Spasticity - a Topical Survey Walther Birkmayer,1972 **Neurosurgery for Spasticity** Marc P. Sindou,I. Richmond Abbott,Yves Keravel,2012-12-06 Spasticity is one of the commonest sequelae of neurological disease and during the last few years many advances have been made in the treatment of this complaint by functional neurosurgery This book will appeal to neurosurgeons orthopaedic surgeons and neurologists amongst others Annals of the Royal College of Surgeons of England

Local-spinal Therapy of Spasticity Hermann Müller,Jan Zierski,Richard D. Penn,2012-12-06 Historical photograph of spinal anaesthesia In 1884 the American neurologist J L Loewson His discovery however marks the beginning by blocking the neural conduction onset of the era of regional anaesthesia It took almost one hundred years until his induction to the hind extremities of a dog by injecting cocaine solution into the lumbar region original idea of local medication of the vertebral interspace was the first to per cord was again reconsidered due to two forms spinal or epidural anaesthesia 1 reasons At that time he was unaware of the local anaesthetic properties of cocaine in the spinal cord made it possible by in 1895 covered in the same year by C Koller who intrathecal injection or epidural application if the drug penetrates the dura applied cocaine to the eye of one of his patients 3 and did not intend to introduce to alter nociceptive or motor transmission an anaesthetic procedure Corning's position within the spinal cord many aims was the application of drugs in 2 Implantable devices for long term application proximity of the central nervous system i.e. injection of drugs to specific sites of the spinal cord in order to treat or even heal body including the spinal spaces were developed during the 1970s **Upper**

Motor Neurone Syndrome and Spasticity Michael P. Barnes,Garth R. Johnson,2001-02 This is a thorough practical reference and guide for all health professionals involved in the management of spasticity *Clinical Uses of Botulinum Toxins* Anthony B. Ward,Michael P. Barnes,2007-03-22 Botulinum toxins now play a very significant role in the management of a wide variety of medical conditions from headaches to hypersalivation and from spasticity to sweating In this book a strong international team of experts outline the basic neurochemistry of botulinum toxins and chart the progress of the drug from laboratory to clinic Then individual chapters summarize their use for the main clinical indications in the context of other available treatments This book will be of interest to neuroscientists and practising clinicians working in a wide range of specialities from neurology and dermatology to pediatrics plastic surgery and rehabilitation medicine **Spasticity** Elie Elovic, MD,2010-08-31 Spasticity Diagnosis and Management is the first book solely dedicated to the diagnosis and treatment of spasticity This pioneering work defines spasticity in the broad context of Upper Motor Neuron Syndrome and focuses not on a single component but on the entire constellation of conditions that make up the UMNS and often lead to

Neurological Rehabilitation Michael P. Barnes,David C. Good,2013-01-10 Neurological Rehabilitation is the latest volume in the definitive Handbook of Clinical Neurology series It is the first time that this increasingly important subject has been included in the series and this reflects the growing interest and quality of scientific data on topics around neural

recovery and the practical applications of new research The volume will appeal to clinicians from both neurological and rehabilitation backgrounds and contains topics of interest to all members of the multidisciplinary clinical team as well as the neuroscience community The volume is divided into five key sections The first is a summary of current research on neural repair recovery and plasticity The authors have kept the topics readable for a non scientific audience and focused on the aspects of basic neuroscience that should be most relevant to clinical practice The next section covers the basic principles of neurorehabilitation including excellent chapters on learning and skill acquisition outcome measurement and functional neuroimaging The key clinical section comes next and includes updates and reviews on the management of the main neurological disabling physical problems such as spasticity pain sexual functioning and dysphagia Cognitive emotional and behavioural problems are just as important and are covered in the next section with excellent chapters for example on memory and management of executive dysfunction The final part draws the sections on symptom management together by discussing the individual diseases that are most commonly seen in neurorehabilitation and providing an overview of the management of the disability associated with those disorders The volume is a definitive review of current neurorehabilitation practice and will be valuable to a wide range of clinicians and scientists working in this rapidly developing field A volume in the Handbook of Clinical Neurology series which has an unparalleled reputation as the world s most comprehensive source of information in neurology International list of contributors including the leading workers in the field Describes the advances which have occurred in clinical neurology and the neurosciences their impact on the understanding of neurological disorders and on patient care
