The Poetics of Ascent Naomi Janowitz, 2012-02-01 This book represents the first English translation of Maaseh Merkabah which is part of a body of early Jewish mystical texts known as palace hekhalot or chariot merkabah texts Through a complex dialogue a rabbi teacher reveals to his student the techniques of ascent methods for traveling up through the heavens by means of recitation of hymns The teacher gives vivid descriptions of the heavenly realm filled with flaming chariots and a chorus of angels engaged in praising the deity The emphasis in the text is on language on the correct recitation of the words to achieve the ritual The particular focus is on the divine Name which can be employed in unusual ways The author relates the structures of the text to the linguistic ideologies The complex structures of the text begin to unfold in light of the theories about the ritual function of language The hymns include praise of the deity and voces magicae words that have no semantic meaning but draw attention to sounds of letters in God's name Since God's name is used to create the world the sounds of the name are creative but the Name cannot be spoken The hymns create a multiplicity of Name equivalents words that have the functional status of the divine Name and which can be employed in ritual Voces magicae are not so much nonsense as they are logical extensions of the linguistic theory The final chapter surveys recent theories of ritual language and then uses the conclusions from the study to refine the general issue of the relationship between the semantic meaning of words and their ritual efficacy The dialogic structure of the text permits the reader to become the next student in a chain going back to the deity by means of Moses

God Is a Friend of Mine Dave Noland, 2003-07 **Scholastic Magic** Michael D. Swartz, 2014-07-14 In exploring the social background of early Jewish mysticism Scholastic Magic tells the story of how imagination and magic were made to serve memory and scholasticism In the visionary literature that circulated between the fifth and ninth centuries there are strange tales of ancient rabbis conjuring the angel known as Sar Torah the Prince of the Torah This angel endowed the rabbis themselves with spectacular memory and skill in learning and then taught them the

formulas for giving others these gifts This literature according to Michael Swartz gives us rare glimpses of how ancient and medieval Jews who stood outside the mainstream of rabbinic leadership viewed Torah and ritual Through close readings of the texts he uncovers unfamiliar dimensions of the classical Judaic idea of Torah and the rabbinic civilization that forged them Swartz sets the stage for his analysis with a discussion of the place of memory and orality in ancient and medieval Judaism and how early educational and physiological theories were marshaled for the cultivation of memory He then examines the unusual magical rituals for conjuring angels and ascending to heaven as well as the authors attitudes to authority and tradition showing them to have subverted essential rabbinic values even as they remained beholden to them The result is a ground breaking analysis of the social and conceptual background of rabbinic Judaism and ancient Mediterranean religions Offering complete translations of the principal Sar Torah texts *Scholastic Magic* will become essential reading for those interested in religions in the ancient and medieval world ritual studies and popular religion Originally published in 1996 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905
