So Rich A Tapestry The Sister Arts And Cultural Studies:

So Rich a Tapestry Ann Hurley, Kate Greenspan, 1995 This interdisciplinary collection differs from other collections of essays on literature and the visual arts in its emphasis on the image as situated in cultural as opposed to perceptual contexts Broadly speaking the writers of these sixteen essays join those who in a variety of fields have been taking note of the ways in which communication relies on a matrix of social or cultural norms From this point of view cultural setting becomes not merely interesting background but intrinsic to comprehension

John Donne's Poetry and Early Modern Visual Culture Ann Hurley, 2005 This study argues the thesis that John Donne's poetry already well served by the insightful close readings of earlier generations of scholars can now profit from being read in the context of early modern cultural experience specifically its visual culture It points out that the focus on visual culture allows for a non monolithic flexible reading of Donne's verse in part because it acknowledges that while the complexity of his religious identity has been well explored the complexity of his secular interest has perhaps been less thoroughly examined Since a study of early modern visual culture is deeply concerned with the vicissitudes of the image both religious and secular such a context serves to integrate what in Donne sometimes invites polarity Focused on close readings of several poems the study is in two parts On the one hand it examines the visual culture of early modern England and argues that reading Donne's poetry enhances our understanding of how that culture actually operated when looked at through the experience of a practicing poet the visual culture through which it participated adds a dimension to that verse that would otherwise be less accessible to us Ann H Hurley is Professor of English at Wagner College

early modern London and Paris Newman challenges the notion of a rupture between premodern and modern societies and shows how London and Paris became cultural capitals Drawing upon poetry plays and prose by writers such as Shakespeare Scud ry Boileau and Donne as well as popular materials including pamphlets ballads and broadsides she examines the impact of rapid urbanization on cultural production Newman shows how changing demographics and technological development altered these two emerging urban centers in which new forms of cultural capital were produced and new modes of sociability and representation were articulated Cultural Capitals is a fascinating work of literary and cultural history that redefines our conception of when the modern city came to be and brings early modern London and Paris alive in all their splendor squalor and richness
