Spiritual Information 100 Perspectives On Science And Religion:

Spiritual Information Charles L. Harper, 2005-06 *Spiritual Information* is a collection of one hundred essays that explore a portion of the vast interdisciplinary approaches to the study of science and religion. Individually and together the essays show how the study of ourselves, our planet, and the universe helps us understand our place as spiritual beings within God's universe. The book is a tribute to Sir John Templeton and his pioneering commitment toward new research that results in one hundredfold more spiritual information than humankind has ever possessed before. It begins with essays that reflect on Sir John's principal domains of interest and expertise: free enterprise, based finance, and accelerating spiritual progress. Themes of the sections are: Science, Religion, Dialogue, Cosmology, Physics and Astronomy, Mathematics, Musicology, and Speculation, Biological Evolution, the Human Being, Social Evolution, the Human Mind and Heart, Religion and Health, The Nature of the Divine, Theology and Philosophy, Faith Traditions. Sir John's leadership has enabled us to edge ever closer to the frontier where knowledge meets wisdom at the threshold of ultimate reality, notes the editor in the preface to this volume. As *Spiritual Information* presents an overview of how far we have come in the science and religion dialogue, it also opens windows to the vast possibilities for additional research and further advances in spiritual information. **Spiritual**

Harper, 2005 **Why Science and Faith Belong Together** Malcolm A. Jeeves, 2021-02-25 As we try to understand ourselves and the world we live in, all too often we look first to science, and then if gaps remain in our understanding we try to fill the gaps with reference to God and our faith. Such a "god of the gaps" approach has a long history and is sadly alive and well today. This book was written to provide an alternative approach posing this basic question: How can educated Christians maintain their intellectual honesty and at the same time be faithful both to Scripture and to science? This book provides

examples of some of the liveliest science vs faith issues today and suggests ways to think constructively about each of them

Proliferation of Religio-Commercial Pastors in Nigeria Chima Agazue,2013-06-13 I think your work is a necessary and valuable exposure of this religious phenomenon and the appallingly cynical exploitation of the religious and cultural beliefs of the poor and the vulnerable I would like to see it published Suzanne Wilton Huddersfield UK The book is particularly apt at this period of Christianity in Nigeria because it addresses the money syndrome that has crept into Christianity in Nigeria and the faking of the call of God The book addresses the yearning of many Christians who are worried by this menace but may not know how to discuss it Reverend Kenneth Nwaubani Abia Nigeria I am particularly impressed by the depth of research that has gone into this book It will generate intellectual discourse challenge our spiritual guardians and mentors and it may well put some of them on the defensive Hon Kazeem Adio Osun Nigeria This book provides an interesting insight into the

plight of religion in Nigeria and into the facet of the human condition that allows for the exploitation of the faithful and vulnerable individuals Will Colbridge Penistone UK Very few publications if any capture through the religious prism the mechanical nature of developing Nigerian society in the way that this publication does Casmir Okoli London UK The book will I believe open the door for many who are still in the dark regarding the subject matter Rev Fr Nicholas Nwagwu New York USA
