SCOTT Copy 1 From the John Holmes Library Collection *The Soviet Union and the Horn of Africa during the Cold War*
Radoslav A. Yordanov, 2016-03-17 At the height of the Cold War Soviet ideologues policymakers diplomats and military officers perceived the countries of Africa Asia and Latin America as the future reserve of socialism holding the key to victory over Western forces The zero sum nature of East West global competition induced the United States to try to thwart Soviet ambitions The result was predictable the two superpowers engaged in proxy struggles against each other in faraway little understood lands often ending up entangled in protracted and highly destructive local fights that did little to serve their own agendas Using a wealth of recently declassified sources this book tells the complex story of Soviet involvement in the Horn of Africa a narrowly defined geographic entity torn by the rivalry of two large countries Ethiopia and Somalia from the beginning of the Cold War until the demise of the Soviet Union At different points in the twentieth century this region arguably one of the poorest in the world attracted broad international interest and large quantities of advanced weaponry making it a Cold War flashpoint The external actors ultimately failed to achieve what they wanted from the local conflicts a lesson relevant for U S policymakers today as they ponder whether to use force abroad in the wake of the unhappy experiences in Iraq and Afghanistan Soviet Policy Towards South Africa Kurt M Campbell, 1986-11-11 Eastern Europe, the Soviet Union, and Africa Chris Saunders, Helder Adegas Fonseca, Lena Dallywater, 2023-04-27 It is now widely recognised that a Cold War perspective falls short in unfolding the complex geographies of connections and the multipolarity of actions and transactions that were shaped through the movement of individuals and ideas from Africa to the East and from the East to Africa in the decades in which African countries moved to independence Adopting an interdisciplinary transregional perspective this volume casts new light on aspects of the role of Eastern Europe and the Soviet Union in the decolonisation of Africa Taking further themes explored in a collection of essays published by the editors in 2019 the twelve case studies by authors from South Africa Czech Republic Portugal Russia Hungary Italy Canada Serbia and Germany draw on new sources to explore the history of the ties that existed between African liberation movements and the socialist bloc some of which continue to influence relationships today Chapters contribute to three relevant main themes that resonate in a number of scholarly fields of inquiry ranging from Global Studies Transregional Studies Cold War Studies Global History to African Studies Eastern European Russian and Slavic Studies Reconsiderations Resources and Reverberations Drawing upon newly opened archives and combining transregional perspectives with sources in different languages chapters explicitly point out the shortcomings of past research and debates in the respective field They highlight new avenues which have been developing and which need to be further developed Reconsiderations Selected case studies address the resources of those being active and involved in decolonisation processes be it in East North West and South They reveal Which resources both

material and intellectual are the actors drawing upon On the other hand From which resources are individuals on one side or the other reciprocally or intermittently intentionally kept away Resources Finally the third theme puts an emphasis on the historicity of the processes depicted Studies point to the gaps and dead ends of international support the paths that peter out but also to repercussions and reverberations up until today Reverberations Taken these three themes together the individual chapters contribute to the overall question of Which general historical narratives about the second half of the 20th century are changing based on these new research findings *The Soviet Union in the Third World* Robert H. Donaldson, 2022-12-28 The Soviet Union in the Third World 1981 analyses Soviet objectives in the developing world the instruments of foreign policy employed and their success and failure the implications of Soviet foreign policy for the international system in general and the US foreign and defence policies in particular Twenty leading specialists examine Soviet involvement in Latin America Africa the Middle East and Asia and discuss the subject from both security and economic perspectives **AF Press Clips**, 1987 **Africa, Problems & Prospects** United States. Department of the Army, 1977 *AF Press Clips* United States Department of State. Bureau of African Affairs, 1979 Southern Africa Since The Portuguese Coup John Seiler, 2019-09-05 First published in 1980 Toward the end of 1975 the author decided to edit a collection of essays on political developments in Southern Africa Regional events since the Portuguese coup in April 1974 had already made an enormous impact first suggesting the possibilities of peaceful accommodation between South Africa and its neighbors but then demonstrating the destructive impact in Angola of widespread international intervention in the latter half of 1975 From 1975 to the present events in Southern Africa have neared center stage in international attention but as these essays will show outstanding regional differences are no closer to peaceful resolution in late 1979 than they were in early 1976
