

... a fascinating account, written by someone closely involved in the struggle and current events is a search for an understanding of what are possibly the most mysterious objects in the universe, black holes.

Stephen Hawking, from the Foreword

Black Holes and Time Warps is superb. It is what many other books about the subject ought to have been and were not. The mixture of scientific history and vivid and careful explanation of the science ... works well. I think the book itself will live a long time!
