Snatch The Inside Story:

Dehumanization and Human Fragility Primavera Fisogni, 2013 When the trade center collapsed in New York I was sitting at my desk at the newspaper La Provincia di Como in Italy If I cannot forget that day it is not only because that major event shuttered me but in reason of the cognitive limits that I could experiment For the first time in my professional career I realized that a further theoretical step was asked in order to throw light on evil doing This philosophical investigation is aimed at exploring the loss of humanity from a phenomenological perspective integrated with a metaphysical approach It collects and develops a decade of theoretical researches mainly published in Italy focused on the anthropological aspects of global terrorism from which I moved further to explore human fragility Despair sloth and the pain of traumas are explored in part II of the investigation that ends with the story of Etty Hillesum the Dutch intellectual who was able to flourish in the midst of the Nazi s hell **CEO, I am Married** Song Guoer, 2019-12-01 On the night of the wedding he had brought

In this illustrated examination of the Lindbergh kidnapping case Jim Fisher seeks to set the record straight regarding Bruno Hauptmann's guilt in the crime of the century. In February 1935 following a sensational six week trial a jury in Flemington New Jersey found German carpenter Hauptmann guilty of kidnapping and murdering the twenty month old son of Charles and Anne Lindbergh. Although circumstantial the evidence against Hauptmann the handwriting on the ransom notes the homemade kidnapping ladder Colonel Lindbergh's money found in his garage his matching the description of the man who accepted the ransom payoff in the Bronx cemetery his inability to prove an alibi and his incredible explanation of his possession of the ransom money was overwhelming leaving few to doubt his guilt. After a series of appeals and stays Hauptmann died fourteen months later in the electric chair. A confession would have spared him the death sentence but Hauptmann chose to die maintaining his innocence. It was not until the mid 1970s that revisionists began to challenge the conventional wisdom in the case that Hauptmann was the lone killer. Revisionist books and articles appeared as did plays TV shows and a movie all portraying Hauptmann as the victim of a massive police and prosecution frame up. At this point the focus shifted from the evidence to the conduct of the police. By the 1980s most people familiar with the case were convinced of Hauptmann's complete innocence. Many denied the murder believing that the Lindbergh baby remained alive. Several men claimed to be the firstborn son of Charles and Anne Lindbergh one of whom sued to claim his share of the Lindbergh estate after Charles Lindbergh's death in 1974. Another group held that the kidnapping was an elaborate hoax to cover up the murder of the baby by his parents. Anna Hauptmann's series of federal lawsuits against New Jersey and others in the mid 1980s fueled further interest in the case. Although Hauptmann's widow lost all of her lawsuits she had won the hearts and minds of the American people before her death at the age of ninety four. Former FBI agent Fisher discusses the hard evidence such as the ransom notes and the wood of the kidnapping ladder. He analyzes and debunks the various revisionist theories and presents new evidence that coupled with the undisputed facts prove beyond a reasonable doubt that Hauptmann was guilty as charged he kidnapped and murdered the infant son of Charles and Anne Lindbergh.

A History of the Indians of the United States Angie Debo, 2013-04-17
In 1906 when the Creek Indian Chitto Harjo was protesting the United States government's liquidation of his tribe's lands he began his argument with an account of Indian history from the time of Columbus for of course a thing has to have a root before it can grow Yet even today most intelligent non Indian Americans have little knowledge of Indian history and affairs those lessons have not taken root This book is an in depth historical survey of the Indians of the United States including the Eskimos and Aleuts of Alaska which isolates and analyzes the problems which have beset these people since their first contacts with Europeans Only in the light of this knowledge the author points out can an intelligent Indian policy be formulated In the book are described the first meetings of Indians with explorers the dispossession of the Indians by colonial expansion their involvement in imperial rivalries their beginning relations with the new American republic and the ensuing century of war and encroachment The most recent aspects of government Indian policy are also detailed the good and bad administrative practices and measures to which the Indians have been subjected and their present situation Miss Debo's style is objective and throughout the book the distinct social environment of the Indians is emphasized an environment that is foreign to the experience of most white men Through ignorance of that culture and life style the results of non Indian policy toward Indians have been centuries of blundering and tragedy In response to Indian history an enlightened policy must be formulated protection of Indian land vocational and educational training voluntary relocation encouragement of tribal organization recognition of Indians social groupings and reliance on Indians abilities to direct their own lives The result of this new policy would be a chance for Indians to live now whether on their own land or as adjusted members of white society

Indian history is usually highly specialized and is never recorded in books of general history This book unifies the many specialized volumes which have been written about their history and culture It has been written not only for persons who work with Indians or for students of Indian culture but for all Americans of good will Mass Media and the Shaping of American Feminism, 1963-1975 Patricia Bradley, 2009-09-18 Beginning in 1963 with the publication of Betty Friedan's *The Feminine Mystique* and reaching a high pitch ten years later with the televised mega event of the Battle of the Sexes the tennis match between Billie Jean King and Bobby Riggs the mass media were intimately involved with both the distribution and the understanding of the feminist message This mass media promotion of the feminist profile however proved to be a double edged sword according to Patricia Bradley author of *Mass Media and the Shaping of American Feminism 1963 1975* Although millions of women learned about feminism by way of the mass media detrimental stereotypes emerged overnight Often the events mounted by feminists to catch the media eye crystalized the negative image All feminists soon came to be portrayed in the popular culture as bra burners and strident women Such depictions not only demeaned the achievements of their movement but also limited discussion of feminism to those subjects the media considered worthy primarily equal pay for equal work Bradley's book examines the media traditions that served to curtail understandings of feminism Journalists following the craft formulas of their trade equated feminism with the bizarre and the unusual Even women journalists could not overcome the rules of *What Makes News* By the time Billie Jean King confronted Bobby Riggs on the tennis court feminism had become a commodity to be shaped to attract audiences Finally in mass media's pursuit of the new counter feminist messages came to replace feminism on the news agenda and helped set in place the conservative revolution of the 1980s Bradley offers insight into how mass media constructs images and why such images have the kind of ongoing strength that discourages young women of today from calling themselves feminist The author also asks how public issues are to be raised when those who ask the questions are negatively defined before the issues can even be discussed *Mass Media and the Shaping of American Feminism 1963 1975* examines the media's role in creating the images of feminism that continue today And it poses the dilemma of a call for systematic change in a mass media industry that does not have a place for systematic change in its agenda Building the Black Metropolis Robert E. Weems Jr., 2017-08-10 From Jean Baptiste Point DuSable to Oprah Winfrey black entrepreneurship has helped define Chicago Robert E Weems Jr and Jason P Chambers curate a collection of essays that place the city as the center of the black business world in the United States Ranging from titans like Anthony Overton and Jesse Binga to McDonald's operators to black organized crime the scholars shed light on the long overlooked history of African American work and entrepreneurship since the Great Migration Together they examine how factors like the influx of southern migrants and the city's unique segregation patterns made Chicago a prolific incubator of productive business development and made building a black metropolis as much a necessity as an opportunity Contributors Jason P Chambers Marcia Chatelain Will Cooley Robert Howard Christopher Robert Reed Myiti Sengstacke Rice Clovis E
