The Man Who Leads The Church An Assessment Of Pope John Paul II:

The Man who Leads the Church ; an Assessment of Pope John Paul II John Whale, Peter Hebblethwaite, 1980

The Modern Papacy, 1798-1995 Frank J. Coppa, 2016-07-01 This ambitious survey launches a major new five volume series It explores the response of the papacy one of the world's longest enduring institutions to the multiplying challenges of the modern age It runs from the French Revolution to the fall of the Soviet Union ending with the pontificate of John Paul II the first non Italian pope since 1522 Frank Coppa examines the impact of major events like the Napoleonic conquests Italian unification two World Wars and the Cold War he explores the attitudes of the papacy to such issues as liberalism nationalism fascism communism and the modern secular age he examines the growing concern of the popes for the Catholic world beyond its traditional European home and he tackles objectively and judiciously contentious topics like the silence of Pius XII Engrossingly readable the book offers a fresh and invigorating perspective on international relations across the past two centuries and on the political and ideological emergence of the modern world as well as its specifically papal concerns

The Pursuit of a Just Social Order Brian J. Benestad, 1982 *Papal Teaching on Private Property, 1891 to 1981*

Matthew Habiger, 1990 This book deals with just one aspect of Catholic social teaching the principle of private property This aspect is only one among many principles in social ethics but continues to be the source of controversy This study examines the degree of continuity in papal teaching on private property between *Rerum Novarum* 1891 and *Laborem Exercens* 1981 and how the pontiffs of this century adapted this principle to new problems and developments The contribution of this volume is the gathering together of the many influences which shaped the teaching of the Magisterium in social ethics in the specific area of property rights These influences include among others the problems facing a pope the drafters and theologians who assisted in the writing of social encyclicals schools of thought which influenced contemporary debates and various objections leveled at this teaching Contents Leo XIII and Private Property Pius XI and Private Property Pius XII and Private P John XXII and Private Property Paul VI and Private Property John Paul II and Private Property and Conclusions

Faith and Leadership Michael P. Riccards, 2012-04-19 This study is a comprehensive history of the papacy the oldest elective office in the world and how it has managed over the centuries the most complex voluntary association of faith The book argues that in fact through most of its existence the papacy has adapted managerial models of the secular world and applied them to the Catholic Church Since its emergence from the Jewish synagogues to a persecuted minority in the Roman Empire to becoming the established religion of the West the Church and the papacy engaged the world on its own terms It is only after the Council of Trent did the Church become somewhat more divorced and estranged from the environment around it This book focused on those changes and on the great popes across the centuries who reformed and altered Catholicism Special attention is directed to Gregory I Innocent I Innocent III Pius IX Leo XIII Pius XI Pius XII John XXVII Paul VI and John Paul II The conclusion is that the persistence of the Catholic Church for so many centuries was due to its ability to preserve

the faith but re establish its forms and managerial class *Mortal Sins: Sex, Crime, and the Era of Catholic Scandal* Michael D'Antonio, 2013-04-09 An explosive sweeping account of the pedophile scandal that has sent the Catholic church into a tailspin and the fight to bring it to justice **The Modern Papacy Since 1789** Frank J. Coppa, 1998 This book explores the response of the papacy to the challenges of the modern age offering a fresh perspective on political and ideological development across two centuries **The Catholic Library World** , 2003 **Best Sellers** , 1981 **Religion and Public Diplomacy** P. Seib, 2013-07-03 Mixing religion and public diplomacy can produce volatile results but in a world in which the dissemination and influence of religious beliefs are enhanced by new communications technologies religion is a factor in many foreign policy issues and must be addressed Faith is such a powerful part of so many people s lives that it should be incorporated in public diplomacy efforts if they are to have meaningful resonance among the publics they are trying to reach This book addresses key issues of faith in an increasingly connected and religious world and provides a better understanding of the role religion plays in public diplomacy
