[Spectropolis](#) Joshua Comaroff, 2025-11-04 How economic transformation and the spirit world collide in hypermodern Singapore In Singapore the financial center of Southeast Asia hyperurbanization and commercial development exist alongside enduring belief in the economic power of ghosts in their ability to control the flows of money and value and to determine the outcome of investments and wagers Spectropolis explores the unlikely collusion of these two systems demonstrating both the productive role of popular beliefs in the modern world and the surprising correlations between late

capitalism and the workings of the spirit realm Detailing the logic and practices of Singapore's ghost economy from performing exorcisms on real estate development sites to offering money and commodities to the dead as a hedge against precarious real world transactions Joshua Comaroff shows how speculative finance largely governed by chance and volatility is understood via its inherently spectral qualities Through the influence of Chinese Buddhist Taoist thought the movement of capital is placed under the sway of cosmology and geomancy resulting in a built environment that is both technologically advanced and quite literally enchanted Based on detailed case studies and years of extensive fieldwork Spectropolis argues for the power of popular belief systems to theorize contemporary socioeconomic conditions and to give form to collective affect as well as shared aspirations and anxieties As Comaroff demonstrates the uniquely all consuming nature of Singapore's tightly compressed urban economy is such that it may subsume even that which lies beyond the threshold of life itself Retail e book files for this title are screen reader friendly with images accompanied by short alt text and or extended descriptions

Interruptions in Early Modern English Drama Michael M. Wagoner,2022-09-22 To interrupt both on stage and off is to wrest power From the Ghost s appearance in Hamlet to Celia s frightful speech in Volpone interruptions are an overlooked linguistic and dramatic form that delineates the balance of power within a scene This book analyses interruptions as a specific form in dramatic literature arguing that these everyday occurrences when transformed into aesthetic phenomena reveal illuminating connections between characters between actor and audience and between text and reader Focusing on the works of William Shakespeare Ben Jonson and John Fletcher Michael M Wagoner examines interruptions that occur through the use of punctuation and stage directions as well as through larger forms such as conventions and dramaturgy He demonstrates how studying interruptions may indicate aspects of authorial style emphasizing a playwright s use and control of a text and how exploring relative power dynamics pushes readers and audiences to reconsider key plays and characters providing new considerations of the relationships between Othello and Iago or Macbeth and the Ghost of Banquo
