**The Freethinker**, 1918 **The Literary and Cultural Reception of Charles Darwin in Europe** Thomas F. Glick, Elinor Shaffer, 2014-05-22 Beyond his pivotal place in the history of scientific thought Charles Darwin's writings and his theory of evolution by natural selection have also had a profound impact on art and culture and continue to do so to this day The Literary and Cultural Reception of Charles Darwin in Europe is a comprehensive survey of this enduring cultural impact throughout the continent With chapters written by leading international scholars that explore how literary writers and popular culture responded to Darwin's thought the book also includes an extensive timeline of his cultural reception in Europe and bibliographies of major translations in each country **Ecological Diversity in Sustainable**

**Development** Chris Maser, 1999-05-04 Our world is filled with unseen wonders the most phenomenal of which is the often hidden beauty of the diversity that surrounds us Apart from the beauty diversity brings to our lives it is also absolutely necessary to the sustainability of life itself The importance of diversity is overlooked in the social realm yet decisions made in that realm affect all of society for generations Planners tend to ignore ecological diversity because they don't understand it Ecological Diversity in Sustainable Development The Vital and Forgotten Dimension makes that clear The author tackles this difficult problem how are we to maintain sustainable diversity in the Earth's ecosystems and our cultural systems He provides examples of how natural and cultural diversity have been reduced by altering the linkages between climate soil water air forests animals and people The book is divided into three parts Part one examines diversity as it is found in nature part two considers how culture affects diversity through its evolution and part three explores the diversity of Nature as seen through culture in an attempt to guide culture toward social environmental sustainability Anyone who is interested in the quality of life on Earth will want this book Maser writes in easy to read lucid prose providing a holistic overview of environmental issues that 21st century decision makers must address in shaping our destiny A Naturalist in Borneo

Robert Walter Campbell Shelford, 1916 **Identity Mediations in Latin American Cinema and Beyond** Cecilia Nuria Gil Mariño, Laura Miranda, 2019-09-12 The appearance of sound film boosted entertainment circuits around the world drawing cultural cartographies that forged images of spaces nations and regions By the late 1920s and early 30s film played a key role in the configuration of national and regional cultural identities in incipient mass markets Over the course of the twentieth and early twenty-first centuries this transmedia logic not only went unthreatened but also intensified with the arrival of new media and the development of new technologies In this respect this book strikes a dialogue between analyses that reflect the flows and transits of music films and artists mainly in the Ibero American space although it also features essays on Soviet and Asian cinema with a view to exploring the processes of configuration of cultural identities As such this

work views national borders as flexible spaces that permit an exploration of the appearance of transversal relations that are part of broader networks of circulation as well as economic social and political models beyond the domestic sphere

*Interiors and Narrative* Estela Vieira, 2012-12-17 *Interiors and Narrative* shows how crucial interiors are for our understanding of the nature of narrative A growing cultural fascination with interior dwelling so prevalent in the late nineteenth century parallels an intensification of the rhetorical function interior architecture plays in the development of fiction The existential dimension of dwelling becomes so intimately tied to the novelistic project that fiction surfaces as a way of inhabiting the world This study illustrates this through a comparative reading of three realist masterpieces of the Luso Hispanic nineteenth century Machado de Assis's *Quincas Borba* 1891 Eça de Queirós's *The Maias* 1888 and Leopoldo Alas's *La Regenta* 1884 1885 The first full length study to juxtapose the renowned writers *Interiors and Narrative* analyzes the authors spatial poetics while offering new readings of their work The book explores the important links between interiors and narrative by explaining how rooms furnishings and homes function as metaphors for the writing of the narrative reflecting on the complex relation between private dwellings and human interiority and arguing that the interior design of rooms becomes a language that gives furnishings and decorative objects a narrative life of their own The story of homes and furnishings in these narratives creates a semiotic language that both readers and characters rely on in order to make sense of fiction and reality
