health perspectives on the role of religion however are strikingly limited Uncovering the points where religion and global health have connected across the twentieth century focusing on Ghana provides an opportunity to challenge narrow approaches In Religion in Global Health and Development Benjamin Walker shows that the religious features of colonial state architecture were still operating by the turn of the twenty first century Walker surveys the establishment of colonial development projects in the twentieth century with a focus on the period between 1940 and 1990 Crossing the colonial postcolonial divide analyzing local contexts in conjunction with the many layers of international organizations and identifying surprisingly neglected streams of personnel and funding particularly from Dutch and West German Catholics this in depth history offers new ways of conceptualizing global health Patchworks of international humanitarian intervention fragmented government services local communities and the actions of many foreign powers combined to create health services and the state in Ghana Religion in Global Health and Development shows that religion and religious actors were critical to this process socially culturally and politically

Keener, 2011-11-01 Christianity Today 2013 Book Award Winner Winner of The Foundation for Pentecostal Scholarship's 2012 Award of Excellence 2011 Book of the Year Christianbook.com's Academic Blog Most modern prejudice against biblical miracle reports depends on David Hume's argument that uniform human experience precluded miracles Yet current research shows that human experience is far from uniform In fact hundreds of millions of people today claim to have experienced miracles New Testament scholar Craig Keener argues that it is time to rethink Hume's argument in light of the contemporary evidence available to us This wide ranging and meticulously researched two volume study presents the most thorough current defense of the credibility of the miracle reports in the Gospels and Acts Drawing on claims from a range of global cultures and taking a multidisciplinary approach to the topic Keener suggests that many miracle accounts throughout history and from contemporary times are best explained as genuine divine acts lending

credence to the biblical miracle reports **Transnational Religion And Fading States** Susanne H Rudolph,2018-02-07
Focusing on the dilution of state sovereignty this book examines how the crossing of state boundaries by religious movements leads to the formation of transnational civil society Challenging the assertion that future conflict will be of the clash of civilization variety it looks to the micro origins of conflicts which are as likely to arise between states sharing a religion as between those divided by it and more likely to arise within rather than across state boundaries Thus the chapters reveal the dual potential of religious movements as sources of peace and security as well as of violent conflict Featuring an East West North South approach the volume avoids the conventional and often ethnocentric segregation of the experience of other regions from the European and American Contributors draw examples from a variety of civilizations and world religions They contrast self generated movements from below such as Protestant sectarianism in Latin America or Sufi Islam in Africa with centralized forms of organization and patterns of diffusion from above such as state certified religion in China Together the chapters illustrate how religion as bearer of the politics of meaning has filled the lacuna left by the decline of ideology creating a novel transnational space for world politics *Secularization in the Long 1960s* Clive D. Field,2017-03-16
Secularization in the Long 1960s Numerating Religion in Britain provides a major empirical contribution to the literature of secularization It moves beyond the now largely sterile and theoretical debates about the validity of the secularization thesis or paradigm Combining historical and social scientific perspectives Clive D Field uses a wide range of quantitative sources to probe the extent and pace of religious change in Britain during the long 1960s In most cases data is presented for the years 1955 80 with particular attention to the methodological and other challenges posed by each source type Following an introductory chapter which reviews the historiography introduces the sources and defines the chronological and other parameters Field provides evidence for all major facets of religious belonging behaving and believing as well as for institutional church measures The work engages with and largely refutes Callum G Brown s influential assertion that Britain experienced revolutionary secularization in the 1960s which was highly gendered in nature and with 1963 the major tipping point Instead a more nuanced picture emerges with some religious indicators in crisis others continuing on an existing downward trajectory and yet others remaining stable Building on previous research by the author and other scholars and rejecting recent proponents of counter secularization the long 1960s are ultimately located within the context of a longstanding gradualist and still ongoing process of secularization in Britain **Religion** L. M. Barley,C. D. Field,B. A. Kosmin,J. S. Nielsen,2014-06-28 This volume reviews the publicly available sources of statistical information on religion The majority of this data relates to the Christian churches and is split between the serial or recurrent sources in the first review and the ad hoc survey data in the second The third sets out the available Jewish data which comprise the best recorded and the most extensive of the sources in the non Christian sector and the final review brings together statistical sources on the remaining religions practised in the UK This book will be an invaluable source of information for researchers and

practitioners in the field
