The French Revolutionary Tradition in Russian and Soviet Politics, Political Thought, and Culture Jay Bergman, 2019 The Bolsheviks sought legitimacy and inspiration in historic revolutionary traditions and Jay Bergman argues that they saw the revolutions in France in 1789 1830 1848 and 1871 as supplying practically everything Marxism lacked including guidance in constructing socialism and communism and useful fodder for political and personal polemics *The Rise and Fall of the Soviet Navy in the Baltic 1921-1941* Gunnar Åselius, 2005-01-10 This book based on extensive work in Russian archives investigates how strategy organisational rivalry and cultural factors came to shape naval developments in the Soviet Union up to the invasion of 1941

Soviet Motor Torpedo Boats of World War II Przemyslaw Budzbon, 2025-03-27 In the 1920s and 30s aircraft designer Andrey Tupolev designed a series of advanced torpedo boats for the USSR Superbly illustrated this is their first history in English The Soviet Navy's fast attack craft were inspired by the 1919 Kronstadt raid conducted by British hydroplaning torpedo armed Coastal Motor Boats CMBs The first were to be CMB copies but with Soviet shipbuilding incapable of the project it was handed to the Aerodynamic Institute headed by Andrey Tupolev Built with aircraft engines and technology his 50kt boats were as photogenic as they were bumpy and noisy and made a vivid impression on propaganda newsreels Some were adapted with remote control guidance a pioneering development of the naval drone Written by a former Soviet naval architect this book is the first in English to offer a history of these fascinating dashing craft He explains that technically advanced but flawed the Sh 4 and G 5 had no opportunity to act in their designated role in World War II Instead some were employed instead as landing craft while others were rearmed and used as minelayers or subchasers Many were adapted as fire support craft with Katyusha rocket launchers installed Packed with superb new artwork and unpublished photos it examines Tupolev's torpedo boats as well as the handful of other MTBs the Soviet Union fielded It is an account of a rare impressive design in the prewar Soviet Navy

Reader's Guide to Military History Charles Messenger, 2013-10-31 This book contains some 600 entries on a range of topics from ancient Chinese warfare to late 20th century intervention operations Designed for a wide variety of users it encompasses general reviews of aspects of military organization and science as well as specific wars and conflicts The book examines naval and air warfare as well as significant individuals including commanders theorists and war leaders Each entry includes a listing of additional publications on the topic accompanied by an article discussing these publications with reference to their particular emphases strengths and limitations *The Royal Navy and Fishery Protection* Jon Wise, 2023-10-12 From the first recorded mention of British ships protecting of fishing vessels in the late fourteenth century through to recent controversies over the change in emphasis to border patrols and overseas deployments the story of the Royal Navy's Cinderella Fleet involves many dramatic

incidents until now however there has never been a book dedicated to the subject Naval historian Jon Wise's new work will rectify this omission Historically there have been two main reasons why protecting fishing vessels was so important first fish have always constituted an essential part of the nation's diet while secondly fishermen have been an important source of skilled personnel for the Royal Navy itself It is claimed that the Fishery Protection Squadron FPS is the oldest in the fleet pre dating the formal creation of the Navy itself in the early part of the sixteenth century yet it still remains comparatively little known The Squadron's most famous operations were the Cod Wars of 1958-76 but for six centuries it has been engaged in the many important tasks of protection and policing of fishing fleets though more recently it has turned its attention to patrolling oil and gas fields overseeing quotas and sustainability and policing the ongoing disagreements over who can fish where and when The author covers subjects as diverse as the battles with the Dutch for dominance in the North Sea the protection of fishing on the eastern seaboard of America and the role of the Squadron in the two World Wars Containing many first hand accounts this thought provoking narrative will be of particular interest to all those RN personnel who have served in the Squadron and is set to become the definitive account of this vital but often unsung component of Britain's naval forces and its impact on national life
