Youth Studies Australia. This book focuses on the impact and effects of masculinities on the lives of boys at school. Through interviews with boys from diverse backgrounds, the authors explore the various ways in which boys define and negotiate their masculinities at school. The following questions and issues are addressed: What does it mean to be a normal boy and who decides this? How do issues of masculinity impact on boys from culturally diverse backgrounds: indigenous boys, those with disabilities and boys of diverse sexualities? What issues of power impact on these boys' lives and relationships at school? What effects do these issues have on boys learning at school? Through problematizing and interrogating the question of what makes a boy a boy, this fascinating title offers recommendations and indicates future directions for working with boys in school. **Boys and Schooling** B. Lingard, W. Martino, M.

Martino, Michael D. Kehler, Marcus B. Weaver-Hightower, 2009-08-03 This book offers an illuminating analysis of the theories, politics and realities of boys' education around the world, an insightful and often disturbing account of various educational systems' successes and failings in fostering intellectual and social growth in male students. Examining original research on the impact of implementing boys' education programs in schools, the book also discusses the role of male teachers in educating boys, strategies for aiding marginalized boys in the classroom and the possibilities for gender reform in schools that begins at the level of pedagogy. Complete with case studies of various classrooms, school districts and governmental policy programs, the detailed essays collected provide a look into education's role in the development of masculinities, paying special attention to the ways in which these masculinities intersect with race, class and sexuality to complicate the experience of boys within and outside of a classroom setting. How High Should Boys Sing? Martin Ashley, 2016-04-29 A boy sings a beautiful thing www.boychoirs.org but is it What kinds of boy singing what kinds of music and to whom Martin Ashley presents a unique consideration of boys singing that shows the high voice to be historically culturally and physiologically more problematic even than is commonly assumed Through Ashley's extensive conversations with young performers and analysis of their reception by peer audiences the research reveals that the common supposition that boys don't want to sound like girls is far from adequate in explaining the missing males syndrome that can perplex choir directors The book intertwines the study of singing with the study of identity to create a rich resource for musicians scholars teachers and all those concerned with young male involvement in music through singing The conclusions of the book will challenge many attitudes and

unconsidered positions through its argument that many boys actually want to sing but are discouraged by a failure of the adult world to understand the boy mind Ashley intends the book to stand as an indictment of much complacency and myopia with regard to the young male voice A substantial grant from the Arts and Humanities Research Council has enabled the production of a multi media resource for schools choirs and youth organizations called Boys Keep Singing Based on the contents of this book the resource shows how once the interest of boys is captured in primary schools their singing can be sustained and developed through the difficult but vital early secondary years of ages 11 14 about which this book says so much The resource is lavishly illustrated by short films of boys singing supported by interviews with boys and their teachers and a wealth of of animated diagrams and cartoons It is available to schools and organizations involved in musical education through registration at www.boyskeep.singing.com

Boys, Bodies, and Physical Education Göran Gerdin, 2017-01-12 Using visual ethnography this book explores the many forms of pleasures that boys derive in and through the spaces and their bodies in physical education Employing the works of Michel Foucault and Judith Butler Gerdin examines how pleasure is connected to identity schooling and power relations and demonstrates how discourses of sport fitness health and masculinity work together to produce a variety of pleasurable experiences At the same time the book provides a critique of such pleasurable experiences within physical education by illustrating how these pleasures can still for some boys quickly turn into displeasures and can be associated with exclusion humiliation bullying and homophobia Boys Bodies and Physical Education argues that pleasure can both be seen as an educational and productive practice in physical education but also a constraint that both engenders and privileges some boys over others as well as re producing narrow and limited conceptions of masculinity and pleasures for all boys This book works to problematize these pleasures and their articulations with gender bodies and spaces

Gender, Race, and the Politics of Role Modelling Wayne Martino, Goli Rezai-Rashti, 2012-03-12 This book provides an illuminating account of teachers own reflections on their experiences of teaching in urban schools It was conceived as a direct response to policy related and media generated concerns about male teacher shortage and offers a critique of the call for more male role models in elementary schools to address important issues regarding gender race and the politics of representation By including the perspectives of minority teachers and students and by drawing on feminist queer and anti racist frameworks this book rejects the familiar tendency to resort to role modelling as a basis for explaining or addressing boys disaffection with schooling Indeed the authors argue on the basis of their research in urban schools in Canada and Australia that educational policy concerned with male teacher shortage and the plight of disadvantaged minority boys would benefit from engaging with analytic perspectives and empirical literature that takes readers beyond hegemonic discourses of role modelling A compelling case is presented for the need to disarticulate discourses about role modelling from a politics of representation that is committed to addressing the reality of the impact of racial and structural inequalities on both minority teachers and students participation in the education system The book also provides insight into the persistence of gender inequality as it relates to the status of elementary school teaching as women s work
