The View from Officers' Row Sherry L. Smith, 1990-02-01 A Choice Outstanding Academic Title Capturing military men in contemplation rather than combat Sherry L Smith reveals American army officers views about the Indians against whom they fought in the last half of the nineteenth century She demonstrates that these officers and their wives did not share a monolithic negative view of their enemies but instead often developed a great respect for Indians and their cultures Some officers even came to question Indian policy expressed misgivings about their personal

involvement in the Indian Wars and openly sympathized with their foe The book reviews the period 1848 1890 from the acquisition of the Mexican Cession to the Battle of Wounded Knee and encompasses the entire trans Mississippi West Resting primarily on personal documents drawn from a representative sample of the officer corps at all levels the study seeks to juxtapose the opinions of high ranking officers with those of officers of lesser prominence who were perhaps less inclined to express personal opinions in official reports No educated segment of American society had more prolonged contact with Indians than did army officers and their wives yet not until now has such an overview of their attitudes been presented Smith s work demolishes the stereotype of the Indian hating officer and broadens our understanding of the role of the army in the American West Dog Soldier Justice ,2009-07-01 In his study of the civilian population that fell victim to the brutality of the 1860s Kansas Indian wars Jeff Broome recounts the captivity of Susanna Alderdice who was killed along with three of her children by her Cheyenne captors known as Dog Soldiers at the Battle of Summit Springs in July 1869 and of her four year old son who was wounded then left for dead
