The Marriage Of Sense And Soul Integrating Science And Religion

Alex S. Kohav

The Marriage Of Sense And Soul Intergrating Science And Religion:

The Marriage of Sense and Soul Ken Wilber, 1999-04-20 There is arguably no more critical and pressing topic than the relation of science and religion in the modern world Science has given us the methods for discovering truth while religion remains the single greatest force for generating meaning Yet the two are seen as mutually exclusive with wrenching consequences for humanity In *The Marriage of Sense and Soul* one of today's most important philosophers brilliantly articulates how we might begin to think about science and religion in ways that allow for their reconciliation and union on terms that will be acceptable to both camps Ken Wilber is widely acclaimed as the foremost thinker in integrating Western psychology and the Eastern spiritual traditions His many books have reached across disciplines and synthesized the teachings of religion psychology physics mysticism sociology and anthropology earning him a devoted international following *The Marriage of Sense and Soul* is his most accessible work yet aimed at guiding a general audience to the mutual accord between the spiritual subjective world of ancient wisdom and the objective empirical world of modern knowledge Wilber clearly and succinctly explores the schism between science and religion and the impact of this philosophical Cold War on the fate of humanity He systematically reviews previous attempts at integration explaining why romantic idealistic and postmodern theories failed And he demonstrates how science is compatible with certain deep features common to all of the world's major religious traditions In pointing the way to a union between truth and meaning Ken Wilber has created an elegant and accessible book that is breathtaking in its scope

The Marriage of Sense and Soul Ken Wilber, 1998

Science, Religion, and the Human Experience James D. Proctor, 2005-04-21 The relationship between science and religion is generally depicted in one of two ways In one view they are locked in an inevitable eternal conflict in which one must choose a side In the other they are separate spheres in which the truth claims of one have little bearing on the other This collection of provocative essays by leading thinkers offers a new way of looking at this problematic relationship The authors begin from the premise that both science and religion operate in yet seek to reach beyond specific historical political ideological and psychological contexts How may we understand science and religion as arising from yet somehow transcending human experience Among the scholars who explore this question are Bruno Latour Hilary Putnam Jeffrey Burton Russell Daniel Matt Michael Ruse Ronald Numbers Pascal Boyer and Alan Wallace The volume is divided into four sections The first takes a fresh look at the relationship between science and religion in broad terms as spheres of knowledge or belief realms of experience and sources of authority The other three sections take on topics that have been focal points of conflict between science and religion the nature of the cosmos the origin of life and the workings of the mind Ultimately the authors argue by seeing science and religion as irrevocably tied to human experience we can move beyond simple either/or definitions of reality and arrive at a more rich and complex view of both science and religion

The Perennial Quest for a Psychology with a Soul Joseph Vrinte, 2002-01-01 The subject matter of this book is so vast that it would be presumptuous to

attempt to deal with comprehensively and it would be preposterous to pretend to a final solution to a set of ideas as comprehensive as these worldviews. The author is aware that the contents of this comparative study may appear offensive to the followers of Sri Aurobindo. He tries to stimulate a fruitful dialogue and evaluates this dialogue in a sympathetic manner when he refers to the intentions of both thinkers. *Psychology and the Perennial Philosophy* Samuel Bendeck

Sotillos, 2013-02-26 Modern psychology is at an impasse as it searches anxiously for new therapies to address the increasing occurrence of mental illness in contemporary society. In this groundbreaking anthology, leading authors from the perennialist school, including Huston Smith, Seyyed Hossein Nasr, and Frithjof Schuon, draw on the age-old insights of the world's wisdom traditions to argue that modern psychology, behaviorism, psychoanalysis, humanistic, and transpersonal psychology overlooks the specifically spiritual factors contributing to mental health and illness. Investigating Phenomenal Consciousness Max Velmans, 2000-01-01 How can one investigate phenomenal consciousness? As in other areas of science, the investigation of consciousness aims for a more precise knowledge of its phenomena and the discovery of general truths about their nature. This requires the development of appropriate first person, second person, and third person methods. This book introduces some of the creative ways in which these methods can be applied to different purposes, e.g., to understanding the relation of consciousness to brain, to examining or changing consciousness as such, and to understanding the way consciousness is influenced by social, clinical, and therapeutic contexts. To clarify the strengths and weaknesses of different methods and to demonstrate the interplay of methodology and epistemology, the book also suggests a number of maps of the consciousness studies terrain that place different approaches to the study of consciousness into a broader interdisciplinary context. Series A

