British Working Class women authors (born before 1962) a list Stefan Szczelkun ,2025-06-07 A collection of Wikipedia articles edited reformatted and with additions In chronological order References and sections on non literary activity are sometimes omitted hopefully not to the point of misrepresenting the author which might include feminist or political activism To my surprise the biographical material on Wikipedia was sometimes mesmerising although it was uneven Where there were gaps I have tried to fill them from other sources Refer back to the wikipedia articles for more context and references in some cases and if you have a verified source of information please update the Wikipedia article Wikipedia is published under a creative commons licence So this compilation also carries a creative commons licence

Introduction Looking through Sarah Richardson s Writing on the Line 1996 I was struck by how many of the working class women writers were from North America and how many more were poets Howard Slater had made a list of British working class male novelists and I selected British woman writers from Writing on the Line and found that most of them now have Wikipedia pages I first made a list of links Wanting to take this further I first looked to focus on novels and short story writers but this category started to break up as many writers wrote in many idioms producing fact fiction poetry plays screenwriting and journalism I decided on an arbitrary cut off point of writers born before 1962 When I first made the list I was thinking how few working class women novelists had been published in this period But then the lists of books by each author started to stack up and there s plenty to read and much that I missed even really hearing about Of course it focuses on the most successful others who produced a community published autobiography or self published novel did not get a Wikipedia page and they should really be included every life counts Others only published an autobiography perhaps in the last years of life

but were extraordinary writers and people We could also discuss the genre snobbery in literary circles that puts crime young peoples literature romantic and fantasy fiction and perhaps historical based narratives in a lower category than the novel

The Fate of Gender Frank Browning,2016-06-07 Frank Browning takes us into human gender geographies around the world from gender neutral kindergartens in Chicago and Oslo to women s masturbation classes in Shanghai from conservative Catholics in Paris fearful of God and Nature to transsexual Mormon parents in Utah As he shares specific and engaging human stories he also elucidates the neuroscience that distinguishes male and female biology shows us how all parents brains change during the first weeks of parenthood and finally how men s and women s responses to age differ worldwide based not on biology but on their earlier life habits Starting with Simone de Beauvoir s world famous observation that one is not born a woman but instead becomes a woman Browning goes on to show equally that no one is born a man but learns how to perform as a man and that there is no fixed way of being masculine or feminine Increasingly the categories of male and female and even gay and straight seem old fashioned and reductive Just visible on the horizon is a world of gender and sexual fluidity that will remake our world in fundamental ways Linking science to culture and behavior and delving into the lives of individuals challenging historic notions Browning questions the traditional division of Nature vs Nurture in everything from plant science to sexual expression arguing in the end that life consists of an endless waltz between these two ancient notions
