Garthoff, 2015-02-24 This is a curated and comprehensive collection of the most important works covering matters related to national security diplomacy defense war strategy and tactics The collection spans centuries of thought and experience and includes the latest analysis of international threats both conventional and asymmetric It also includes riveting first person accounts of historic battles and wars Some of the books in this Series are reproductions of historical works preserved by some of the leading libraries in the world As with any reproduction of a historical artifact some of these books contain missing or blurred pages poor pictures errant marks etc We believe these books are essential to this collection and the study of war and have therefore brought them back into print despite these imperfections We hope you enjoy the unmatched breadth and depth of this collection from the historical to the just published works **The Former Soviet Union in Transition. 2**, 1993 **Army**, 1959 *The Russian Military Today and Tomorrow* ., 2010 **Military Law Review**, 1964 *DA Pam*, 1964 **Bioterrorism: The History of a Crisis in American Society** David McBride, 2022-07-30 Although at the start of the 21st century bioterrorism was newly feared by the public at large it is one threat that institutions have attempted to anticipate for years Originally published in 2003 and now with a new introduction this unique 2 volume collection provides a multi disciplinary resource on the challenges bioterrorism poses for American society and institutions from both legal and political institutions on one hand to public health and medical institutions on the other Volume one documents and analyses the challenge bioterrorism poses to these political economic and legal institutions putting bioterrorism into its historical context as a problem discussed and anticipated by government for decades Volume two documents the challenges bioterrorism poses to public health and public policy as a weapon of disease and fear The materials in these volumes provide case histories and discourse by specialists relating to the ways that the bioterrorism threat has been perceived and approached by US health and law institutions **The Indian Ocean In Global Politics** Larry W. Bowman, Ian Clark, 2019-07-11 This up to date analysis of the major political issues associated with the Indian Ocean region examines recent developments in South Asia the Gulf and Africa and their effect on Indian Ocean security matters and politics Regional perspectives on the problems of the area are assessed as are the roles played by the major external powers with regional interests the United States the Soviet Union and France and such international organizations as the United Nations Nine of the chapters grew out of the International Conference on Indian Ocean Studies held in Perth Australia in August 1979 Three additional chapters were commissioned to ensure a comprehensive view of the issues discussed This
