Miles, 2009-11-18 **Edgar Cayce and the Kabbalah** John Van Auken, 2010 John Van Auken combines his love of Kabbalah with his 40 years of studying the psychic readings of world famous seer Edgar Cayce to take us on a mind expanding journey through creation and the higher levels of our consciousness Van Aukens easy writing style helps to shed light on the most complicated concepts in Kabbalah making it easier to grasp the five divisions of our being the four planes of existence the seven heavens the ten emanations and the twenty two channels of the Infinite Creative Consciousness We also learn how to expand our minds to perceive these realms to journey through them and to remain sane healthy and active in our present life Van Auken brings in insights from Buddhism Hinduism Taoism and even ancient Egyptian theology and includes Gnosticism and Neo Platonism in this multi dimensional vista A reading journey into Edgar Cayce and the Kabbalah offers you a personal road map to higher consciousness and a happier more fulfilling life

Metaphysics of Consciousness Ramesh Chandra Pradhan, 2020-09-03 This book explores the transition from the mind to the Supermind within the scope of an evolutionary metaphysics The idea of Supermind has not been discussed so far in the mainstream philosophy of mind and consciousness This book will give a new approach to the study of consciousness from the Indian vedantic perspective which has introduced the idea of Supermind especially in the works of Sri Aurobindo The book also undertakes a sustained critique of the contemporary theories of mind which have promoted mostly a mechanistic and naturalistic theory of mind and consciousness

The book is meant for the researchers who are engaged in the study of consciousness and for those who are interested in the philosophy of mind in general This book will serve the purpose of the much needed counter perspective to the contemporary theories of mind working broadly within the materialist traditions **Greater Spiritual Responsiveness of Body and Awakening the Brain of Spirit** Brown Landone,1994-02 Contents the Gate to the Path Tones of Cathedral Bells in Your Body Four Brains Two Stupendous Truths Life Spiritualized Matter the Seven God Rays of Creation Spoken Word **The Mysteries of Christianity** Matthias Joseph Scheeben,2023-03-17 The Mysteries of Christianity is Matthias Joseph Scheeben s youthful magnum opus a logically rigorous and spiritually profound dogmatic theology In its pages he explores the intelligibility of Christianity s supernatural mysteries and their deep connectedness ultimately demonstrating that Christian theology constitutes a science before the court of human reason even as its object transcends human comprehension Scheeben s task is to present a unified view of the whole panorama of revealed truth and he pursues this by considering nine key Christian mysteries the Trinity creation sin the Incarnation the Eucharist the Church and its sacraments justification eschatological glory and predestination Since the mystery of the Trinity is the root of the supernatural order Scheeben begins here showing that the foundation of the salvific economy lies in the eternal processions of persons in God the begetting of the Son and the spiration of the Spirit being in different ways the cause of the life of grace in the human soul When the Son and the Spirit are sent into the world in the Incarnation and through the bestowal of grace they provide the way for human beings to see God face to face in the beatific vision the end for which God created humans Among the means of return to God Scheeben particularly emphasizes the Eucharist on account of its close connection with the mystery of the Incarnation By placing his treatment of the Eucharist before that of the Church he signals that his is a genuinely Eucharistic ecclesiology centered on the abiding presence of the incarnate divine Son The Expository Times ,1910 The Eschatological Person Andrew T. J. Kaethler,2022-07-12 Both Alexander Schmemmann and Joseph Ratzinger insist that the human person remains shrouded in mystery without God s self disclosure in the person of Jesus Christ Like us Jesus lived in a particular time and location and therefore time and temporality must be part of the ontological question of what it means to be a human person Yet Jesus the one who has time for us ascended to the Father and the bride of Christ awaits his return and therefore time and temporality are conditioned by the eschatological With this in mind the ontological question of personhood and temporality is a question that concerns eschatology how does eschatology shape personhood Bringing together Schmemmann and Ratzinger in a theological dialogue for the first time this book explores their respective approaches and answers to the aforementioned question While the two theologians share much in common it is only Ratzinger s relational ontological approach that by being consistently relational from top to bottom consistently preserves the meaningfulness of temporal existence The Life of the Soul Walter Winston Kenilworth,1911 The Gift of Beauty Stephen David Ross,1996-01-01 Traces the history of the idea of art as an ethical movement interpreting the good as nature s

