Kilani, N. Iheanacho, 2016-12-14 The book is an introduction to the study of culture with emphasis on the dynamism factor intrinsic and susceptible to generating growth development initiatives and change especially in religion and other aspects of Nigerian society The collection of 19 papers is organised into five parts Concepts and Theoretical Alignments Social Institutions in Culture Change and Development Religious Traditions and Change Experience Votaries and Sectarian Reaction to Culture and Religious Change and Pastoral Objective and the Management of Cultural Diversity and Change in Christianity Rethinking Progress Jeffrey C. Alexander, Piotr Sztompka, 2002-09-11 Rethinking Progress provides a challenging reevaluation of one of the crucial ideas of Western civilization the notion of progress Progress often seems to have become self defeating producing ecological deserts overpopulated cities exhausted resources decaying cultures and widespread feelings of alienation The contributors from all over the world present their diversified perspectives on the fate of progress **Housing and Planning References** United States. Department of Housing and Urban Development. Library, 1975 **The Sociology and Politics of Development** Baidya Nath Varma, 2010-11-26 Originally published in 1980 this work answers the crucial question of how social change should be guided in the developing countries Professor Varma begins by posing the problems of the general scope of modernization and the general criteria used in the modernization process He examines carefully some of the models that have been used for this purpose in the past providing extensive summaries of the views on modernization of theorists in various social science disciplines including sociology politics economics and anthropology and stresses the importance of these views in guiding policy decisions The book concludes with a comparison of the development processes of the United States the Soviet Union China Japan and India The Western Devaluation of Knowledge Charles B. Osburn, 2013-12-05 The Western Devaluation of Knowledge is an exploration of the causes and effects of Western cultural changes that have evolved during the past half millennium of industrialization to diminish the value of knowledge as process Western culture has

developed a conceptualization and valuation of knowledge that reverses the traditional knowledge continuum that connects data information to understanding As a result we displace the subjective and human features of knowledge with automated systems that conforms with information and devalues the knowledge process This book explains this change as a result of the industrial influences that began to gain strength in the 15th century and continued on that path through today s economic and cultural globalization The author shows that science and technology while bringing good on many fronts have also Weakened or replaced traditional sources of cultural authority Advanced a materialistic outlook Hastened the broad spread of capitalist values principles and strategies Fostered a pervasive dependence on technological innovation and Nurtured an extreme rationality Osburn shows that while any one of the above cultural currents would have been sufficient to cause deep and generalized change their confluence was the deciding inspiration for a different epistemology one that has altered the generally accepted meaning and valuation of knowledge

Agents of Discord Anson Shupe, Susan E. Darnell, 2011-12-31 It is widely acknowledged that the United States has always provided fertile ground for the growth of new religious movements and cults but modern organized efforts to oppose and restrict them have been less well understood In Agents of Discord Anson Shupe and Susan E Darnell offer a groundbreaking analysis of the operations and motives of these oppositional groups which they generally group under the umbrella term of the anticult movement Historically there have always been parallel groups opposed to certain religious movements whether these be anti Quaker anti Roman Catholic or anti Mormon The authors establish the cultural context of such movements in the nineteenth century They point out the link between modern anticult movements and nativist movements in American history Turning to the postwar era the authors discuss the rise of anticult movements and focus specifically on one of the most prominent the Cult Awareness Network CAN CAN was a two tiered organization Partly composed of volunteers donors and families affected by cult movements it also included what the authors call an inner sanctum of behavioral science professionals attorneys and deprogrammers Using never before reported data on CAN s activities the authors cite an extensive history of financial impropriety that finally led to the organization s bankruptcy They offer a pointed critique informed by current scholarship of the brainwashing model of mental enslavement presented by the anticult movement that has been a central assumption undergirding its activities At the same time they show how increasing professionalization has gradually begun a shift of such movements to a therapeutic model of exit counseling that rejects the crude methods of earlier intervention strategies In their analysis of the anticult movement nationally and internationally Shupe and Darnell merge sociological concepts and social history to make unique sense of a heretofore relatively unexplored phenomenon
