Social Consequences Of Religious Belief:

Social Consequences of Religious Belief William Garrett, 1989 *Social Consequences of Religious Belief* William Garrett, 1989 **The Psychology of Religious Behaviour, Belief and Experience** Benjamin Beit-Hallahmi, Michael Argyle, 2014-03-18 Because society is increasingly secular it may seem irrelevant to consider the psychology of religion But the diversity of our multi ethnic and multi cultural society in fact makes religion more important to the social sciences than it has ever been before What are the social consequences of religion Every day the news is full of events that can be blamed on religion perpetrated by a range of groups from whole societies to individuals Beit Hallami and Argyle are renowned for their clear analytical approach to topics and this new state of the art study of psychology and religion is no exception It will be welcomed as an update to their previous work in the area by social psychologists sociologists and theologians worldwide The Oxford Handbook of the Sociology of Religion Peter Clarke, 2011-02-04 The Oxford Handbook of the Sociology of Religion draws on the expertise of an international team of scholars providing both an entry point into the sociological study and understanding of religion and an in depth survey into its changing forms and content in the contemporary world The role and impact of religion and spirituality on the politics culture education and health in the modern world is rigorously discussed and debated The study of the sociology of religion forges interdisciplinary links to explore aspects of continuity and change in the contemporary interface between society and religion Using a combination of theoretical methodological and content led approaches the fifty seven contributors collectively emphasise the complex relationships between religion and aspects of life from scientific research to law ecology to art music to cognitive science crime to institutional health care and more The developing character of religion irreligion and atheism and the impact of religious diversity on social cohesion are explored An overview of current scholarship in the field is provided in each themed chapter with an emphasis on encouraging new thinking and reflection on familiar and emergent themes to stimulate further debate and scholarship The resulting essay collection provides an invaluable resource for research and teaching in this diverse discipline **Handbook of Religion and Social Institutions** Helen Rose Ebaugh, 2007-10-23 Handbook for Religion and Social Institutions is written for sociologists who study a variety of sub disciplines and are interested in recent studies and theoretical approaches that relate religious variables to their particular area of interest The handbook focuses on several major themes Social Institutions such as Politics Economics Education Health and Social Welfare Family and the Life Cycle Inequality Social Control Culture Religion as a Social Institution and in a Global Perspective This handbook will be of interest to social scientists including sociologists anthropologists political scientists and other researchers whose study brings them in contact with the study of religion and its impact on social institutions **The Oxford Handbook of Social Epistemology** Jennifer Lackey, Aidan McGlynn, 2025 How do we learn from one another on the internet How can we defend ourselves from propaganda and seek the truth How do

our race gender and other aspects of our identity imbue how we learn and know things Social epistemology explores timely and urgent questions such as these which is why the field has seen an explosion of interest in recent years Having originated as a subfield social epistemology now permeates the agenda of mainstream epistemology even though it challenges epistemology's traditional focus on the individual The Oxford Handbook of Social Epistemology offers a collection of cutting edge essays on many of the most important issues in this rapidly growing area of philosophy It takes stock of recent developments in the field and reassesses topics that have been thought to fit comfortably within a more traditional approach to epistemology including our capacities to know our own minds to reason and to remember by examining the ways in which they might be significantly impacted by one's social environment Several chapters interrogate the boundaries of what social epistemology is by exploring its application to significant issues outside of philosophy such as psychology sociology and political theory as well as the ways it intersects with ethics the philosophies of language and mind political philosophy feminist philosophy and critical philosophy of race Divided into seven sections this handbook provides a comprehensive coverage of work in this exciting and fertile area of philosophy as it highlights the relevance and importance of social factors to some of the most pressing epistemological questions facing us as agents in the world [Handbook of the Sociology of Religion](#) Michele Dillon, 2003-08-18 Table of contents *Atheism and Theism* J. J. C. Smart, J. J. Haldane, 2008-04-15 In this book two philosophers each committed to unambiguous versions of belief and disbelief debate the central issues of atheism and theism Considers one of the oldest and most widely disputed philosophical questions is there a God Presents the atheism theism issue in the form of philosophical debate between two highly regarded scholars widely praised for the clarity and verve of their work This second edition contains new essays by each philosopher responding to criticisms and building on their previous work **White Lies** Christopher M. Driscoll, 2015-10-23 White Lies considers African American bodies as the site of cultural debates over a contested white religion in the United States Rooting his analysis in the work of W E B DuBois and James Baldwin Christopher Driscoll traces the shifting definitions of white religion from the nineteenth century up to the death of Michael Brown and other racial controversies of the present day He engages both modern philosophers and popular imagery to isolate the instabilities central to a white religion including the inadequacy of this framing concept as a way of describing and processing death The book will be of interest to students and scholars interested in African American Religion philosophy and race and Whiteness Studies *Religion in Today's World* Melissa M. Wilcox, 2013-12-19 Religion is a major force in contemporary society It is also one of the least understood social and political influences on individuals and communities In this innovative collection of original essays and classic readings experts explore the significance of contemporary religiosity as a source of meaning and motivation how it unites and divides us and how it is used politically and culturally Readers will be introduced to the broad debates in ways that will equip them to analyze discuss and make their own judgments about religion and society This book should be read by anyone interested in understanding religion as a

central source of meaning and politics and is ideally suited for undergraduate teaching on religion and social issues and from a global perspective **Faith and Reason** Nigel Zimmermann, Sandra Lynch, 2021-10-12 What is the fruit of a searching dialogue between faith and reason This book collects theological and philosophical perspectives on the richness of the faith reason dialogue including examples from literature continental and analytic philosophy worship and liturgy and radical approaches to issues of racism and prejudice The authors strongly resist the temptations to either disregard the faith reason dialogue or take it for granted Through their explorations and reflections they open up new vistas and horizons on a topic more necessary than ever *Rebuilding the Matrix* Denis Alexander, 2003 Fresh thinking and new insights on the nature of science in relation to faith showing particularly that 1 true science does not need to be and in fact is not hostile to religious faith and 2 evangelical Christians in general need not be either fearful of nor hostile toward scientific endeavor

