Spirit Of Jewish Thought:

The Spirit of Jewish Thought Bernard Evslin, 1969 **The Spirit of God in Jewish Thought** Norman Henry SNAITH, 1937 **The Holy Spirit in Thought and Experience** Thomas Rees, 1915 **First Steps to a New Jewish Spirit** Zalman Schachter-Shalomi, Donald Gropman, 2003 Now more than ever people of all backgrounds are on a quest to express their spiritual stirrings and for practical ways to incorporate the Divine into modern life *The First Steps to a New Jewish Spirit* is an extraordinary handbook that restores psychic and physical vigor by introducing readers to new models and alternative ways of practicing Judaism Hebrew Language and Jewish Thought David Patterson, 2004-09 This book explores the idea that Jewish thought is distinguished by concepts and categories rooted in Hebrew An Introduction to Modern Jewish Philosophy Norbert M. Samuelson, 2012-02-01 The book is divided into three sections The first provides a general historical overview for the Jewish thought that follows The second summarizes the variety of basic kinds of popular positive Jewish commitment in the twentieth century The third and major section summarizes the basic thought of those modern Jewish philosophers whose thought is technically the best and or the most influential in Jewish intellectual circles The Jewish philosophers covered include Spinoza Mendelssohn Hermann Cohen Martin Buber Franz Rosenzweig Mordecai Kaplan and Emil Fackenheim The text includes summaries and a selected bibliography of primary and secondary sources

The Pauline Metaphors of the Holy Spirit Erik Konsmo, 2010 In the Pauline literature of the New Testament the characteristics of the Spirit and Christian life are described through the use of metaphor An interpreter of Paul must understand his metaphors in order to arrive at a complete understanding of the Pauline pneumatological perspective Thus *The Pauline Metaphors of the Holy Spirit* examines how the Pauline Spirit metaphors express the intangible Spirit's tangible presence in the life of the Christian Rhetoricians prior to and contemporary with Paul discussed the appropriate usage of metaphor Aristotle's thoughts provided the foundation from which these rhetoricians framed their arguments In this context *The Pauline Metaphors* surveys the use of metaphor in the Greco Roman world during the NT period and also studies modern approaches to metaphor The modern linguistic theories of substitution comparison and verbal opposition are offered as representative examples as well as the conceptual theories of interaction cognitive linguistic and the approach of Zolt n K vecses In examining these metaphors it is important to understand their systematic and coherent attributes These can be divided into structural orientational and ontological characteristics which are rooted in the conceptual approach of metaphor asserted by George Lakoff and Mark Johnson This book evaluates these characteristics against each of the Pauline Spirit metaphors History of Jewish Philosophy Daniel Frank, Oliver Leaman, 2005-10-20 Jewish philosophy is often presented as an addendum to Jewish religion rather than as a rich and varied tradition in its own right but the *History of Jewish Philosophy* explores the entire scope and variety of Jewish philosophy from philosophical interpretations of the Bible right up to contemporary Jewish feminist and postmodernist thought The links between Jewish philosophy and its wider cultural

context are stressed building up a comprehensive and historically sensitive view of Jewish philosophy and its place in the development of philosophy as a whole Includes Detailed discussions of the most important Jewish philosophers and philosophical movements Descriptions of the social and cultural contexts in which Jewish philosophical thought developed throughout the centuries Contributions by 35 leading scholars in the field from Britain Canada Israel and the US Detailed and extensive bibliographies *Spiritual Radical* Edward K. Kaplan,2007-01-01 This ambitious book explores the relationship between time and history and shows how an appreciation of long term time helps to make sense of the past For the historian time is not an unproblematic given but as for the physicist or the philosopher a means to understanding the changing patterns of life on earth The book is devoted to a wide ranging analysis of the way different societies have conceived and interpreted time and it develops a theory of threefold roles of continuity gradual change and revolution that together form a braided history Linking the interpretative chapters are intriguing brief expositions on time travel time cycles time lines and time pieces showing readers the different ways in which human history has been located in time In its global approach the book is part of the new shift towards big history in which traditional period divisions are challenged in favour of looking again at the entire past of the world from start to end The approach is thematic The result is a view of world history in which outcomes are shown to be explicable once they happen but not necessarily predictable before they do This book will inform the work of historians of all periods and at all levels and contributes to the current reconsideration of traditional period divisions such as Modernity and Postmodernity which the author finds outmoded **Contemporary Jewish**

