Citation Society of Dance History Scholars 2013 From Christopher Columbus to first anthropologist Friar Bernardino de  
Sahag n fifteenth and sixteenth century explorers conquistadors clerics scientists and travelers wrote about the Indian  
dances they encountered throughout the New World This was especially true of Spanish missionaries who intensively studied  
and documented native dances in an attempt to identify and eradicate the idolatrous behaviors of the Aztec the largest  
indigenous empire in Mesoamerica at the time of its European discovery Dancing the New World traces the transformation of  
the Aztec empire into a Spanish colony through written and visual representations of dance in colonial discourse the vast  
constellation of chronicles histories letters and travel books by Europeans in and about the New World Scolieri analyzes how  
the chroniclers used the Indian dancing body to represent their own experiences of wonder and terror in the New World as  
well as to justify lament and or deny their role in its political spiritual and physical conquest He also reveals that Spaniards  
and Aztecs shared an understanding that dance played an important role in the formation maintenance and representation of  
imperial power and describes how Spaniards compelled Indians to perform dances that dramatized their own conquest  
thereby transforming them into colonial subjects Scolieri s pathfinding analysis of the vast colonial dance archive  
conclusively demonstrates that dance played a crucial role in one of the defining moments in modern history the European