abundance giving rise to an ethics of inclusion expressed in art The Way of Taoism For Bodily, Spiritual and Environmental Health Rod Giblett, 2023-10-05 For those who are looking for ways of living and being with the body the mind spirit and the earth that nurture the health of all three this book presents Taoism as a path of triple cultivation Drawing on the rich oral and textual traditions of Taoism The Way of Taoism provides ways of living and being with the body and the earth that nurture the health of both in mutual spirituality and materiality From the written tradition of Taoism it brings together teaching about the Taoist body and Taoist ecology It also draws on the living oral and scriptural tradition of the Taoist Tai Chi Society Fung Loy Kok Institute of Taoism that has a strong connection with Buddhism and Confucianism in the three religions tradition It is the first book written by a member practitioner of this Society to bring all these aspects together The Way of Taoism crosses the great divides and dualisms between mind and body humans and the environment spirituality and materiality east and west It provides ways of nurturing bodily spiritual mental and environmental health along the path of triple cultivation The Way of Taoism engages in cross cultural dialogue between eastern and western culture and in historical exchange between traditional and contemporary times It argues against monotheism makes a plea for polytheism and foregrounds Taoism as a polytheistic religion It is a comprehensive guide to the way of Taoism Contents TAOISM IS POLYTHEISTIC THE TAOIST BODY TAOISM TAOIST ECOLOGY THE WAY OF WATER THE WAY OF TAOIST TAI CHI SACRED SUTRAS The Life Primer Charles Richard Tuttle, 1906 *The Resounding Soul* Eric Austin Lee, Samuel Kimbriel, 2015-11-10 It is surely not coincidental that the term soul should mean not only the center of a creature's life and consciousness but also a thing or action characterized by intense vivacity that bike's got soul It also seems far from coincidental that the same contemporary academic discussions that have largely cast aside the language of soul in their quest to define the character of human mental life should themselves be so how to say it bloodless so lacking in soul This volume arises from the opposite premise namely that the task of understanding human nature is bound up with and in important respects dependent upon the more critical task of learning to be fully human of learning to have soul The papers collected here are derived from a conference in Oxford sponsored by the Centre of Theology and Philosophy and together explore the often surprising landscape that emerges when human consciousness is approached from this angle Drawing upon literary philosophical theological historical and musical modes of analysis the essays of this volume vividly remind the reader of the power of the ancient language of soul over against contemporary impulses to reduce fragment and overly determine human selfhood **Cognitive Yoga: How a Book is Born** Yeshayahu Ben-Aharon, 2017-11-17 This little book relates some experiences I had during the spiritual research which was eventually published in my book Cognitive Yoga Usually I am concerned with communicating the objective results of my research and not what I experienced whilst doing it But an objective description of what the individual soul undergoes during spiritual research can be valuable to the study of anthroposophy and to those who pursue the spiritual path themselves Through faithful inner work says the author the path of

spiritual science can become a living spiritual being an intimate friend in the realms of soul and spirit This being can blossom into an extended spiritual community or school One can converse and co create with this spiritual school including the being of one s teacher by learning its inner language In 2012 Yeshayahu Ben Aharon was confronted with a major obstacle in his research work After struggling alone he felt he could not progress without consulting his colleagues in the spiritual world The intimate soul experiences described in this book took place during such a gathering a special festive occasion with an active and engaged community of spiritual beings I want to share some aspects of what I experienced during this event in the more personal and imaginative language of storytelling It is a kind of new individual Christmas nativity tale about the earthly ripening of a research problem its heavenly conception embryonic life and finally the birth on earth of what becomes a physical book printed black on white

The Spiritual Journey of a Coptic Christian Brain Surgeon: Views and Reflections
Ramsis F. Ghaly MD, 2018-11-09 Deeper and deeper as the human spirit roams with fascination unto Divinity Never enough roaming This is my eleventh book of Christianity and the human brain As a neurosurgeon for thirty years I have found unlimited bonds between the Christian Divinity and the human brain My neurosurgical humanity eagerly desires to explore Divinity Since my childhood goes back decades and is deeply rooted I meditate with my Christian brain searching for common understanding of spirituality in humanity It is hard to describe this through each book and I find myself seeking more Divine clarifications My meditation is achieved thorough reading the Holy Bible with my neurosurgical human brain I try to peel my deep thoughts layer by layer as if I am dissecting the human brain in neurosurgery in actual life The book touches on many timely aspects of our human life with personal spiritual views and poems The book consists of Twelve major Sections and each section ranges from 8 to 23 chapters with total of 137 chapters The main sections include My Christian Dreams in Neurosurgery Monasticism in My Life Mothers and Children Angels Living Human Brains and Spirituality Jesus Love The Persecuted Christ and Christ Followers Royalty and Heavens with Jesus Last Hours in humanity Spiritual Reflections Views and Poems Law and the Spirit Sacred Medicine and Patients Testimonials As a Coptic Christian from Egypt I was raised in keeping up with strong Christian Orthodox practice in daily living Perhaps the strength of the book is incorporating Jesus the Almighty God in everything I do not only in daily living but also with my patients in Neurosurgery practice There is a dire need of such a book especially in an era where Christianity continued to be persecuted worldwide and denied in a daily basis as evidenced through public restraining of Lord Jesus Christ in our daily life The human brain and Neurosurgery are in Jesus God as Christ the Lord is in human brain and Neurosurgery I hope for the reader to find spiritual use of the book and a closer relationship to our Holy Trinity God the Father the Son and the Holy Spirit

Our Bodies Tell God's Story Christopher West, 2020-01-21 In response to a world awash in sexual chaos and gender confusion this book offers a bold and thoroughly biblical look at the meaning of the body sex gender and marriage Bestselling author cultural commentator and popular theologian Christopher West is one of the world s most recognized teachers of John Paul II s

Theology of the Body He specializes in making this teaching accessible to all Christians with particular attention to evangelicals As West explains from beginning to end the Bible tells a story of marriage It begins with the marriage of man and woman in an earthly paradise and ends with the marriage of Christ and the church in an eternal paradise In our post sexual revolution world we need to remember that our bodies tell a divine story and proclaim the gospel itself As male and female and in the call to become one flesh our bodies reveal a great mystery that mirrors Christ s love for the church Eph 5 31 32 This book provides a redemptive rather than repressive approach to sexual purity explores the true meaning of sex and marriage and offers a compelling vision of what it means to be created male and female Foreword by Eric Metaxas **The Way of Spiritual Direction** Francis Kelly Nemeck, Marie Theresa Coombs, 1993 It may well become a classic in this important area of spirituality It is the reader s opinion that if you read only one book on this subject this year The Way of Spiritual Direction should be the one John G Durbin STL **Journal of the American Medical Association** American Medical Association, 1922
