Reeves MD, 2020-04-24 We humans are capable of great relationships That is we are capable of grand WE hood This is our heritage though it is often unclaimed In this book we explore this heritage not merely by theorizing about it but rather by presenting several actual statements of relationship in psychotherapy that clearly embody WE hood We will celebrate and study these statements and their significance We will find that they are significant not only for the pair of persons with whom they came

into being but also for the broader world After we explore those human to human statements we will note that WE hood is also said to characterize the divine We will consider parallels between the WE hood attributed to the divine and the WE hood that is observable in human partners in dialogue Then we will be surprised to see how these two realms of human and divine can come together and lead to much deepening of the relationships This deepening will also inform the broader world of language and communication and wisdom and love Dance in wonder **Chalice Hymnal** Daniel B.
