Spoken Hawaiian Samuel H. Elbert, 2021-05-25 This Hawaiian language text intended for self learning as well as classroom use presents the principal conversational and grammatical patterns of the language in 67 lessons each containing English Hawaiian dialogues Emphasis is given to idiomatic speech and a vocabulary of approximately 800 words selected on the basis of frequency of usage and cultural importance is introduced The frequent humor of the lessons makes Elbert's *Spoken Hawaiian* an enjoyable learning experience Also noteworthy is the author's inclusion of old Hawaiian in the text legends songs stories to enable the student to read the rich Hawaiian traditional literature in the vernacular language The illustrations by noted artist Jean Charlot are a charming and amusing complement to the text *Spoken Hawaiian* will help the student not only to read and speak the language but at the same time to appreciate the rich heritage of the Hawaiian past and its literature of the sixty seven lessons is a sample dialog in Hawaiian with English translation *Hawaiian Grammar* Samuel H. Elbert, Mary Kawena Pukui, 2021-05-25 Without question this is the definitive grammar of the Hawaiian language Indeed it is the first attempt at a comprehensive treatment of the subject since W D Alexander published his concise *Short Synopsis of the Most Essential Points in Hawaiian Grammar* in 1864 This grammar is intended as a companion to the *Hawaiian Dictionary* by the same authors The grammar was written with every student of the Hawaiian language in mind from the casual interested layperson to the professional linguist and grammarian Although it was obviously impossible to avoid technical terms their use was kept to a minimum and a glossary is included for those who need its help Each point of grammar is illustrated with examples many from Hawaiian language literature *Spoken Hawaiian* Samuel H. Speak Hawaiian is a comprehensive Hawaiian language course intended for use at the secondary school and college levels. In this second edition the text continues to answer the need for new methods and materials in language instruction and presents extensive research on the Hawaiian language. It is composed almost entirely of material that has been tested in classroom situations; it employs the aural-oral method and emphasizes the development of conversational skills through dialogues and drills. Hawaiian and English texts are on separate pages to aid in rendering the student's first language inoperative. These methods together with memorization and drill will help the student more readily to achieve fluency in Hawaiian unhampered by English. This new edition also offers more comprehensive illustrations and explanations of word usage and syntax based on the most recent and most authoritative Hawaiian language definitions.

A Dictionary of the Hawaiian Language Lorrin Andrews, 1922 **Health and Education of Native Hawaiians** United States. Congress. Senate. Select Committee on Indian Affairs, 1987 **The Green Book of Language Revitalization in Practice** Leanne Hinton, Kenneth Hale, 2013-06-13

With world-wide environmental destruction and globalization of economy, a few languages, especially English, are spreading rapidly in use while thousands of other languages are disappearing, taking with them important cultural, philosophical, and environmental knowledge systems and oral literatures. We all stand to suffer from such a loss, none more so than the communities whose very identity is being threatened by the impending death of their languages. In response to this crisis, indigenous communities around the world have begun to develop a myriad of projects to keep their languages alive. This volume is a set of detailed accounts about the kind of work that is going on now as people struggle for their linguistic survival. It also serves as a manual of effective practices in language revitalization. Following are the key features: 23 case studies of language revitalization in practice from Native American languages, Australian languages, Maori, Hawaiian, Welsh, Irish, and others, written primarily by authors directly involved in the programs; short introductions situate the languages to help make the languages more real in the minds of readers; each chapter gives a detailed overview of the various kinds of programs and methods in practice today; introductions and maps for each of the languages represented familiarize the reader with their history, linguistic structure, and sociolinguistic features; and strong representation in authorship and viewpoint of the people and communities whose languages are threatened gives the readers an inside understanding of the issues involved and the community's internal attitudes toward language loss and revitalization. This book was previously published by Academic Press under ISBN 978-01-23-49354-5.
