Moss, 2004-10-01 Moss has significantly revised his text and bibliography in this second edition to reflect new research findings and controversies on numerous subjects He has also brought the history up to date by revising the post Soviet material which now covers events from the end of 1991 up to the present day This new edition retains the features of the successful first edition that have made it a popular choice in universities and colleges throughout the US Canada and around the world **Heritage under Socialism** Eszter Gantner, Corinne Geering, Paul Vickers, 2021-10-15 How was heritage understood and implemented in European socialist states after World War II By exploring national and regional specificities within the broader context of internationalization this volume enriches the conceptual methodological and empirical scope of heritage studies through a series of fascinating case studies Its transnational approach highlights the socialist world's diverse interpretations of heritage and the ways in

which they have shaped the trajectories of present day preservation practices Christianity And Russian Culture In Soviet Society Nicolai N. Petro, 2019-04-11 This book is the product of a three day conference at the Monterey Institute of International Studies It focuses on the tension between the expression of Christian beliefs and the legal restrictions imposed on professions of faith and the importance of Christian culture to perestroika Public Education in the USSR ,1990 *The Totalitarian Paradigm after the End of Communism* ,2022-06-08 Concepts of totalitarianism have undergone an academic revival in recent years particularly since the breakdown of communist systems in Europe in 1989 91 the totalitarian paradigm so it seems to many scholars today had been discarded prematurely in the heat of the Cold War The demise of communism as a social system is however not only an important cause of the recurring attractiveness of the totalitarian paradigm but provides at the same time new evidence and correspondingly new problems of explanation for all approaches in communist studies and totalitarianism theory in particular This book contains articles by philosophers social scientists and historians who reassess the validity of the totalitarian approach in the light of the recent historical developments in Eastern Europe A first group of authors focus on the analytical usefulness and explanatory power of classic concepts of totalitarianism after having observed the failed reforms of the Gorbachev era and the collapse of Europe s communist systems in 1989 91 In these contributions the totalitarian paradigm is contrasted with other approaches with respect to cognitive power as well as normative implications In the second group of contributions the focus is on the reassessment of methodological and theoretical problems of the classic concepts of totalitarianism The authors attempt to reinterpret the classic concepts so as to meet the objections which have been put forward against those concepts during the last decades The study thereby traces some of the intellectual roots of the totalitarian paradigm that precede the outbreak of the Cold War such as the work of Sigmund Neumann and Franz Borkenau It also focuses on the most famous authors in the field Hannah Arendt and Carl Joachim Friedrich In addition it discusses theorists of totalitarianism like Juan Linz whose contributions to totalitarianism theory have too often been overlooked