Philosophy Irene Kajon,2020-04-02 This text introduces the most important Jewish philosophers of contemporary times from the point of view of their original approach to both Judaism and philosophy and include Hermann Cohen Franz Rosenweig Martin Buber Leo Strauss Emmanuel Levinas It shows how for them the dialogue between Judaism and philosophy is necessary in order to avoid on one side an attachment to Jewish tradition which is only nationalistic or non rational and on the other an idea of philosophy which first of all focuses the problems of nature human existence in the world or God as the origin of being In reconstructing the intellectual evolution of each of these twentieth century philosophers with a view to their meaning today this book is unique and goes beyond the standard historical account provided by other books

Jewish Philosophy and the Crisis of Modernity Leo Strauss, 2012-02-01 This is the first book to bring together the major essays and lectures of Leo Strauss in the field of modern Jewish thought It contains some of his most famous published writings as well as significant writings which were previously unpublished Spanning almost 30 years of continuously deepening reflection the book presents the full range of Strauss's contributions as a modern Jewish thinker These essays and

lectures also offer Strauss's mature considerations of some of the great figures in modern Jewish thought such as Baruch Spinoza, Hermann Cohen, Franz Rosenzweig, Martin Buber, Theodor Herzl, and Sigmund Freud. They also encompass his incisive analyses and original explorations of modern Judaism which he viewed as caught in the grip of the theological political crisis from German Jewry, anti-Semitism, and the Holocaust to Zionism and the State of Israel from the question of assimilation to the meaning and value of Jewish history. In addition, Strauss's two sustained interpretations of the Hebrew Bible are also reprinted. These essays and lectures cumulatively point toward the postcritical reconstruction of Judaism which Strauss envisioned, suggesting it rebuild along Maimonidean lines. Thus the book lends credence to the view that Strauss was able to uncover and probe the crisis at the heart of modern Jewish thought and history perhaps with greater profundity than any other contemporary Jewish thinker.

Communings of the Spirit Mel Scult, 2020-10-06. Scholars of Judaica and rabbinical studies will value this honest look at the preeminent American Jewish thinker and rabbi of our times.

Jewish Philosophy and Western Culture Victor J. Seidler, 2007-11-28. This is one of the first textbooks to try to set the entire discipline of Jewish philosophy in its proper cultural and historical contexts. In so doing, it introduces the vibrant Jewish philosophical tradition to students while also making a significant contribution to inter-religious dialogue. Victor J. Seidler argues that the dominant Platonic tradition in the West has led to a form of cultural ethics which asserts false superiority in its relationships with others. He offers a critical reappraisal of the philosophical underpinnings of this Western Christian culture which for so long has viewed Judaism with hostility. Examining the work of seminal Jewish thinkers such as Philo, Buber, Mendelsohn, Hermann Cohen, Leo Baeck, Levinas, Rosenzweig, and others, the author argues for a code of ethics which prioritises particular and personal moral responsibility rather than the impersonal and universal emphases of the Greek tradition. His provocative and original overview of Jewish philosophy uncovers a vital and neglected tradition of thought which works against the likelihood of a Holocaust recurring.

Heidegger with Derrida Dror Pimentel, 2019-01-09. *Heidegger with Derrida: Being Written* attempts for the first time to think Heidegger's philosophy through the lens of Derrida's logocentric thesis according to which speech has throughout the history of metaphysics been given primacy over writing. The book offers a detailed account of Derrida's arguments about the debasement of writing, an account that leads to a new definition of writing, conceiving it epistemically rather than linguistically. Heidegger's analysis of the gaze and critique of the modern subject are shown to have logocentric features. This surprising conclusion entails that Heidegger is well within the metaphysical tradition which he labored so intently to overcome. The book sheds new light on the philosophical roots of Heidegger's involvement with Nazism, arguing that his hierarchical thinking, the hallmark of logocentrism and metaphysics, condones violent differentiation between the proper race and the Other.
