Spanish Cultural Studies The Struggle For Modernity:

Spanish Cultural Studies Helen Graham,1995 This work adopts an interdisciplinary approach in its study of 20th century Spanish culture and society emphasizing contemporary developments The contributors take into account major recent changes which have taken place in the context of higher education Spanish studies *Spanish Cultural Studies* Helen Graham,Jo Labanyi,1996 **Exile and Cultural Hegemony** Sebastiaan Faber,2002 After Francisco Franco's victory in the Spanish Civil War a great many of the country's intellectuals went into exile in Mexico During the three and a half decades of Francoist dictatorship these exiles held that the Republic not Francoism represented the authentic culture of Spain In this environment as Sebastiaan Faber argues in *Exile and Cultural Hegemony* the Spaniards' conception of their role as intellectuals changed markedly over time The first study of its kind to place the exiles' ideological evolution in a broad historical context *Exile and Cultural Hegemony* takes into account developments in both Spanish and Mexican politics from the early 1930s through the 1970s Faber pays particular attention to the intellectuals' persistent nationalism and misplaced illusions of pan Hispanist grandeur which included awkward and ironic overlaps with the rhetoric employed by their enemies on the Francoist right This embrace of nationalism together with the intellectuals' dependence on the increasingly authoritarian Mexican regime and the international climate of the Cold War eventually caused them to abandon the Gramscian ideal of the intellectual as political activist in favor of a more liberal apolitical stance preferred by among others the Spanish philosopher Jose Ortega y Gasset With its comprehensive approach to topics integral to Spanish culture both students of and those with a general interest in twentieth century Spanish literature history or culture will find *Exile and Cultural Hegemony* a fascinating and groundbreaking work **The Cambridge Companion to the Spanish Novel** Harriet Turner,Adelaida López de Martínez,2003-09-11 The *Cambridge Companion to the Spanish Novel* presents the development of the modern Spanish novel from 1600 to the present Drawing on the combined legacies of *Don Quijote* and the traditions of the picaresque novel these essays focus on the question of invention and experiment on what constitutes the singular features of evolving fictional forms It examines how the novel articulates the relationships between history and fiction high and popular culture art and ideology and gender and society Contributors highlight the role played by historical events and cultural contexts in the elaboration of the Spanish novel which often takes a self-conscious stance toward literary tradition Topics covered include the regional novel women writers and film and literature This companionable survey which includes a chronology and guide to further reading conveys a vivid sense of the innovative techniques of the Spanish novel and of the debates surrounding it *Roberto Gerhard* Monty Adkins,Rachel E. Mann,2022-11-10 Marking the 125th anniversary of the birth of Roberto Gerhard this work views the composer's life and oeuvre through the lens of the Spanish Civil War exile and cultural translation Through these different threads a new and more nuanced understanding of Gerhard and the political and cultural milieu that influenced his work emerges **Gender and Modernity in Spanish Literature** Elizabeth Smith

Rousselle,2014-10-02 Using each chapter to juxtapose works by one female and one male Spanish writer Gender and Modernity in Spanish Literature 1789 1920 explores the concept of Spanish modernity Issues explored include the changing roles of women the male hysteric and the mother and Don Juan figure *A History of Spanish Film* Sally Faulkner,2013-04-11 A History of Spanish Film explores Spanish film from the beginnings of the industry to the present day by combining some of the most exciting work taking place in film studies with some of the most urgent questions that have preoccupied twentieth century Spain It addresses new questions in film studies like prestige film and middlebrow cinema and places these in the context of a country defined by social mobility including the 1920s industrial boom the 1940s post Civil War depression and the mass movement into the middle classes from the 1960s onwards Close textual analysis of some 42 films from 1910 2010 provides an especially useful avenue into the study of this cinema for the student Uniquely offers extensive close readings of 42 films which are especially useful to students and teachers of Spanish cinema Analyses Spanish silent cinema and films of the Franco era as well as contemporary examples Interrogates film s relations with other media including literature pictorial art and television Explores both auteur and popular cinemas Establishes prestige and the middlebrow as crucial new terms in Spanish cinema studies Considers the transnationality of Spanish cinema throughout its century of existence Contemporary directors covered in this book include Almod var Bolla n D az Yanes and more

