Small Urban Interiors ,2002 *Detroit Home* ,2004 *Small Urban Interiors* Ana Cristina G. Cañizares,2002 Urban Design: Green Dimensions Peter Shirley,J. C. Moughtin,2006-08-11 Sets sustainable urban design in a regional and political context providing real life attainable guidance Provides inspiration for planners worldwide through international examples and case studies Includes latest hot topics in sustainability to give your designs the cutting edge Urban Design and Planning for Age-Friendly Environments Across Europe: North and South Elisa Pozo Menéndez,Ester Higuera García,2022-09-29 This book represents a multidisciplinary and international vision across different countries in Europe that are facing similar challenges about ageing and quality of life in present cities It is divided in three main topics from the global context of health in cities and reduction of health inequities to the current research of different study cases focusing on residential models and the relationship with the built environment The third chapter illustrates best practices with some study cases from different cities in Europe Friendlier environments for older people come together with the need of innovation smart and updated technologies healthier environments and mitigation of climate change Health re appears nowadays as one of the priorities for urban planning and design not only for the communicable diseases and the effect of the pandemics but also for the non communicable diseases that were also triggering the wellbeing and equity of our cities Indeed the Covid 19 pandemic has highlighted health inequities and vulnerabilities of those areas of the city that were already deprived and facing other health problems such as obesity diabetes social isolation respiratory problems or mental health issues specifically applying for vulnerable groups Older adults have been one of the most affected groups from the pandemic s threats and derived consequences In this context the care crisis arises intertwined with the design and planning of our cities where there is an urgent need to regenerate our environments with a perspective of sustainability inclusion and health prevention and promotion From the global urban challenges to the specific contextualisation of each city and study cases each chapter offers an updated insight of the main questions that we should consider to address urban planning and design from the perspective of ageing and social inclusion in European cities *Urban Design and Human Flourishing* Tim G. Townshend,2021-04-12 The built environment influences health and well being in a myriad of ways Some neighbourhoods are plagued by busy roads that are a constant source of danger noise and air pollution In some cities there is inadequate green space for children to play and socialise safely Yet this book argues it does not have to be this way With focus on human health well being and flourishing this book explores the ways in which people s lives are impacted by the built environment and how we can create adapt and design healthy and inclusive places The volume explores the relationship between urban design and human flourishing and initiates broad discussions around relevant questions such as What is a healthy place What influences our perceptions of built environment more Is it our age or our cultural background The book includes six chapters from internationally renowned authors who attempt to unpack some of the key aspects that urban designers need to consider

in order to create places that enable rather than constrain individuals and communities to live rich fulfilling lives This book will be of great value to students scholars and researchers interested in urban design planning and in exploring how built environment impacts health and happiness The chapters in this book were originally published as a special issue of the Journal of Urban Design

Regenerative by Design David Cheshire,2024-10-01 How do we design cities and buildings that metabolise use living materials and are net positive that give back more to the planet than they take Our cities and buildings are a drain on the planet requiring huge amounts of resources and tracts of land to support their needs and destroying biodiversity in the process The idea of living regenerative buildings is gaining ground buildings that give back more than they take providing habitats ecosystems services e g clean water clean air locally grown food and putting humans back in touch with the natural world The climate and biodiversity crisis has driven organisations to set ambitious net zero carbon and ESG targets however many are struggling to see how to achieve them and often doing the same thing but expecting a different result This book sets out the regenerative building agenda and design principles showing how buildings towns and cities could start to have a positive impact on our planet providing ecosystems services and living within the means afforded by the site

Universal Design 2021: From Special to Mainstream Solutions Ira Verma,2021-07-15 Universal Design is a process for creating an equitable and sustainable society It is a concept committed to recognizing and accepting each individual s potential and characteristics and promoting the realization of a built environment that does not stigmatize users but enables everyone to participate fully in their community This book presents 32 articles from the 5th International Conference on Universal Design UD2021 Previous Universal Design conferences have been organized biennially but the 2020 conference was postponed due to COVID 19 restrictions and eventually held online from 9 11 June 2021 UD2021 brings together a multidisciplinary group of experts from around the world to share knowledge and best practice with the common goal of shaping the way we design avoiding stereotyped or discriminatory views and solutions that could stigmatize particular groups of people The articles are organized into chapters under seven broad themes universal design and inclusive design user experience and co design access to education and learning environment web accessibility and usability of technology architecture and the built environment mobility and transport and designing for older people The current situation has highlighted not only the importance of web accessibility the user friendliness of interfaces and remote connections during the last year the importance and quality of our daily living environment access to services and green space has also become ever more obvious This book will be of particular interest to those working to enable all those with disabilities or impairments to live independently and participate fully in all aspects of life

WHAT'S IN 2012-2016 WHATS IN, 2017-09-03 Boston was ranked by The Economist as a top 10 city globally for its demonstrated ability to attract capital businesses talent and visitors Sounds like a great place to live Yes but only if you can afford it Over a third of the Boston population spends over 30%% of their annual income on housing More and more people are being forced out of the city Established in 2012 by a group of young architects who were challenged to balance a base line income against the rising housing cost WHAT S IN set a goal to find urban housing solutions that are more accessible to the greater workforce Over the course of 5 years the research group gathered data on housing preferences designed affordable housing prototypes cultivated collaborations with other groups with similar interests and created an idea sharing platform through an annual exhibit In this book we will take you on a journey of our discoveries from 2012 2016 where we strived to create an affordable downtown Boston living for everyone

Designed Ecologies William S. Saunders, 2013-04-30 Kongjian Yu and his office Turenscape are beyond doubt the foremost landscape architecture practice in China today The vast scale of China and her apparently boundless growth have enabled Yu to test many ideas that are still largely theories in the Western world His work increasingly valued and appreciated in Europe and North America has attained an extremely high and elegant level in both

conception and execution Kongjian Yu is known for his ecological stance often against the resistance of local authorities His guiding design principles are the appreciation of the ordinary and a deep embracing of nature even in its potentially destructive aspects such as floods Among his most acclaimed projects are Houtan Park for Shanghai Expo the Red Ribbon Park in Qinhuangdao and Shipyard Park in Zhongshan This book explores Yu s work in 11 essays by noted authors and documents 22 major projects extensively
