SPLENDOR OF THE ABSOLUTE MONARCHY Ruben Ygua, 2025-04-10 Traditional methods of studying the past have always given greater importance to nationalist religious and

moral interests which subordinated the historical fact to the System point of view That s how we have been educated The time has come to simplify and show respect for our ancestors striving to know what really happened in the past and not just what they want to inform us about After so many years of studying History I came to the conclusion that the best study system is through an impartial objective Chronology that just put each event in its exact place in time revealing History without manipulation This Chronology contains not only purely political facts such as the foundation of cities the birth of kingdoms and empires scientific and geographical discoveries natural disasters and epidemics it also includes information on the most different fields of human activity chemistry astronomy geography mathematics and so on In parallel the chronology is complemented by data that do not belong to a specific date but to an entire epoch they are each society generalities curiosities customs the religion of each civilization inventions or discoveries that cannot be placed in an exact date etc The result of all this set is one of the most complete chronologies within its reach periodically updated with the latest archaeological and scientific discoveries and that transforms the reader into an eyewitness of the past understanding the relation of geographically distant facts to each other but closely connected in time and influencing unexpected consequences This is something that traditional history has generally ignored when it was not usable A work of this magnitude could not be published in a single book so I have divided it into several collections and the Spanish originals are being translated into French English Italian and Portuguese The chronology goes from prehistory to the present day year by year as far as possible For those who prefer a deeper and more detailed study I have prepared a second chronology day by day which for now covers from 1789 to 1946 divided into five collections

The Splendor and Opulence of the Past Paul Freedman, 2023-11-15 The Splendor and Opulence of the Past traces the career of Jaume Caresmar 1717 1791 a church historian and a key figure of the Catalan Enlightenment who transcribed tens of thousands of parchments to preserve and glorify Catalonia s medieval past in the face of its diminishing autonomy As Paul Freedman shows Caresmar s books essays and transcriptions some only recently discovered provide fresh insights into the Middle Ages as remembered in modern Catalonia and illustrate how a nation s past glories and humiliations can inform contemporary politics and culture From the ninth to the sixteenth centuries Catalonia was a thriving independent set of principalities within what would become modern Spain In the wake of the dismantling of its autonomy by the eighteenth century Spanish state Catalan scholars looked to the region s medieval independence and wealth

as a means of maintaining a distinct Catalan identity and resisting Castilian hegemony Through their writings and archival investigations Caresmar and the canons at Santa Maria de Bellpuig de les Avellanes where Caresmar was abbot laid the foundations for not only the scholarly exploration of the Middle Ages but also the development of Catalan national sentiment Although the eighteenth century is often regarded as a low point for the Catalan language and culture The Splendor and Opulence of the Past emphasizes the importance of this period s antiquarians to Catalan projects of modernization and economic progress and links their historiography of the Middle Ages to struggles over Catalonia s relationship to the Spanish state over two centuries
