The Mad Man Theory:

The Madman Theory Ellery Queen, 2015-09-22 Inspector Omar Collins tracks a mad killer through California's Sierra Nevada mountains in this classic novel from the legendary mystery author. A party of backpackers hikes along the silver strand of the river in awe of the overwhelming beauty of King's Canyon. They are amateur hikers, coworkers at a chemical lab who came from Fresno to heed the call of the wild. They have endured blisters, bug bites, and sunburn, but no discomfort can prepare them for what comes next. The peaceful silence of nature is shattered by a shotgun blast. When the echoes fade, there is a dead man in the canyon. There are no roads into the park, so Inspector Omar Collins flies in via helicopter. Tracking a killer on 3,000 square miles of parkland is impossible, but what if he's closer than Collins realizes? The murderer could be a madman or a genius. Either way, his bloody work isn't done. *Kim Jong-un's Strategy for Survival* David W. Shin, 2020-11-09 In Kim Jong-un's *Strategy for Survival*, David W. Shin contends that Kim Jong-un's consolidation of power at home and the leveraging of Beijing, Moscow, Seoul, and Washington, and others abroad, show that he is not a madman and like the two earlier Kims, has consistently been underestimated. Shin presents an alternative framework for Kim Jong-un's behavior through his analysis of Kim's background and his development as the successor to his father, Kim Jong-il, the evolution of the totalitarian system Kim inherited from his grandfather, Kim Il-sung, and the security environment after Kim Jong-il's death in 2011. This book is recommended for scholars and students of political science, Asian studies, international relations, and history.

Sociological Theory Alessandro Orsini, 2024-05-14 This textbook analyses the work of classical and contemporary sociological theorists. The first part is dedicated to Comte, Spencer, Marx, Durkheim, Weber, Pareto, and Simmel. The second part covers the major contemporary sociological perspectives: Functionalism, Marxism, Conflict Theory, Symbolic Interactionism, Phenomenological Sociology, and Rational Choice Theory. The third part is devoted to Postmodern Theory, Feminist Theory, Postcolonial Theory, and Race Theory. The author combines academic rigour with clear and accessible language, offering students an in-depth and extensive overview of the main recurring problems that have troubled sociological theory from its origins to the present day. The textbook uses contemporary examples, analysing how sociological theory can explain the most tragic phenomena of our time, including the war in Ukraine, the Israeli-Palestinian conflict, US-China competition over Taiwan, nuclear proliferation, radicalization, neofascism, white suprematism, jihadism, and terrorism. With pedagogic features aiding learning, this book helps navigate the various approaches, methods, and research that divide sociologists into distinct schools. This textbook is therefore an invaluable tool to any sociology student looking to gain a comprehensive understanding of the foundational thinkers that have shaped the discipline. **Controversy** Orestes Augustus Brownson, 1884 Nixon's Vietnam War Jeffrey P. Geopolitics of Eastern Europe Theodor Tudoroiu, 2018-04-05 This book analyzes the combined consequences of Brexit and of the new US foreign policy under President Trump on the geopolitical situation of Eastern Europe It perceives the evolution of the East European regional security complex as a struggle between the European Union's Kantian win-win geopolitical vision and Russia's neoclassical geopolitics also promoted by President Trump In the most probable scenario the latter approach will have the upper hand The EU's post-Brexit control by the Franco-German axis will likely be followed by the geopolitical irrelevance of the EU due to the renationalization of member states' foreign policy with Germany becoming the main West European actor Consequently Eastern Europe will be turned into the arena of a mainly three-cornered neoclassical geopolitics rivalry opposing Russia the Franco-German axis and then Germany and the US in alliance with the post-Brexit UK and certain East European states The book will appeal to scholars across the fields of International Relations Geopolitics European Studies and Area Studies The Madman Theory Ellery Queen, 1966
