Brennan, 1985 **The Channeling Zone** Michael Fobes Brown,1997 Jacob's Hip Kerry Walters, 2003 In the midst of fear and anxiety many people wonder where to find God Many of the images from recent events are so terrifying because they expose our deep vulnerability But in this little book Kerry Walters shows that it is in the heart of situations of vulnerability and insecurity that we achieve our greatest spiritual growth Just as Jacob discovered a blessing through his woundedness we too can find God in the midst of fragility and fear A Sociology of Spirituality Peter C. whose exponential growth in the 1980s fashioned those who later identified as the representatives of this new spirituality culture by spiritual therapists who have sought to eke out a livelihood in an increasingly professionalized and regulated therapeutic field and by the cruel optimism of an increasingly precarious workforce placing its hopes in the imagined alternative that the supirichuaru represents Ioannis Gaitanidis offers a new transdisciplinary conceptualisation of alternativity that can be applied across and beyond the disciplines of religious studies media studies popular culture studies and the anthropology sociology of medicine Gender and Power in Contemporary Spirituality Anna Fedele, Kim E. Knibbe, 2013 Contemporary distinctions between religion and spirituality can often be traced to rebellion against hierarchical institutions with biases towards women and minorities that constrain individual freedom This opposition is carefully addressed in this volume with greater attention paid to gender and power in the context of contemporary spirituality and how these relate to the distinction between religion and spirituality No Ordinary Angel Susan R. Garrett, 2008-01-01 In this provocative intelligent and highly original addition to the Anchor Yale Bible Reference Library Susan R Garrett argues that angel talk has never been merely about angels Rather from ancient times until the present talk about angels has served as a vehicle for reflection on other fundamental life questions including the nature of God's presence and intervention in the world the existence and meaning of evil and the fate of humans after death In No Ordinary Angel Garrett examines how biblical and other ancient authors addressed such questions through their portrayals of angels She compares the ancient angel talk to popular depictions of angels today and considers how the ancient and modern portraits of angels relate to Christian claims about Jesus No Ordinary Angel offers important insights into the development of angelology the origins of Christology and popular Western spirituality ranging from fundamentalist to New Age In doing so it provokes stimulating theological reflection on key existential questions **Spirituality and Mental Health** Phil Barker, Poppy Buchanan-Barker, 2006-06-14 This text explores spirituality and its relationship to mental health It emphasizes the need to look inward and listen to the messages which are channelled through our beings rather than dismiss these experiences as some form of disorder Part One considers spirituality as a reflection of the process of change A brief overview of the contemporary history of spiritual inquiry in the field of mental health is provided Part Two considers spirituality as a reflection of the process of meaning making Part Three considers spirituality in terms of different forms of journey including a consideration of the traditional concept of pilgrimage Part Four considers the potential for healing that lies within even the most terrifying forms of madness The book then concludes with a suggestion of the power of waiting and the rewards Spiritual Modalities William FitzGerald,2012-10-23 A bold obtained by the careful compassionate practice of life recasting of prayer as a rhetorical art Spiritual Modalities investigates situations strategies and performative modes of discourse directed to divine audiences Examining how prayer works Spiritual Modalities reads prayer s situations and strategies its characteristic acts and attitudes to advance an understanding of prayer as a basic expression of our rhetorical

capacities for communication and communion This groundbreaking analysis demonstrates how prayer draws on fundamental capacities to engage other beings rhetorically to argue that we are never more human than when we address the nonhuman Spiritual Modalities is notable in its aim to articulate a critical rhetoric of prayer in a secular idiom It draws on contributions to rhetorical theory from Kenneth Burke along with a broad range of classical and contemporary perspectives on audience address speech acts and modes of performance The book also takes a multicultural and multimodal approach to prayer as rhetorical performance The texts and practices of prayer represented range across religious traditions and historical eras and include both verbal and physical modes of divine address The book will be of interest to scholars researching religious language Burkean approaches to discourse practices of memory and media studies Cults and New Religions Douglas E.