Religious Beliefs and Knowledge Systems in Africa Toyin Falola, Nicole Griffin, 2021-09-21 Key to African studies is understanding the knowledge systems of the continent and her diaspora The representation and understanding of Africa are dependent on the observer's definition of knowledge Afrocentric knowledge is comprised of a collection of political religious and indigenous belief systems Religious Beliefs and Knowledge Systems in Africa begins with deconstructing the Western philosophy of knowledge before defining and exploring the epistemic disciplines of Africa It transcends postcolonial critique through an Afrocentric approach to knowledge divided into three key themes The first of these is the African worldview exploring knowledge through eldership witchcraft and divination This is followed up by kingship ideology and epistemologies exploring discussing how politics religion and belief shape African society Finally the world religion chapter examines Christianity Islam and Pentecostalism in their impact on African ways of knowing This book calls to action new fields of study in universities encouraging a greater understanding of African ways of knowing through more nuanced disciplines

Rediscovering the Religious Factor in American Politics David C. Leeg, Lyman A. Kellstedt, 1993 This volume addresses whether and how religion and religious institutions affect American politics and is addressed to readers not only among social scientists and political journalists but also among theologians seminarians and religious leaders The volume is divided into six parts why study religion in the context of politics religion as an orientation toward group religion as a set of public and private practices doctrinal experiential and world view measures leadership stimuli and reference groups and does religion matter in studies of voting behavior and attitudes Annotation copyright by Book News Inc Portland OR

Complementary Views of Western and Islamic Psychology of Religion Sevede Düzgüner, 2022-12-19 Since psychology and religion share the same ground in terms of providing explanations about the human being many religious teachings also contain psychological descriptions Islamic civilization which has existed in vast geographies for centuries offers unique sources to explain human feelings thoughts and behaviors Scientific Western psychology has asserted important theories and researches in understanding human beings Today Western psychology needs to be enriched with new

perspectives to make more comprehensive explanations about people with different cultural backgrounds Written by Sevdener this book is the product of an effort to discuss the human model of Islam and the human theories of psychology with a complementary approach This book recommends methodological points that must be considered while studying both fields It also attempts to draw a road map for further studies by determining the areas where Islamic psychology could contribute to Western psychology

Evolutionary Perspectives on Death Todd K. Shackelford, Virgil Zeigler-Hill, 2019-10-21 The latest volume in this multidisciplinary series on key topics in evolutionary studies Evolutionary Perspectives on Death provides an evolutionary analysis of mortality and the consideration of death Bringing together noted experts from a variety of fields the books emanate from conferences held at Oakland University and are dedicated to providing wide ranging and occasionally provocative views of human evolution The volume on death covers topics from biology anthropology psychology sociology and philosophy with contributors addressing how evolution informs the process of comprehending grieving depicting celebrating and accepting death Among the topics covered Evolutionary perspectives on the loss of a twin Nonhuman primate responses to death Death in literature Witnessing and representing the death of pets The role of human decomposition facilities in shaping American perspectives on death This insightful volume showcases groundbreaking empirical and theoretical research addressing death and mortality from an evolutionary perspective demonstrating the intellectual value of an interdisciplinary approach to understanding psychological processes and behavior Chapter 6 of this book is available open access under a CC BY 4.0 license at link.springer.com

Dogma's Primrose Path John L. Martinez, 2015-02-03 Dogma's Primrose Path addresses how the perpetual presence of ignorance poverty and war throughout the world is accepted by most people as an inevitable consequence of human life given man's incurably evil greedy and violent nature John L. Martinez argues that this almost universal acceptance is itself a dogmatically learned and programmed condition This book suggests that human beings need to discard their dogmatic straightjackets and begin to thrive upon reason logic perception and experience in order to live together fruitfully and peaceably

The Oxford Handbook of Religion and American Politics Corwin E. Smidt, Lyman A. Kellstedt, James L. Guth, 2017 Over the past three decades the study of religion and politics has gone from being ignored by the scholarly community to being a major focus of research Yet because this important research is not easily accessible to nonspecialists much of the analysis of religion's role in the political arena that we read in the media is greatly oversimplified This Handbook seeks to bridge that gap by examining the considerable research that has been conducted to this point and assessing what has been learned what remains unsettled due to conflicting research findings and what important questions remain largely unaddressed by current research endeavors The Handbook is unique to the field of religion and American politics and should be of wide interest to scholars students journalists and others interested in the American political scene

Educational Sociology David Snedden, 1922 Professor Snedden draws upon sociology in every phase of his interesting discussion of educational problems and his approach to these

problems is sociologically sound He starts with the group concept and especially with the primary groups the family and the neighborhood Working from the concrete facts of group life he discusses social forces and processes social values social efficiency and social progress Then he comes to his formulation of the sociological foundations of education in general and of each school subject This book was written to aid in the training of teachers wherein its discussions of educational problems which are well balanced and carefully based upon established data will be especially useful
