International Handbook of the Religious, Moral and Spiritual Dimensions in Education Marian de Souza, Gloria Durka, Kathleen Engebretson, Robert Jackson, Andrew McGrady, 2007-06-04 Traditionally spirituality has resided and been contained within religious frameworks but while the links between the two areas are still acknowledged by many in the contemporary world spirituality is perceived by some as an aspect of human life that is distinct from religion Consequently many are searching for meaning within and without religious traditions today and seeking answers to ethical and moral questions that have been generated by the knowledge and technological explosion One outcome is the renewed interest in the religious spiritual and moral dimensions of education throughout the life cycle This International Handbook presents the research and professional practice of scholars who are daily engaged in the consideration of these dimensions in education The result is a collection of essays which reflects the discipline in all of its internationality as it is today Embedded within the chapters is also an agenda for the future where the religious moral and spiritual dimensions in education are proposed as an exciting and challenging way forward for educators at all levels in society As well it offers a vision for the emergence of a peaceful and just world

Mo Yan in Context Angelica Duran, Yuhua Huang, 2014-11-01 In 2012 the Swedish Academy announced that Mo Yan had received the Nobel Prize in Literature for his work that with hallucinatory realism merges folk tales history and the contemporary The announcement marked the first time a resident of mainland China had ever received the award This is the first English language study of the Chinese writer's work and influence featuring essays from scholars in a range of disciplines from both China and the United States Its introduction twelve articles and epilogue aim to deepen and widen critical discussions of both a specific literary author and the globalization of Chinese literature more generally The book takes the root seeking movement with which Mo Yan's works are associated as a metaphor for its organizational structure The four articles of Part I Leaves focus on Mo Yan's works as world literature exploring the long shadow his works have cast globally Howard Goldblatt Mo Yan's English translator explores the difficulties and rewards of interpreting his work while subsequent articles cover issues such as censorship and the performativity associated with being a global author

Part II Trunk explores the nativist core of Mo Yan's works. Through careful comparative treatment of related historical events, the five articles in this section show how specific literary works intermingle with China's national and international politics, its mid-twentieth-century visual culture and its rich religious and literary conventions including humor. The three articles in Part III Roots delve into the theoretical and practical extensions of Mo Yan's works, uncovering the vibrant critical and cultural systems that ground Eastern and Western literatures and cultures. Mo Yan in Context concludes with an epilogue by sociologist Fenggang Yang offering a personal and globally aware reflection on the recognition Mo Yan's works have received at this historical juncture.

Confucianism as a World Religion Anna Sun, 2013-04-21 Is Confucianism a religion? If so, why do most Chinese think it isn't? From ancient Confucian temples to nineteenth-century archives to the testimony of people interviewed by the author throughout China over a period of more than a decade, this book traces the birth and growth of the idea of Confucianism as a world religion. The book begins at Oxford in the late nineteenth century when Friedrich Max Müller and James Legge classified Confucianism as a world religion in the new discourse of world religions and the emerging discipline of comparative religion. Anna Sun shows how that decisive moment continues to influence the understanding of Confucianism in the contemporary world, not only in the West but also in China, where the politics of Confucianism has become important to the present regime in a time of transition. Contested histories of Confucianism are vital signs of social and political change. Sun also examines the revival of Confucianism in contemporary China and the social significance of the ritual practice of Confucian temples. While the Chinese government turns to Confucianism to justify its political agenda, Confucian activists have started a movement to turn Confucianism into a religion. Confucianism as a world religion might have begun as a scholarly construction, but are we witnessing its transformation into a social and political reality? With historical analysis, extensive research, and thoughtful reflection, *Confucianism as a World Religion* will engage all those interested in religion and global politics at the beginning of the Chinese century.

Human Rights and the World's Major Religions William H. Brackney, 2013-10-01 Based on the celebrated five-volume set published in 2005, this updated one-volume edition offers readers a concise yet complete understanding of the interplay between the major religions and human rights. In a world where religious beliefs have become inseparable from the events of the day, ranging from the ongoing strife in the Middle East to cases of sexual abuse by clergy and controversy over circumcision laws in Europe, this is an invaluable work. It offers readers a comprehensive examination of the way the world's five major faiths—Judaism, Christianity, Islam, Hinduism, and Buddhism—view and have viewed human rights from ancient times to the present. An overview of each tradition is provided, followed by chapters that show how human rights have been shaped and understood in the tradition from the earliest textual evidence to the contemporary era. Considering the differences among religious

traditions globally the book shows how each faith advanced the cause of human rights in unique ways Contributors track the development of ideas opinions and issues documenting both the advancement and violation of human rights in the name of religion Demonstrating that human rights discourse cannot be divorced from religious history and experience the book covers such issues as the right to life the rights of women punishment for crimes war and peace slavery and violence