Configuring Community Parvati Nair,2004 Annotation The concept of community has become central to constructions of Spanish identities since the Transition to democracy Contemporary Spain witnesses a political social and economic resurgence of community which both cuts across and is prioritized over nation Yet few studies of contemporary Spanish culture deal with this concept This book aims therefore to fill a gap in Spanish cultural studies by providing an in depth analysis of the intersections of theories narratives and concepts of community identities across a broad range of media Literature film music and photography are analysed here in order to explore the diverse means by which community is imagined and constructed This is a strongly interdisciplinary study bringing together cultural studies and ethnography The specific texts that are analysed are located within a larger framework provided by Spain s involvement in processes of globalization Unusual in this study therefore is the use of fieldwork and interview as well as the application of the work of cultural theorists to the Spanish context This book thus extends the field of Spanish cultural studies through its original and deliberate examination of community it is equally relevant to a more general reading public interested in the diverse media covered here By the same token this book is of relevance to scholars in the Arts Social Sciences and Humanities through its exploration and application of the ideas of theorists of modernity space and time BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved **Spanish New York Narratives 1898-1936** David

Miranda-Barreiro,2017-07-05 In the early decades of the twentieth century New York caught the attention of Spanish writers Many of them visited the city and returned to tell their experience in the form of a literary text That is the case of Pruebas de

Nueva York 1927 by Jose Moreno Villa 1887 1955 El crisol de las razas 1929 by Teresa de Escoriaza 1891 1968 Anticipolis 1931 by Luis de Oteyza 1883 1961 and La ciudad automatica 1932 by Julio Camba 1882 1962 In tune with similar representations in other European works the image of New York given in these texts reflects the tensions and anxieties generated by the modernisation embodied by the United States These authors project onto New York their concerns and expectations about issues of class gender and ethnicity that were debated at the time in the context of the crisis of Spanish national identity triggered by the end of the empire in 1898

Contemporary Hispanic Poets: Cultural Production in the Global, Digital Age John Burns, 2015-03-15 Poets writing in Spanish by the end of the twentieth century had to contend with globalization as a backdrop for their literary production They could embrace it ignore it or potentially re imagine the role of the poet altogether This book examines some of the efforts of Spanish language poets to cope with the globalizing cultural economy of the late twentieth century This study looks at the similarities and differences in both text and context of poets some major and some minor writing in Chile Mexico the Mexican American community and Spain These poets write in a variety of styles from highly experimental approaches to poetry to more traditional methods of writing Included in this study are Chileans Raúl Zurita and Cecilia Vicuña Spaniards Leopoldo Marañón and Luis García Montero Mexicans Silvia Tomasa Rivera and Guillermo Gómez-Peña and Mexican American Juan Felipe Herrera Some of them embrace and are even embraced by media both old and new whereas others eschew it Some continue their work in the vein of national traditions while others become difficult to situate within any one single national tradition Exploring the varieties of strategies these writers employ this book makes it clear that Spanish language poets have not been exempt from the process of globalization Individually these poets have been studied to varying degrees Globalization has been studied extensively from a variety of disciplinary approaches particularly in the context of the Latin American region and Spain However it is a relative rarity to see poets being studied as they are in this work in terms of their relationship to globalization Taken as a sample or snapshot of writing tendencies in Latin American and Spanish poetry of the late twentieth century this book studies them as part of a greater circuit of cultural production by establishing their literary as well as extra literary genealogies and connections It situates these poets in terms of their writing itself as well as in terms of their literary traditions their methods of contending with neoliberal economic models and global information flows from the television and Internet Although many literary critics attempt to study the connections and relationships between poetry and the world beyond the page few monographs go about it the way this one does It takes a transatlantic approach to contemporary Spanish language poetry focusing on poets on poets from Spain and the American continent emphasizing their connections commonalities and differences across increasingly porous borders in the age of information The relationship between text and context is explored with a cultural studies approach more often associated with media studies than with literary studies Literature is not treated as a privileged object of isolated study but rather as a system of ideas and images that is deeply interwoven with other forms of human

expression that have arisen in the last decades of the twentieth century The result is a suggestive analysis of the figure of the poet in the broader globalized marketplace of cultural goods and ideas Contemporary Hispanic Poets Cultural Production in the Global Digital Age is an important book for library collections in Spanish Latin American and Iberian Studies Chicano Studies