Spiritual Diversity in Social Work Practice Edward R. Canda, Leola Dyrud Furman, Hwi-Ja Canda, 2019-11-05 The first edition of this book (1999) Free Press provided the first comprehensive framework of knowledge, values, and skills for addressing spiritual diversity in social work at a time when this topic was little known or accepted. The second edition (2010) Oxford University Press was revised and expanded to reflect the significant growth of interest in spirituality within social work and other helping professions in the USA and around the world. This third edition builds on that foundation and much expanded multidisciplinary and international work on the topic during the past eight years, including our own. In particular, this edition includes case examples and insights from a new third author, Hwi-Ja Canda, based on her 30 years of experience as a social work practitioner in order to make the professional applications of our framework even more vivid and practical. The main new features of the third edition are: Reorganization of content to enhance flow of ideas and guidelines for practice, including expansion of content on assessment and practice with two added chapters in Part III. Twice as many case examples and vignettes from personal and professional experiences organized into 40 Scenarios throughout the book. Significantly expanded transdisciplinary literature review throughout the book. Increased integration of the strengths perspective throughout. Increase of international perspective including analysis of worldwide professional codes of ethics. More exercises

to engage the reader in personal and professional growth Significant refinements of sections on human diversity religious perspectives and addition of 12 Steps perspective in Part II **Fire of Love** Donald J. OP. Goergen, 2004 Soulcraft Bill Plotkin, 2010-10-05 Since 1980 depth psychologist Bill Plotkin has been guiding women and men into the wilderness the redrock canyons and snow crested mountains of the American West but also into the wilds of the soul He calls this work soulcraft There s a great longing in all people to uncover the secrets and mysteries of our individual lives to find the unique gift we were born to bring to our communities and to experience our full membership in the more than human world This journey to soul is a descent into layers of the self much deeper than personality a journey meant for each one of us not just for the heroes and heroines of mythology A modern handbook for the journey Soulcraft is not an imitation of indigenous ways but a contemporary nature based approach born from wilderness experience the traditions of Western culture and the cross cultural heritage of all humanity Filled with stories poems and guidelines Soulcraft introduces over 40 practices that facilitate the descent to soul including dreamwork wilderness vision fasts talking across the species boundaries council self designed ceremony nature based shadow work and the arts of romance being lost and storytelling *Mysticism and Meaning: Multidisciplinary Perspectives* Alex S. Kohav, 2019 The volume investigates the question of meaning of mystical phenomena and conversely queries the concept of meaning itself via insights afforded by mystical experiences The collection brings together researchers from such disparate fields as philosophy psychology history of religion cognitive poetics and semiotics in an effort to ascertain the question of mysticism s meaning through pertinent up to date multidisciplinary The discussion commences with Editor s Introduction that probes persistent questions of complexity as well as perplexity of mysticism and the reasons why problematizing mysticism leads to even greater enigmas One thread within the volume provides the contextual framework for continuing fascination of mysticism that includes a consideration of several historical traditions as well as personal accounts of mystical experiences Two contributions showcase ancient Egyptian and ancient Israelite involvements with mystical alterations of consciousness and Christianity s origins being steeped in mystical praxis and four essays highlight mysticism s formative presence in Chinese traditions and Tibetan Buddhism as well as medieval Judaism and Kabbalah mysticism A second more overarching strand within the volume is concerned with multidisciplinary investigations of the phenomenon of mysticism including philosophical psychological cognitive and semiotic analyses To this effect the volume explores the question of philosophy s relation to mysticism and vice versa together with a Wittgensteinian nexus between mysticism facticity and truth language mysticism and supernormal meaning engendered by certain mystical states cognitive poetic analysis of mystical poetry and a semiotic scrutiny of some mystical experiences and their ineffability Finally the volume includes an assessment of the so called New Age authors contention of the convergence of scientific and mystical claims about reality The above two tracks are appended with personal contemporary accounts of mystical experiences in the Prologue and a futuristic envisioning as a fictitious chronicle from the time to come of life without things

mystical in the Postscript The volume contains fourteen chapters its international contributors are based in Canada Israel United Kingdom and the United States
