The Major Victorian Poets: Reconsiderations (Routledge Revivals) Isobel Armstrong, 2013-06-17 First published in 1969 this edition collection brings together a series of essays offering a re evaluation of Victorian poetry in the light of early 20th Century criticism The essays in this collection concentrate upon the poets whose reputations suffered from the great redirection of energy in English criticism initiated in this century by Eliot Richards and Leavis What these poets wrote about the values they expressed the form of the poems the language they used all these were examined and found wanting in some radical way One of the results of this criticism was the renewal of interest in metaphysical and eighteenth century poetry and corresponding ebb of enthusiasm for Romantic poetry and for Victorian poetry in particular Most of the essays in this book take as their starting point questions raised by the debate on Victorian poetry both earlier in this century and in the more recent past There are essays on the poetry of Tennyson Browning and Arnold on that of Clough who until recently has been neglected and Hopkins because of rather than in spite of the fact that he is usually considered to be a modern poet The volume is especially valuable in that it will give a clearer understanding of the nature of Victorian poetry concentrating as it does on those areas of a poet's work where critical discussion seems most necessary **The Major Victorian Poets** Isobel Armstrong, 1969

Victorian Poet (Routledge Revivals) Joseph Bristow, 2014-03-18 The practice of poetry in the Victorian period was characterised by an extreme diversity of styles preoccupations and subject matter This anthology attempts to draw out some of the main focuses of interest in the Victorian poet No Victorian poet produced an overall theory of poetry yet all accepted it as a natural vehicle of expression and for some subjects in particular sexuality the only literary mode Indeed the sexual question was made even more acute by the sudden phenomenon of the poetess and the relation of poetry to gender raised

interesting new critical questions At the same time the cultural role of the poet came under increasing debate Victorian poetry was the first contemporary poetry to be studied This selection of central texts illustrates these pressures on the Victorian practice of poetry and the introductory remarks suggest ways in which theory can be related to the understanding key poems themselves

Browning, Victorian Poetics and the Romantic Legacy Dr Britta Martens, 2013-05-28 Taking an original approach to Robert Browning's poetics Britta Martens focuses on a corpus of relatively neglected poems in Browning's own voice in which he reflects on his poetry his self conceptualization and his place in the poetic tradition She analyzes his work in relation to Romanticism Victorian reactions to the Romantic legacy and wider nineteenth century changes in poetic taste to argue that in these poems as in his more frequently studied dramatic monologues Browning deploys varied dramatic methods of self representation often critically and ironically exposing the biases and limitations of the seemingly authoritative speaker Browning The poems thus become devices for Browning's detached evaluation of his own and of others poetics an evaluation never fully explicit but presented with elusive economy for the astute reader to interpret The confrontation between the personal authorial voice and the dramatic voice in these poems provides revealing insights into the poet's highly self conscious conflicted and sustained engagement with the Romantic tradition and the diversely challenging reader expectations that he faces in a post Romantic age As the Victorian most rigorous in his rejection of Romantic self expression Browning is a key transitional figure between the sharply antagonistic periods of Romanticism and Modernism He is also as Martens persuasively demonstrates a poet of complex contradictions and an illuminating case study for addressing the perennial issues of voice authorial authority and self reference

Republican Politics and English Poetry, 1789-1874 Stephanie Kuduk Weiner, 2005-08-03 This study explores how poets who espoused republican political ideals sought to embody and advance those principles in their verse By examining a range of canonical and non canonical authors including Blake Shelley Cooper Linton Landor Meredith Thomson and Swinburne Kuduk Weiner connects the formal strategies of republican poems to the political theory and expressive cultures of republican radicalism Her new study traces a strain of powerful complex political poetry that casts new light on the political and literary history of nineteenth century England

Selected Poems Alfred Lord Tennyson, 2004-01-29 Tennyson wrote T S Eliot has the finest ear of any English poet since Milton and his verse remains unrivalled in its combination of verbal richness emotional depth and intellectual engagement Tennyson drew on classical and medieval legends in poems like The Lotos Eaters 1832 and The Lady of Shalott 1832 to explore the spiritual tensions of the nineteenth century In one of the great works of his maturity In Memoriam 1850 written after the loss of his dearest friend Tennyson vividly negotiated contemporary scepticism and the modern sciences of geology and evolution Similar ground is covered in a dramatically darker mood in Maud 1855 a poignant account of psychological disintegration

Alfred Tennyson Seamus Perry, 2005 This title is a study of Tennyson's lyrical imagination describing its complex fascinations with recurrence progress narrative and loss and its doubts about its own artfulness

Nineteenth-Century Poetry and Liberal Thought Anna Barton, 2017-11-27 This book explores the relationship between nineteenth century poetry and liberal philosophy It carries out a reassessment of the aesthetic possibilities of liberalism and it considers the variety of ways that poetry by William Wordsworth Elizabeth Barrett Browning Arthur Hugh Clough George Meredith Robert Browning Matthew Arnold and Algernon Charles Swinburne responds to and participates in urgent philosophical social and political debates about liberty and the rule of law It provides an account of poetry's intervention into four different sites where liberalism has a stake the self the university married life and the nation state and it seeks to assert the peculiar capacity of poetry to articulate liberal concerns proposing poetic language as a means of liberal enquiry
