Henrietta Hyman,1922 **Cadbury Castle Somerset** John C Barrett,P W M Freeman,2014-06-30 Some time late in the first century AD Roman military action took place in the hillfort of Cadbury Castle Somerset The evidence for destruction in the south western gateway includes deposits of fragmentary and partly burnt human remains weaponry and dress fittings After this destruction barracks were built on the hilltop These events effectively brought to an end the history of an indigenous community that for nearly a millennium before had settled within and constructed one of the most impressive hillforts in southern Britain This is a report of the archaeology of that community from its origins in the late Bronze Age to its eclipse in the Roman Iron Age The archaeological deposits are extensive The ramparts and south western gate structure represents one of the deepest and most complex Iron Age stratigraphic sequences excavated in southern Britain and the survival of preserved surface deposits within the interior yielded a remarkable range of metalworking debris and animal burials Consequently this report contains a wealth of detail concerning the material culture of what had been a rich and powerful Iron Age community and its significantly extends our understanding of the nature of hillfort occupation in southern Britain

Dogs and People in Social, Working, Economic or Symbolic Interaction L. Snyder,2016-07-29 This the final title to be published from the sessions of the 2002 ICAZ conference focuses on the role of man s best friend As worker or companion the dog has enjoyed a unique relationship with its human master and the depth and variety of the papers in this fascinating collection is a testament to the interest that this symbiotic arrangement holds for many scholars working in archaeology today The book covers an eclectic range of subjects such as considering dogs as animals of sacrifice and animal components of ancient and modern religious ritual and practice dogs as human companions subject to loving care visual symbolic

representation deliberate or accidental breed manipulation as working dogs and finally as co inhabitants of human dwelling paces and co consumers of human food resources While many of the papers in this volume have a predominant focus they also demonstrate that the relationships between humans and dogs are rarely if ever singular or simple Instead these relationships are complex often combining the practical the ideological and the symbolic

Dogs Darcy F. Morey,2010-04-12 This book traces the evolution of the dog from its origins about 15 000 years ago up to recent times The timing of dog domestication receives attention with comparisons between different genetics based models and archaeological evidence Allometric patterns between dogs and their ancestors wolves shed light on the nature of the morphological changes that dogs underwent Dog burials highlight a unifying theme of the whole book the development of a distinctive social bond between dogs and people the book also explores why dogs and people relate so well to each other Though cosmopolitan in overall scope the greatest emphasis is on the New World with an entire chapter devoted to dogs of the arctic regions mostly in the New World Discussion of several distinctive modern roles of dogs underscores the social bond between dogs and people

Dog Behaviour, Evolution, and Cognition Adam Miklosi,2014-12-11 This is the first book to collate and synthesize the recent burgeoning primary research literature on dog behaviour evolution and cognition The author presents a new ecological approach to the understanding of dog behaviour demonstrating how dogs can be the subject of rigorous and productive scientific study without the need to confine them to a laboratory environment This second fully updated edition of Dog Behaviour Evolution and Cognition starts with an overview of the conceptual and methodological issues associated with the study of the dog followed by a brief description of their role in human society An evolutionary perspective is then introduced with a summary of current research into the process of domestication The central part of the book is devoted to issues relating to the cognitive aspects of behaviour which have received particular attention in recent years from both psychologists and ethologists The book s final chapters introduce the reader to many novel approaches to dog behaviour set in the context of behavioural development and genetics This second edition recognises and discusses the fact that dogs are increasingly being used as model organisms for studying aspects of human biology such as genetic diseases and ageing Specific attention is also given in this edition to attachment behaviour

which emerges between humans and dogs the importance of inter specific communication in the success of dogs in human communities and the broad aspects of social cognition and how this may contribute to human dog cooperation Directions for future research are highlighted throughout the text which also incorporates links to human and primate research by drawing on homologies and analogies in both evolution and behaviour The book will therefore be of relevance and use to anyone with an interest in behavioural ecology including graduate students of animal behaviour and cognition as well as a more general audience of dog enthusiasts biologists psychologists veterinarians and sociologists

Eight human skulls in a dung heap and more Annet Nieuwhof, 2015-01-06 The study of ritual practice in the past is an accepted part of archaeological research these days Yet its theoretical basis is still not fully mature This book aims at making a contribution to the study of ritual practice in the past by assembling a theoretical framework which is tailored to the needs of archaeology and which helps to identify and interpret the remains of rituals in the past This framework is applied in a special archaeological region the coastal area of the northern Netherlands a former salt marsh area In the past people lived here on artificial dwelling mounds so called terps Preservation conditions are excellent in this wetland area This study makes use of the well preserved remains of rituals in terps to examine the role of ritual practice in the societies of the pre Roman and Roman Iron Age in this area
