The Man Who Found The Maya Steven Frimmer, 2010-06-21 Starting as a typical tourist John Lloyd Stephens developed into an adventurous traveler and popular author hailed as our greatest travel writer Then he blossomed into an intrepid explorer who found over forty sites of the virtually forgotten Maya pioneering archaeology in the Americas and rescuing from obscurity a lost civilization His incredible travels first in Europe the Near East and the Holy Land and then in the jungles of Central America and Mexico mark him as a kind of nineteenth century Indiana Jones How he transformed from the wandering tourist who scrawled his name on ancient monuments to the dedicated discoverer whose theories about the Maya were often years ahead of the scholars is as fascinating as the exploits he chronicled in his books Based largely on Stephens's own writings this biography presents the man in the widely different settings that marked his colorful career the society of his beloved nineteenth century New York the forbidding desert of Arabia plague ridden Constantinople and the uncharted mountains and steaming jungles where the hidden Maya temples and cities lay under centuries of almost impenetrable vegetation Readers will see through Stephens's eyes the hieroglyphic covered temples of ancient Luxor the hidden city of Petra carved out of living rock and the moment he comes upon the walls of Copan one of the great moments in archaeology From his childhood in a booming young New York City to his years as a lawyer dabbling in politics to his travels and his four successful books about those travels to his subsequent career as a businessman Stephens was a fascinating figure and an interesting one to read about

STEVEN FRIMMER is a retired editor with more than thirty years experience in book publishing and is the author of three previously published books on archaeology

The Man Verdi Frank Walker, 1982 In this classic biography of composer Giuseppe Verdi Frank Walker reveals Verdi the man through his connections with the individuals who knew him best Walker focuses on some of the more

significant people in Verdi's life and carefully scrutinizes his relationships with them. His wife Giuseppina Strepponi, his student and amanuensis Emanuele Muzio, the conductor who first fully understood Verdi's mature art, Angelo Mariani, the great prima donna Teresa Stolz, the incomparable librettist and friend of his old age Arrigo Boito, each passes before our eyes in Walker's meticulous reconstruction. As we learn more about them, we learn more about Verdi. We see him through the eyes of his closest friends, we watch his daily activities, his daily thoughts, his habits, his warmth, his domestic tyranny. The myth dissolves and a human being stands before us. Philip Gossett from the introduction

About Time Andrew Bolton, Jan Glier Reeder, Jessica Regan, Amanda Garfinkel, Theodore Martin, Michael Cunningham, 2020-06-15

An hour, once it lodges in the queer element of the human spirit, may be stretched to fifty or a hundred times its clock length; on the other hand, an hour may be accurately represented on the timepiece of the mind by one second.

Virginia Woolf, *Orlando: A Biography*, 1928

About Time: Fashion and Duration traces the evolution of fashion from 1870 to the present through a linear timeline of iconic garments, each paired with an alternate design that jumps forward or backward in time. These unexpected pairings, which relate to one another through shape, motif, material, pattern, technique, or decoration, create a unique and disruptive fashion chronology that conflates notions of past, present, and future. Virginia Woolf serves as ghost narrator; excerpts from her novels reflect on the passage of time with each subsequent plate pairing.

A new short story by Michael Cunningham, winner of the Pulitzer Prize for Fiction for *The Hours*, recounts a day in the life of a woman over a time span of 150 years through her changing fashions.

Scholar Theodore Martin analyzes theoretical responses to the nature of time, underscoring that time is not simply a sequence of historical events. And fashion photographer Nicholas Alan Cope illustrates 120 fashions with sublime black and white photography. This stunning book reveals fashion's paradoxical connection to linear notions of time.
