*Spirals* Joan Gould, 2012-10-31 A journey to the center of a woman's life Maggie Scarf A moving and exquisitely drawn portrait *Spirals* is about commitment courage and the meaning of love New Woman Family Familiar Only my family isn't familiar at all My friends are familiar my friends are as dependable as telephone poles but the members of my family change in size looks powers burdens and expectations when all I ask of them is that they remain the same Children grow gather power while their parents lose it leave home travel in other orbits Parents move remarry or don't remarry dwindle away die Spouses may stay around for a long while mine did for twenty eight years but sooner or later they leave And I keep changing too even though I'm the one who stays home I picture myself in the role of mother particularly the mother of young children because this is a self I like distracted and short tempered I grant you but well meaning in spite of outbursts Still I have to recognize that this is different from the self who was a daughter or wife and these don't have much in common with the new apprentice selves who have to learn a whole set of limits as mother of adults mother in law widow and grandmother One thing these selves have in common however They're not the same as my self when I'm alone from *Spirals* **The**

**Caregiver's Tale** Ann Burack-Weiss, 2006-03-14 Ann Burack Weiss explores a rich variety of published memoirs by authors who cared for ill or disabled family members Contrary to the common belief that caregiving is nothing more than a stressful situation to be endured memoirs describe a life transforming experience self discovery a reordering of one's priorities and a changed view of the world *The Caregiver's Tale* offers insight and comfort to individuals caring for a loved one and is a valuable resource for all health care professionals Identifying common themes Burack Weiss describes how the illness career and social meaning of cancer dementia HIV AIDS mental illness and chemical dependence affect the caregiving experience She applies the same method to an examination of family roles parents caring for ailing children couples and siblings caring for one another and adult children caring for aging parents Jamaica Kincaid Sue Miller Paul Monette Kenzaburo O and Philip Roth are among the many authors who share their caregiving stories Burack Weiss provides an annotated bibliography of the more than one hundred memoirs and an accompanying chart to help readers locate those of greatest interest to them

*Living in Death's Shadow* Emily K. Abel, 2017-02-28 Challenging assumptions about caregiving for those dying of chronic illness What is it like to live with and love someone whose death while delayed is nevertheless foretold In *Living in Death's Shadow* Emily K Abel an expert on the history of death and dying examines memoirs written between 1965 and 2014 by family members of people who died from chronic disease In earlier eras death generally occurred quickly from acute illnesses but as chronic disease became the major cause of mortality many people continued to live with terminal diagnoses for months and even years Illuminating the excruciatingly painful experience of coping with a family member's extended fatal illness Abel analyzes the political personal cultural and medical dimensions of these struggles The book focuses on three significant developments that transformed the experiences of those dying and their intimates the passage of Medicare and

Medicaid the growing use of high tech treatments at the end of life and the rise of a movement to humanize the care of dying people It questions the exalted value placed on acceptance of mortality as well as the notion that it is always better to die at home than in an institution Ultimately *Living in Death's Shadow* emphasizes the need to shift attention from the drama of death to the entire course of a serious chronic disease The chapters follow a common narrative of life threatening disease learning the diagnosis deciding whether to enroll in a clinical trial acknowledging or struggling against the limits of medicine receiving care at home and in a hospital or nursing home and obtaining palliative and hospice care *Living in Death's Shadow* is essential reading for everyone seeking to understand what it means to live with someone suffering from a chronic fatal condition including cancer AIDS Alzheimer's and heart disease      **A Desire for Women** Suzanne Juhasz, 2003 Annotation

woman arises as central to our journey If wise old women were visible and powerful perhaps we would all be better educated about the female half of our religious history If we honored the crone as a symbol of our earthly transformation the cycle of death and new life perhaps we would be less likely to destroy the life giving systems of our planet If we learned to respect indigenous cultures where old women are still revered perhaps we could stem the violence against women and between cultures that pervades so much of our world The Grandmother Galaxy explores some of these possibilities and asks Could a growing galaxy of grandmothers lead us onto new paths for the future *Brunner and Suddarth's Textbook of Medical-surgical Nursing* Brenda G.
