### **The Magic Flute Criterion Collection:**

Experiencing Mozart David Schroeder, 2013-06-13 Titles in the Listener's Companion Series provide readers with a deeper understanding of key musical genres and the work of major artists and composers. Aimed at nonspecialists, each volume clearly explains how to listen to works from particular artists, composers, and genres. Examining both the context in which the music appeared and its form, authors provide the environments in which key musical works were written and performed. From a 1950s bebop concert at the Village Vanguard to a performance of Handel's *Messiah* in eighteenth-century Dublin, Wolfgang Amadé Mozart (1756-1791) remains as popular today as ever. His recordings fill iTunes playlists, and annual Mozart festivals are performed worldwide. His eminence as a musician has supported overseas guided tours, served as the subject of a cartoon series, *Little Amadeus* (twenty-nine episodes from 2006 to 2008), inspired movies and documentaries, and launched a French rock opera. In *Experiencing Mozart*, a Listener's Companion, music historian David Schroeder illustrates how the issues Mozart cared about so deeply remain important to modern listeners. His views on politics, women, authority, and religion are provided along with compelling analysis of selected great symphonies and sonatas, moving concertos, and innovative keyboard works and groundbreaking operas. Schroeder merges his vast knowledge of the great artist's personal and professional life, late eighteenth-century European culture and society, and remarkable musicianship to guide listeners in the art of listening to Mozart. This work is an ideal introduction to readers and listeners at any level.

**Opera and the Morbidity of Music** Joseph Kerman, 2008-04-08 The death of classical music, the distinguished critic and musicologist Joseph Kerman declares, is a tired, vacuous concept that will not die. In this wide-ranging collection of essays and reviews, Kerman examines the ongoing vitality of the classical music tradition from the days of Guillaume Dufay, John Taverner, and William Byrd to contemporary operas by Philip Glass and John Adams. Here are enlightening investigations of the lives and works of the greatest composers: Bach and his *Well-Tempered Clavier*; Mozart's and Beethoven's piano concertos; Schubert's songs; Wagner's and Verdi's operas. Kerman discusses *The Magic Flute* as well as productions of the Monteverdi operas in Brooklyn and the *Ring* in San Francisco and Bayreuth. He also includes remembrances of Maria Callas and Carlos Kleiber that make clear why they were such extraordinary musicians. Kerman argues that predictions, let alone assumptions, of the death of classical music are not a new development but part of a cultural transformation that has long been with us. Always alert to the significance of historical changes, from the invention of music notation to the advent of recording, he proposes that the place to look for renewal of the classical music tradition in America today is in opera: in a flood of new works, the rediscovery of long-forgotten ones, and innovative productions by companies large and small. Written for a general audience rather than for experts, Kerman's essays invite readers to listen afresh and to engage with his insights into how music works. His gift is so uncommon as to make one sad, Alex Ross has said.

*The Epic in Film* Constantine Santas, 2008 Constantine Santas encourages us to wonder why film critics have so routinely dismissed the epic film. In *The Epic in Film*, he argues that

blockbuster and artistic are not mutually exclusive terms and perhaps more importantly epic film is an inherently profound genre in its ability to tap into a nation's and sometimes humanity's dreams and fears Why do we see dozens and dozens of films based on the King Arthur legend Why would a presidential hopeful borrow a phrase Read my lips from Clint Eastwood's Dirty Harry Why do war epics proliferate in times of war or national crisis Why are epics as a whole the most popular movie genre Start with an individual quest of some kind undertaken by an attractive hero or heroine add the weight of a nation and perhaps humanity into that character's struggle sprinkle some awe inspiring special effects and a general sense of largesse and don't forget the happy ending and there you have a recipe for a film that can contain the deepest emotions fear hope insecurity pride of a nation and sometimes a world Whether you love Gone with the Wind and hate Troy find Akira Kurosawa's films brilliant or marvel over the depth of the Matrix trilogy film buffs will want to read this first book length treatment of the epic a wildly popular infinitely fascinating and critically underappreciated genre **TLA Video & DVD Guide 2004** David Bleiler, 2003-10-24 This is the absolutely indispensable guide to worthwhile cinema It includes over 10 000 entries on the best of film and video that a real film lover might actually want to see **The New Criterion**, 2006 [Operas in German: A Dictionary](#) Margaret Ross Griffel, 2018-01-23 With nearly three thousand new entries the revised edition of Operas in German A Dictionary is the most current encyclopedic treatment of operas written specifically to a German text from the seventeenth century through 2016 Musicologist Margaret Ross Griffel details the operas composers scores librettos first performances and bibliographic sources Four appendixes then list composers librettists authors whose works inspired or were adapted for the opera librettos and a chronological listing of the entries in the A Z section The bibliography details other dictionaries and encyclopedias performance studies collections of plot summaries general studies on operas sources on locales where opera premieres took place works on the history of operas in German and selective volumes on individual opera composers librettists producers directors and designers Finally two indexes list the main characters in each opera and the names of singers conductors producers composers directors choreographers and arrangers The revised edition of Operas in German provides opera historians musicologists performers and opera lovers with an invaluable resource for continued study and enjoyment [TLA Video & DVD Guide 2005](#) David Bleiler, 2025-06-25 The TLA Video and DVD Guide 2005 is the absolutely indispensable guide to worthwhile cinema It includes over 10 000 entries on the best of film and video that a real film lover might actually want to see Unlike some of the other mass market guides that tend to be clogged with unenlightening entries on even more unenlightening films TLA focuses on independent foreign and the best of Hollywood to bring the cineaste an opinionated guide that is both fun and useful The guide includes Reviews of more than 10 000 films Four detailed indexes by star directory country of origin and theme More than 300 photos throughout A listing of all the major film awards of the past quarter century as well as TLA Bests and recommended films A comprehensive selection of cinema from more than 50 countries Now published annually the TLA Video and DVD Guide is one of the most respected
