G. JUNG: Symbols of Transformation (Volume 5)* C.G. Jung,2014-12-05 In 1911 Jung published a book of which he says it laid down a programme to be followed for the next few decades of my life It was vastly erudite and covered innumerable fields of study psychiatry psychoanalysis ethnology and comparative religion amongst others In due course it became a standard work and was translated into French Dutch and Italian as well as English in which language it was given the well known but somewhat misleading title of The Psychology of the Unconscious In the Foreword to the present revised edition which first appeared in 1956 Jung says it was the explosion of all those psychic contents which could find no room no breathing space in the constricting atmosphere of Freudian psychology It was an attempt only partially successful to create a wider setting for medical psychology and to bring the whole of the psychic phenomena within its purview For this edition appearing ten years after the first bibliographical citations and entries have been revised in the light of subsequent publications in the Collected Works and in the standard edition of Freud s works some translations have been substituted in quotations and other essential corrections have been made but there have been no changes of substance in the text Rudolf Steiner's Vision of Love Bernard Nesfield-Cookson,1999 The author encapsulates Steiner s revelations on the meaning of love and indicates the supreme importance of the greatest of all deeds of love the Mystery of Golgotha **Angelic Wisdom Concerning Divine Love and Wisdom** Emanuel Swedenborg,2005-12-01 The atmospheres which are called aethers and airs are alike in both the spiritual and natural worlds only that those in the spiritual world are spiritual and those in the natural world are natural The former are spiritual because they exist from the sun which is the first proceeding of the divine love and divine wisdom of the Lord and from Him receive in them divine fire which is love and divine light which is wisdom from Part II Emanuel Swedenborg an 18th century inventor and man of science experienced a spiritual epiphany at the age of 56 when he began to explore Christianity from a mystic standpoint a stunning change of heart that has since intrigued and fascinated generations
